crats over the state are becoming somewhat anxious to know just when Chairman Hall is going to call the state committee together for the purpose of fixing a time It is generally accepted now that two conventions will be held. Mr. Hall stated today that in all probability he would call the meeting for about the Brst few days in When the convention gets together the big fight will be upon the next chairman of the state committee. Omaha and Lincoln

will certainly line up on opposite sides and some nice work is now hatching for the capture of this plum. Bryan democrats will go to the national convention, but the conservative democrats are going to make the fight of their lives to keep a rabid Bryan democrat out of the chairmanship. The most prominent man mentioned at this time by the antis for the place is R. E. Lee Herdman, at present clerk of the suprame court. Since becoming the occupant of the most lucrative office in the statehouse, Mr. Herdman has been the bone and sinew of the party and for that reason his friends believe that he will make a good fight for the place. The democrats of Lincoin, however, are aware of Mr. Herdman's views on the next democratic platform and they want none of him, consequently there will be a warm fight, with the result that in all probability the country delegates can select all the national delegates for what they are willing to trade Omaha and Lincoln on the chairmanship of the committee. In all probability South Omaha will hold the balance of power and a man from that town may get on the state ticket. In Lancaster county there are already announced a half dozen candidates for the two as it is conceded that Mr. Bryan will go from here as a delegate-at-large, it is possible that Lincoln will get nothing in the way of district delegates. The candidates, including J. H. Harley, T. D. Worrall, Judge Tibbetts, W. B. Price and others, are

Judges in Consultation.

Chief Justice Holcomb, Judge Barnes and Judge Sedgwick of the supreme court were in consultation today preparatory to holding court tomorrow. At this session of the court in all probability several decisions of much interest will be handed down. It is not unlikely that the South Omaha Fire and Police board case, in which the right of the governor to appoint the board is disputed, will be among the list, as well as City to Vote on Municipal Lighting. the Lillie murder case, with probably the Seward banking cases. The Lillie case has only been in the hands of the court for

sected to come down for some time. The hearing of the testimony in the case of the Bankers Union of the World has been continued until Thursday because the attorneys are busy in the court. It was the desire of Referee Ryan as well as the participants to have the evidence in such shape that a report could be made to the court at this sitting, but there has been so much evidence introduced that this has been impossible, and it will probably not

Printing Assessment Blanks.

The State Board of Equalization met this regulation upon the state printing board for all necessary printing to be used in securing the assessment of corporations. It is still a question with the board whether to use the word credit or gross credit in making up assessments. The legislature debated this question for some days and refused to insert the word net credit for credits, clearly indicating the intention of the members to assess credits without deducting debts. In Commissioner Duffie's opinion on the revenue law he interprets credits to mean net credits. The case has not been officially passed upon by the supreme court, however, and it is probable that a case will be brought to get a decision. It is not necessary for the secretary of the board to have the decision until shortly before April I, when he will for the holding of the state conventions, for send his instructions to the county asses

Of course, so long as he is district attorney it is presumed he can take his own time unless the investigating committee should intimate to Attorney General Knox that delays would not be tolerated and then Mr. Summers might hurry.

Chance for Two Cadets.

Senator Dietrich will have two vacancies to fill at Annapolis and West Point in the next class, nominations for which will be made shortly. A number of applications from young men in the South Platte are already on file and more are expected. It is unusual for a senator to have nominations to both Annapolis and West Point in the same year. This has been brought about, however, by the law passed in 1901, increasing the classes at Annapolis in view of the new battleships and cruisers going into commission and there are not officers nough to man them.
