Fear Shortage of Water.

State Engineer Dobson has received a number of inquiries from irrigators as to the probability of a shortage in the supply of water for irrigation in some sections during the coming season. While it is too early to make any definite statement in regard to this matter, the state engineer wishes to impress upon everyone the advisability of irrigating early in the season. The party who gets his land well irrigated early when water is plenty need have no fears of loss from any possible shortage later on. This is particularly true in regard to the water users along the Platte river, where there is always a sufficiency of water during the months of April, May and June and shortage, if any, comes during the months of July and August.

Will You Help a Sick Friend?

Get My Book for Him Now.

Only tell me which book to send.

You certainly know of some one who is zick—some sufferer who will be grateful for the help my book offers.

And that book tells of a way to help. Tells of a way so certain that I, as a physician, offer that help on trial. The book tells how for 20 years in hospitals and at bedsides I searched for a way to cure deep-seated and difficult diseases. It tells how I perfected my prescription—Dr. Shnop's Restorative. How by scientific experiment I traced out the causes that bring on chronic diseases.

I found invariably that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I always found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside—the invisible nerves.

commonly thought of, but the vital organs' nerves. The inside—the invisible nerves.

This was a revelation. Then my real success began. Then I combined ingredients that would strengthen, that would vitalize, these nerves.

That prescription I called restorative, It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred. medicine.

Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. But, thought I, will they realize the real truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way came to me—like an inspiration. "I will offer it to the sick on trial. Then they will know I am sincere—that my prescription is unusual."

I wrote a reliable druggist in each city and village in America. They agreed to co-operate with me. Now by any sick one
