The votes both on ratification and the Bacon amendment were not made public, When the senate went into executive sestreaty to a vote the amendments which damage until a protracted thaw comes. were offered by the committee on foreign relations and afterward withdrawn were again offered and voted down. 'The Bacon amendment, providing for a treaty with Colombia, with a view to satisfying any future demands of that country on account of the secession of Panama, also was rejucted by the senate.

After voting down the amendments offored, Senator Morgan made an extended speech in opposition to the treaty in its America the constitution was adopted after present form.

The closing day's debate on the Panama canal treaty opened at 11:15 today. Mr. Bacon (Ga.) took the floor to explain his vote. He said there had been a serious question raised as to whether a senator should be guided by the wishes of his constituents or by his own judgment in voting h all important matters of public interest. After giving the question due deliberation he said he believed a senator should listen to the wishes of his state, and accordingly

he would vote for the treaty. At the same time, he said, notwithstanding the fact that the interests of Georgia called for the ratification of the treaty, the people of the state did not approve recent occurrences on the isthmus. After stating his position Mr. Bacon spoke of his amend-

ment to the treaty, looking to a peaceful settlement of all difficulties between the United States and Colombia by paying a sum of money to Colombia in full compensation for the surrender and quit claim of all right of sovereignty over the territory embraced in the Republic of Panama

Mr. Berry (Ark), said that if he believe the defeat of the treaty would restore Colombian sovereignty over Panama he would vote against the convention, but he declared, the defeat of the treaty would be unavailing in that respect. The people of the south wanted the canal and there fore he thought it the duty of the representatives of the south to vote for the treaties.

Mr. Teller (Colo.), said that the present condition of the finances of this govern mant would not permit the taking of money from the treasury to build the canal and it would be necessary to borrow the money and no one knows how great would be the loan we must negotiate. The expenditures by the French people of \$250,000,000, he said, built only about one quarter of the canal. Of the \$40,000,000 which this government was nominally to pay for the property, he said, he belived \$20,000,000 was for the canal and the other \$20,000,000 would go to the lobbyists, who have put the deal through. Mr. Simmons (N. C.), said he believed the people of Panama were ready for revolution and he did not believe the United States official connived at it. He refuted the charges that this government could he held to account for what had taken place on the isthmus.

"I think the worst thing the United States has done." Mr. Simmons said, "has been to maintain Colombian tyranny on the isthmus for the last fifty years. question of whether the president did right wrong on the isthmus is not now before the senate. The only question to conalder is whether the treaty is a meritorious one. All of those other questions may and I hope will receive further consideration." At this point the senate went into executive session.

How Democrats Voted.

Fouricen democrats voted for ratification and fourteen against. Two democrats, Clark (Mont.) and Stone (Mo.), were paired in favor of the treaty and three democrats.

Appeal to President.

HELENA, Mont., Feb. 23 .- A convention of residents of Milk River valley at Chinook has addressed a resolution to President Roosevelt and the secretary of the in terior calling their attention to the fact that the Canadians are building a great canal with a view to diverting the waters of the Milk river in northern Montana. All the waters of the river, which rises in the United States, are now being used in about midnight and it is thought that the valley on the Montana side of the line and many thousands of dollars have been expended in irrigation works, which would before the cries of the two men attracted be of no value if the Canadians secured the water. The president is urged to act promptly to secure the right of American settlers.

ST. PETERSBURG, Feb. 23.-The Japa nese who were hanged by Hussians in with the view of pressing action by the Manchuria for attempting to blow up the railroad bridge over the Sangari river were disguised as coolies. They were arrested just as they were about to make the attempt. Inquiry revealed that they were anxious that the other powers should come Japanese officers of the general staff, namely Colonel Assai of the engineers and Lieutenants Zonololascha and Kacurta of from the girders of the bridge.

Think Japanese Fleet Was Damaged. The conviction is growing here in offici

circles that in spite of Japanese denials the Japanese fleet was severely crippled off Port Arthur in the engagement which hegan February 8. The admiralty has no direct official information to support this except the manner in which the Japanese N. Y., who has valuable mining interests abandoned the attack at the end of fortyfive minutes. It is pointed out at the admiralty that two weeks have now elapsed without the whereabouts of the Japanese fleet being definitely reported and the opinion is gaining ground that it has gone to a Japanese port for repairs.

It is pointed out that it has always been the Japanese policy to announce . ananese victories. Continuing, he said: "We know they sustained losses in the China war which were never admitted."
