this evening after giving out an interpretation of the secondary draft rule and deciding disputes over a large number of players. The interpretary of the secondary draft is directly opposite to that for which the class A leagues had hoped. The resolution adopted provides, in brief, that all players drafted by the major leagues from leagues below class A standing shall revert back to their original clubs, provided, a class A club has not been put in a secondary draft during the regular base ball drafting period. The class A leagues had hoped that a secondary draft made outside the regular drafting period would hold Wigman

Announcements of the Theaters. The one amusement feature for the theater-goers this afternoon will be a matnee at the Orpheum, where the vaudeville bill is a well balanced one. Among the popular stars on the program are Frederick Hallen and Mollie Fuller, presenting a lively little farce comedy entitled "My Wife's Hero." Bill Clifford, a favorite matinee idel, with new songs, stories and ultra nice attire, will be on hand to appeal to the feminine sensibilities. The remaining features are well varied.

This evening at the Boyd "The Isle of Spice," with its great array of pretty girls, its gorgeous scenery and costumes, its comedians and vocalists, its wealth of songs and choruses, will begin its Omaha engagements of three nights and a Saturday matince. This is the intest of Fred C. Whitney's offerings in the line of musical extravaganza, and has been put before the public with all the care and lavishness that successful manager is noted for. It has been a hit wherever seen and comes to Omaha with the commendation of all who have seen it.

Discusses House Provision Regarding In-

EFFECT OF COLD STORAGE CONSIDERED

Final Action on the Bill Postponed in Order to Allow an Inspection of the Measure as Amended.

WASHINGTON, Feb. 24.-The senate spent the greater part of today discussing

an amendment to the agricultural appropriation bill striking out the house pro vision giving authority to the secretary of agriculture to inspect imported food products when misbranded or suspected of impurity. The house bill permitting those who make entry under the land law to file proofs in courts of record at the county seats of the county in which they reside

was passed, but Mr. Mitchell entered a motion to reconsider, saying he desired an op-A resolution offered by Mr. Daniel directing the committee on judiciary to inquire into the expediency of enacting a law providing against the acceptance, holding or receipt of the pay, allowance or emolument of any executive office, agency or commission by a senator or representative in congress while serving as such senator or representative, was adopted. The sen

ate then resumed consideration of the ag-ricultural appropriation bill. Mr. Hale made a point of order against the committee provision authorizing the secretary of agriculture to examine and report upon samples of seeds, to accept fees for the service and make certificate of the result of such inspection. The point of order was sustained.

The amendment made by the committee striking out the house provision appropriating \$40,000 for the introduction of foreign plants and seeds was disagreed to.

At the instance of Mr. Stewart, an amendment directing the secretary of agriculture to investigate the effect of cold storage upon the healthfulness of food was adopted. Mr. Stewart said that many cases of poisoning from cold storage food had been reported.

Mr. Aldrich moved to strike out the house provision authorizing the secretary of agriculture to make investigation of imported food products believed to be impure and injurious to health. The amendment caused considerable debate. Mr. Proctor opposed the amendment and read a letter from the secretary of the treasury saying the effect of the present law had been very beneficial and adding that there could be no object tion to some supervision of the kind by the

Mr. Tillman suggested that the bill be amended in such manner as would transfer the discretion of passing upon impure foods from the secretary of agriculture to the secretary of the treasury. Mr. Dolliver opposed the amendment, saying that all European countries protect their people against food adulterations. He also defended the Department of Agriculture against the attacks made upon it, confessing his irritation over them.

Mr. Quarles suggested that the authority to confiscate goods when "incompletely labeled" was entirely too broad, and Mr. Proctor consented to the elimination of that provision. Mr. Allison said the original provision for inspection of imported foods by the Agricultural department was enacted in 1900 and that it was largely for the purpose of retaliation against foreign countries, which insist upon inspecting American goods.

Mr. Allison spoke in justification of the course of the secretary of agriculture against the charge of unfairly attempting to inject himself into the inspection o WASHINGTON, Feb. 24.--A mortgage foreign goods Mr. Aldrich expressed a has been executed by the Louislana Pur- willingness to allow the amendment to chase Exposition company to the United stand if it could be amended so as to have States government to cover the loan of the subject of unwholesomeness of food left

GOOD HEALTH MEANS GOOD LOOKS

It is woman's mission to look good. Beauty is woman's birthright. Nothing destroys comeliness quicker than sickness. In my large practice I have looked with wonder many times on women who have quickly regained lost beauty with a return to perfect health. I have known thousands of cases of women who were nervous wrecks, and showed it; women who suffered from Kidney Disease, Liver Af-

fections, Indigestion, Impurities in the Blood, and bore upon their faces the stamp of their afflictions. To such women I have always recommended my DR. GREENE'S NERVURA Blood and Nerve Remedy for purifying their blood and strengthening their nerves. I have built up their entire bodies and made all of their vital organs work properly. The result is seen in bright eyes, plump figures, clear complexions, lustrous hair and an expression of happiness and content, all of which combined turned the broken down object of pity into the grandest of all of God's creations - a beautiful woman. I continually receive letters from women grateful to me for what I have done for them from all sides.

The following is from MISS FLORENCE BURCH, 500 West 164th St.

"Before I took Dr. Greene's Nervura blood and nerve remedy I suffered a great deal with catarrh and rheumatism. Catarrh affected my stomach. It gave me severe sick headaches, and I likewise suffered from nervousness. Now that I have taken Dr. Greene's Nervura blood and nerve remedy, I feel splendidly and want to recommend it so all who are sick and run down as the best medicine they can take. It cured my rheumatism and the catarrh."

I want everyone who reads this, if they are not feeling as Nature intended they should, well, strong and energetic, with the ability to eat and sleep, to go today to the nearest druggist and give a bottle of my DR. GREENE'S NERVURA a trial. This is all that is necessary to prove to one how easy it is to find the road to health and happinesse Should there be a man or woman who has neglected their case, or whose illness is of such a complicated nature that it will not yield readily to Nervura, then they should call on me if it is possible, or write a letter to me, addressing it to Dr. Greene, 101 Fifth Avenue, New York City. All such may have the benefit of my many years of experience and my advice absolutely free. Often a little advice or some particular instructions, especially when taken in connection with Nervura, are sufficient to make all the difference in the world in turning the scale and accomplishing a
