MUCH UNSTEADINESS, HOWEVER, EXISTS

Business in Futures Continues Dull, but Buying in May Wheat Takes Spurt, Price Remaining Stiff.

OMAHA, Feb. 24, 1904.

The market acted better than had been anticipated from the rout in which it closed Tuesday evening. The opening was somewhat stronger, the range of prices was smail and the mose very hearty the same figure as the opening. The market, however, was erratic and easily effected and business in futures by the Omaha crowd, while larger than Tuesday, was rather limited. The prost-taking in May wheat, which marked the close Tuesday in Chicago, was not noticeable on the opening today and considerable buying was in evidence. The opening at \$1.00 was 1 cent over the close of Tuesday; \$1.00 was the lowest point towered and \$1.00% about the top price. Omaha opened at \$81.00, about the top price. Omaha opened at \$81.00, about the top price. Omaha opened at \$81.00 was the lowest point down by eighths. Omaha advanced at \$30.00 cents, about which point it fiddled up and down by eighths. Omaha advanced cent during the morning.

Omaha May corn opened strong at \$74c (the close Tuesday was \$70.00 and \$74c (the close Tuesday was \$70.00 and \$74c and \$74c (the close Tuesday was \$70.00 and \$74c OMAHA, Feb. 24, 1904.

The first car of contract corn was offered on the exchange today, No 2 yellow, from Platte Center and was bought by E. E. Huntley for 43½c. The cash market was only fair today and prices had met a slight reaction. Wheat was from ic to 2c off. Receipts were 4 cars in and 6 cars out, one week ago, 2 and 2 cars.

Corn has been the feature of the local cash market for several days. The receipts are now much heavier. This is accounted for by the fact that cars can now be obtained. The country elevators are full and would have shipped during several weeks, but could get no cars from the roads. During this week more have been obtained. Corn ruled from Tuesday's prices to ½c off. Receipts were 33 cars in and 21 cars out; one week ago, 5 and 20 cars.

Oats were steady at the Tuesday prices. Receipts were 4 cars in and 3 out; one week ago, 5 and 15 cars.

CHICAGO GRAIN AND PROVISIONS. Features of the Trading and Closing

Prices on Board of Trade.

the and Chicago reported receipts of 29 cars a year ago.

The feature of trading in corn was heavy purchases by several of the principal bull interests. There was considerable corn for sale early in the day by commission houses, but offerings were well taken. The selling was mostly by small holders. A prominent provision house was an active buyer late in the session. The comparative firmness in foreign markets had a strengthening influence on prices that the movement of corn from that atate had practically stopped was also a bull factor. The demand was of the best possible character late in the day and closing prices were practically at the top. The opening on May was be higher at \$550.00 bu, at the private elevators, 154.00 bu, at the Chicago private elevators, 154.00 bu, at onsible character late in the day, and losing prices were practically at the top. The opening on May was be higher at 6000 bu, at Portland, Me.

L

favor the buying side and the big commission house which usually nots for the principal long operator also hought liberally. The buying of this house had sufficient influence on the market to cause very light offerings. The close was at the best prices of the day. May opened 47% thigher at 55.505%, soid between 44.35% can add for closing at the top. July was the higher at sib.c. Local receipts was to higher at sib.c. Local receipts were 196 cars.

Buying for investment account was the feature in trading in provisions. May pork received the most attention and the advance in the price of that commodity was 57%. There was scattered selling early in the day on the break in grain prices. Later, however, offerings become light and the market readily responded to an improved commission house demand. After selling between \$15.5005.12, May pork closed at the top. May lard showed a final gain of 124015c at \$1.0068.12%, while ribs were up 3095252 at \$1.57467.90.

Estimated receipts for tomorrow: Wheat, 30 cars; corn, 175 cars; oats, 90 cars; hogs, 40.00 head.

Packers as a result had an opportunity to take their time in buying the mattle and also to pound the market, both of which they did.

The beef steer market was slow from start to finish and fully a dime lower than

The same as was the case yesterday, stockers and feeders held about steady where the quality was at all good. The offerings are so light that while the demand could not be called heavy, it is sufficient to hold prices steady. Representative sales:

Through his feeding operations he has been able to increase considerably his number of acres and to prove that there still is money in feeding cattle.

W. C. Jenisen brought in a bunch of ewes from his feed lots at Mason City. Neb., that averaged 59 pounds and sold for \$3.85, a very good price considering the condition of the market. He has thirty more loads of corn fed sheep back which he intends to market later on when the imarket improves. He reported a rather inferior quality of corn around Mason City for feeding purposes. Cattle feeding has been rather light this winter and nearly all the stock has been marketed. Mr. Jenisen has been hundling sheep for the last twenty-five years and owns a ranch in Montana where he raises the sheep that he finishes up on corn at Mason City. In speaking of conditions in Montana he said that the grasshoppers were quite a pest on the range and left it in very bad shape for the winter, but owing to a nice open winter and the alfalfa hay on the irrigated lands the stock will pull through the winter in fair condition.

HOGS—There was a big run of hogs sight this morning, which makes the is crease over last week and the same wee of last year greater than it was vesterda Owing to the liberal supplies pickers at this point started in to pound the mark and their bids were fully a take how than year-orday's general market hids men were slow to take the prices offer and as a result the morning was well as vanced before much business was tran-

acted. There was considerable unevenness in the early market, as sales were made all the way from weak to a dime lower, or generally a nickel lower. Light stuff sold from \$5.0 down, medium to good welshis from \$5.5 to \$5.25 and prime heavies from \$5.55 to \$5.55 and prime heavies from \$5.55 to \$5.60.
