wind Finish to the Season

The race in the Omaha league is getting better than ever, and with only a few more games to roll, the finish is bound to be of the whiriwind order. Just now the Clarksons are leading the procession, having done some pretty tall work during the week, getting three straight from the Omahas and two out of three from the Armours. But the lead is a long way from being a safe one, and the champlonship may still be won by any of the first four clubs. Here is the way the race stood when the sun went down last night: Clubs. WASHINGTON, Peb. 27.-August W Machen, formerly general superintendent of the free delivery postal system, George E. Lorenz of Toledo, O., once postmaster of that city and Diller B. Groff, of this city, all of whom were convicted of conspiracy against the government in connection with the supply of Groff fasteners to the Postoffice department, today were sentenced by Judge Pritchard to two years imprisonment in the Moundsville, W. Va. penitentiary and a fine of \$10,000 each. The defendants immediately gave notic of an appeal to the court of appeals and were released on \$20,000 bonds each. Samuel A. The sentences imposed on Machen, Lor enz and Diller Groff is the maximum allowed under the law, although the court decided that the several counts in the indictment constituted but one offense. The appeals to the upper court will be pressed as rapidly as possible according to the defense, but months may elapse before the

The government has not yet decided or Its course in the prosecution of the other postal cases of which there have been so many indictments returned, but it is not unlikely that the other indictments in which Machen is named, involving other offenses than that covered by the indictment on which he had already been convicted will be pressed for trial next term.

More Charges to Be Heard, There are approximately fourteen indictments against Machen, either singly or jointly with others and the government expects to bring him to trial on most of

When the cases on which the jury brought in its verdict last night were called in the He was connected with the old Boyer Valcriminal court today the defense moved a new trial, but asked that the case of Samuel A. Groff be separately considered. The court overruled the motion save as to Samuel A. Groff.

The defense then moved for arrest of judgment in the case of Machen, Lorenz and Diller Groff. This motion was promptly overruled. Exceptions to the decisions on both motions were noted and counsel argued the question whether the penalties under the twelve counts of the indictment should be cumulative or whether the various counts should be held to constitute one

The prosecution asked the imposition of the full penalty on each count, the adoption of which proposition, it was pointed out, would involve a total of twenty-four years' imprisonment and a fine of \$120,000. The defense characterized this as an outrageous and absurd proposition, arguing that as there had been but one offense alleged in the whole indictment the court had no power to impose penalty on more than one of the counts.

Question if Sentence is Enough. Judge Pritchard stated that he was satshed that the verdict of the jury was correct, but he did not know whether the imposition of a penalty in a single count would be heavy enough. He decided this question after recess, holding that he could impose a penalty only under one count, The prisoners then stood up for sentence

Machen was first called. When the court sentenced him to two years' imprisonment and \$10,000 fine. Machen's eyes filled and he trembled slightly as he resumed his sent. Then he clasped his hands and sat staring ahead of him as the other two were given the same sentences.

Bonds for \$20,000 were furnished by each of the three men and the court then ad-

This legislation will have the support of the administration through-Secretary Taft, whose conviction that railroads are the next most essential step in the development of the Philippine islands, has been made known to the com mittee on insular affairs. "Secretary Taft, Chairman Gooper and Colonel C. A. Edwards chief of the insular bureau of the War department, were in conference today at the War department and later at the capitol. While the text of the proposed legislation has not been prepared, its verbiage will be most simple, and contain the authorization to the Philippine government to issue the guarantee on the capital to be nvested in railroad building. A restriction will be placed in the legislation limiting
