Omaha, in the event of the West Point cadets visiting the Louisiana Purchase exposition at St. Louis in May next, they also be permitted to visit Omaha, with a view of participating in the ceremonies incident to the semi-centennial of the organization of Nebraska on May 30 next. I have the honor to quote for your information the following remarks on the subject by the superintendent of the United States Military academy. In which the chief of staff concurs: "It is not believed to be practicable to arrange for the corps of cadets to participate in the ceremonies of the semi-centennial of the organization of Nebraska on May 30 A curtailment of the various courses has been necessary in order to allow the battailon to leave West Point on May 28, as is now the intention, and any further curtailment and disarrangement of the courses would be unwise. The number of days to be spent at the exposition should not be diminished, as the time which the cadets can devote to sightseeing is, under the present, arrangement, not greater than is to be desired. An attempt to visit Omaha at this time would materially lessen the amount of time available in St. Louis."

Dover Appointment Good Politics.

Dover Appointment Good Polities. The appointment of Elmer Dover as sec retary of the national republican committee is regarded by republicans as a determina on the part of the president to wipe out all factions in the party, and it is said that undoubtedly by his present course he is furthering happier conditions. Among politicians the selection of Mr. Dover, who was Senator Hanna's confidential secretary, which is said to have been by the request of the president, is regarded as a sagacious; stroke of bolitics. Mr. Dover's relations to the whole Hanna faction were so peculiarly intimate that his invitation to join the political councils of the administration is susceptible of only one construction, cordial recognition of the Hanna men. Lately the president has been hobnobbing with Senator Scott of West Virginia, which is taken to mean the president wants to wipe out the lines between the suppositious Rooseve't faction and the so-called Hanna faction and to do so by asking Senator Boott to give the party the benefit of his advice and political experience in the coming campaign.

SERVICE PENSION BILL TALK

One Will Undoubtedly Be Reported and Passed by House at Present Session

Copyright by New York Herald Co., 1904.) WASHINGTON, Feb. 27 .- (New York Herald Service-Special Telegram to The Bee.) -Senate leaders regard with apprehension the necessity of considering a civil service pension bill at this session of congress Notwithstanding the feeling a measure of this kind will be reported by the house committee on invalid pensions.

Differences of opinion regarding the age limit have caused the de'ay in the consideration of this bill. Indications all point to 65 years as the age at which civil war veterans will be entitled to a pension under the provisions of the bill. This decision has practically been reached. It is considered a just and equitable recognition of the services of the survivors of the war. The money required with this age limit will not be so large as seriously to embarrass the

CLOSES BIG IRON CONTRACT NO Order of Steel Corporation Puts Many Laborers to Work in

Ohio.

CLEVELAND, O., Feb. 27 .- The United States steel corporation today closed a contract with the Bessemer Pig Iron company for 130,000 tons of pig iron at \$13 per ton at the valley furnaces. The price at which the pig fron was sold is an advance of about 60 cents per ton over the price prevailing in January.

How much serious filness the Restorative has prevented I have no means of knowing, for the slightly ill and the indisposed simply got a hottle or two of the druggist, are cured, and I never hear from them. But of 600,000 sick ones—seriously sick, mind you—who have asked for my guarantee. So out of each 40 have paid. Paid because they got well.

If I can succeed in cases like them—fall but one time in 40. In diseases deep-wated and chronic—lsn't it sortain I can always cure the slightly ill?

Why the Restorative Succeeds

You may oil and ruo, adjust and repair a weak engine. It will never be stronger, nor no its work better, without steam. More power-more steam is hed-casery.

And so with the vital organs. Doctor them as you will insts mere repairing. Permanent cures never come save through livesting the nerves that operate

And that my Restorative does.

After almost a lifetime of labor—of study at bed-slues and research in hospitals—i made this discovery. I found a way to treat, not the organs themselves, out the herves—the inside herves—that operate these or-gans and give them power and strength and health. That discovery has shown me the way to cure.

It makes my offer possible.

I know the remedy. I never can forget the study, all the research, the trials and tests that perfected it. I have watched its action year after year in cases diment, discouraging. Time after time i have seen it bring back health to those poor oness whom hope had almost deserted. I know what it will do.

My only problem is to convince you. And so I make my offer. And the bare fact that I make such an offer ought of itself to convince you that I know how to cure. Please read it again. It means exactly what I say. No catch—no misleading phrases in it. Simply this—you take the medicine and I will take the risk.
