The fish were orrecord today as favoring the veterans of dered sold by Justice Ouren to the Grand the civil war above all others in all public service of every kind in the state. The Bealer bill to provide for preferment to the soldiers in all public service was called up and passed. It brought out the only

debate or oratory of the session, for there was no opposition at all. Mr. Bealer explained the purpose of the bill and Representative Kendall of Monroe county paid eloquent tribute to the soldiers and spoke of the debt of gratitude which is owed to the defenders of their country, his brief oration being in his best vein and eliciting hearty applause. Mr. McAllister also spoke for the bill. An amendment proposed by Mr. Leach was adopted which inserted the phrase, "Everything being not equal," in one place. The bill was then passed-79 to 1. The one lone vote was that of Buckingham. The bill provides that all soldiers and sailors shall be given preference in public work of all kinds in

Iowa, in state positions and county and on contracts for public works, and it is most sweeping proposal patterned after

the New York law. The house passed the two insurance bills relating to consolidation and re-insurance of husiness. The bills were agreed on in committee after conferences with the

State Insurance department and the representatives of the companies, and were introduced and pushed by Mr. English.

A bill by Mr. Temple to provide for refunding school indebtedness was passed. The bill to provide for railroad commissioners' maps was reconsidered on motion of Mr. Hart and amended so as to pro vide for 15,000 mounted and 10,000 unmounted maps and the appropriation inform passed.

A resolution was introduced to require the custodian of the capitol to give ventilation to the hall of the house

A bill was introduced by Mr. Wise making it a crime for a patient with smallpox or other contagious disease to remove yet. from one place to another in the state without due notice to the authorities. A bill was introduced by McNie to pro

vide for re-opening the Industrial Home for the Blind at Knoxville. The house concurred in the senate amend-

ments to the bill to provide a way for amending the code supplement.

### Protect Dependent Children.

The house this afternoon took up a bill by Mr. Calderwood to provide for the care of dependent and neglected children and and machinery. Halvorsen was caught to effect their removal from poorhouses between the girder and the derrick car and and to place them in homes, a bill desired by the women of the state as one

of the charitable reforms. It was passed. A bill to provide for a change in the place of bringing actions in certain cases was defeated. The bill was by Mr. Delano, and struck at the practice of placing insurance notes of defunct companies in the hands of a court at the place where the company failed and collecting small amounts because it would be cheaper to pay than to resist. #### Cattlemen and the Miners.

Two important meetings were begun f Des Moines today. The second meeting of the Corn Belt Meat Producers' amociation of Iowa was called together with about 200 men present. Local associations have been formed in at least a dozen countles of the state since the state organization was completed in January. This association has been back of a bill by Mr. Delano, pending in the legislature, to regulate the running of stock trains through lows. It is the intention of the association to now prepare an entirely new bill embracing many of the features of the Delano bill and to urge it upon the legislature as the desire of the meat producers of the state. The convention will be in session two days.

The state meeting of the miners of District No. 13 was called today and after the coal miners have been in session two
