GRAIN AND PRODUCE MARKET

Professionals' View of Decline Comes Tru Without Much Delay.

NO MORE DOLLAR WHEAT AT PRESENT

Liquidation by Big Manipulators Held Responsible for Slump, Which However, is Regarded as Not Permanent,

Omaha, March 1, 1994.

Dollar wheat no more. The expectation of the professionals that the market would fall of sufficient support to keep up the high prices, has been snown to have been well grounded and after the bear exhibition of Monday, the market opened from 1 to 2 cents lower this morning and broke continually. Liquidation by the great manipulators, is thought to be the immediate cause of the siump, these having taken their profits and left the outsiders to hold the options. Professionals there are, sowever, in number, who belive the bearish condition will be of no long standing and that the war and crop situations warrant continued higher prices. These are buying on the breaks.

C'ilengo, May wheat opened with a spread

continued higher prices. These are buying on the breaks.

C'ileago, May wheat opened with a spread of only 's cent, showing the market to have been, wild than at the Monday opening. From \$1.01\frac{1}{2}\$, It broke to \$8\frac{1}{2}\$, C. The ruling quotation was \$9c and the market railied if from that figure once to 'sc and one 'sc. Omaha, May opened at \$6\frac{1}{2}\$, to le lower than Monday's close, and broke to \$4\frac{1}{2}\$. On bids it railied to \$4\frac{1}{2}\$, Uily wheat opened only 'sc under Monday, close broke to \$6c, 8 a loss of \$1\frac{1}{2}\$, and later railied a little. Chicago weakened from \$3c to \$2\frac{1}{2}\$, Corn is showed equal weakness. Omaha, May opened at \$6\frac{1}{2}\$c (Monday close \$7c) declined to \$6\frac{1}{2}\$c and later was bid up to \$6\frac{1}{2}\$c. July more equal to \$6\frac{1}{2}\$c. July and lost it during the morning.

Another peor cash market. Chicago was off and the local market followed national conditions. The bear movement in futures continued to react on cash grain. The wheat situation was thought not to be se good as 1 Monday. More grain seems to be coming into other markets. Omaha market was off ic from Monday. Receipts of wheat were 1 cars in and 6 cars out; one week ago, 5 and 4 cars.

Corn is holding its own and the Omaha

Corn is holding its own and the Omaha

Corn is holding its own and the Omaha market is fully as firm if not a shade better than Chicago. This is due to a local demand by feeders and also buying by elevators. The latter are apparently loading up, for very little of the grain received and inspected finds its way by sample to the exchange floor. Cash corn was rather firm at Monday's prices. Receipts were 31 cars in and 10 cars out; one week ago, 56 and 31 cars. Sales of carlots by sample on track at

NEW YORK STOCKS AND BONDS

Market Animated in Spots and Ticker Spasmodic as a Re-uit.

Conl Conference in Indianapolis and Spread of the Freight War Have Their Effect on the

Market.

NEW YORK. March 1.—The movement of today's stock market was somewhat more consistent than that of yesterday, in that prices were above yesterday's level throughout the day, but the character of the market was not essentially changed. The movement of prices was so slow and sluggish as to be almost imperceptible and thele were minutes at a time when the ticker was slient. Sugar was the strongest stock, the only news on it being the declaration of the regular dividends, about which there had been no doubt feit, and a rise in the price of refined sugar.

The returns of het carnings for January which appeared during the day included Canadian Pacific and Southern, all showing declines in net earnings of varying degree compared with last year's corresponding period. Book Island and Canadian Pacific showed some heaviness early in the day, but stocks of the other companies advanced with the rest of the market. Heavy snowstorms, which were reported the severest in the history of the country in the case of the New York Central, threatened to impair the operating efficiency and the volume of traffic again, but iry in the case of the New York Central, threatened to impair the operating efficiency and the volume of traffic again, but the market ignored the fact. Lack of progress was reported from the coal conference in Indianapolis and the spread of the freight war to other commodities than grain was alleged. Prices dropped from the best price after a period of practical stagnation. Bonds were irregular. Total sales par value 905,000, United States bonds were unchanged on call.

SHEEP—Receipts were again quite liberal
this morning although there were not as
many on sale as yesterday. Packers took
hold fairly well and bought the sheep at
generally steady prices. Good stuff could
be quoted active while inferior grades were
neglected to some extent. Some ewes sold
as high as \$4.05 and Colorado ewes \$2.90.
Some wethers and yearlings mixed brought
\$4.50.

But while the sheep sold quite freely
lambs were not so active and in fact in
some cases sold a frife lower, particularly
where the quality was not desirable.
