GRAIN AND PRODUCE MARKET Wheat Still on Decline and Prices Generally

Are Demolished. WAR STILL HAS VERY BANEFUL EFFECT

Unsettled Condition of Railroad Rates Also Contributes Its Part Toward Sending Down the Scale

of Prices.

OMAHA, March 4, 1904. OMAHA, March 4, 1904.

Market conditions do not sun Omana speculators in grain for future deuvery-Inerefore transactions are comparatively limited. If normal conditions prevailes, such as rule in ordinary years in times of peace, when the crop conditions and reports and the conditions in other grain consuming and experting configurates, are nsuming and exporting countries, what rule the course of speculation, then the Omaha Grain exchange would have the Omaha Grain exchange would have seen a regular and large outsidess in futures. But at this time when outsiders buy and seil on war sentiment without much regard to the ideas of the professionals and the grain sings are easiled to manipulate the Chicago market in ways that few are wise enough to foretell, the new Omaha market finds the most adverse condition, and as a result rather little new Omnia market indus the most adverse condition, and as a result rather little business is done. The cash grain business is done. The cash grain business also is small just now, owing to the unsettled condition of rates. The market does not get the grain it should.

For these reasons the Omaha market probably will continue to run fight until the war has settled down to an ever, long-drawn-out fight between Russia and Japan, or is ended, and the rate differences have been settled one way or another. Then the market will take its proper place.

May wheat is now down 12c in eight days and old July is off 6%c in a week. The reasons for this slump do not seem adequate. The market showed some strength on opening, due somewhat to the Ohio state report, which places the condition there as 69, as against 91 for 1902. Chicago opened wildly at from 96c to 97c and at one time reached 99c owing to heavy buying by Armour. The weakest point was 96c at the opening.

Local Cash Grain Market.

The cash market was poorest since the little firmer in the better grades of winter wheat, and showed some weakness in corn and oats. Receipts of wheat were 10 cars in and 2 out; one week ago, 10 and 22 cars, corn receipts were 36 cars in and 22 cars, cout; one week ago 68 and 32 cars, Out receipts were 6 cars in and 3 cars out.

Prices on Board of Trade. CHICAGO, March 4 -Russian and Ameri-

CHICAGO, March 4.—Russian and American reports today exactly offset the effects of lower quotations from foreign wheat markets. Final figures here on May wheat were precisely the same as last night. July was 'ac higher, May corn is up 'he and oats 'aga'ac. Provisions are unchanged to 25c lower.

Under the influence of lower cables the wheat market opened somewhat unsettled, with May unchanged to le lower at 96750c. Initial quotations on July were unchanged to 'de lower at 912,9324c. The rush to secure wheat was the cause of a temporary rise to fice in the May delivery. The price of July likewise advanced to 25c. The market held firm until near the close, when a decline occurred on liberal profit-taking. Prices at the finish were steady, with May at 37c and July at 27%c. Clearances of wheat and flour were equal to 114,400 bushels. Primary receipts were 46,400 bushels. gainst 401,500 bushels. Exports of wheat and flour for the week were equal to 16,000 bushels. Minneapoits Duluth and Chiengo reported receipts of 275 cars, against 136 last week and 291 a year avo to 163,000 bushels. Minneapolis. Duluth and Chicago reported receipts of 275 cars, against 245 last week and 231 a year ago. Active buying by several large commission houses caused strength in the corn market. The close was well toward the top price of the day. May opened 440% higher, closing at 534c. July showed net gains for the day of ic, closing at 224c, after ranging between 514c and 524c. Local receipts were 179 cars, with one of contract grade.

On good general buying there was a quick jump in prices of cars. Liquidation by local longs, however, caused a sharp reaction. The opening on May was %3% to 160 to 16

NEW YORK, March 4.—Activity was stimulated in the market today but without effecting any more appreciable movement of prices than on the duliest days of the week. Up to noon the number of shares traded in was not far below the day's total yesterday and the day before From that time the market dropped back into its duil rut. Advances in Brooklyn Transit and in the other local traction stocks in sympathy were attributed to the prospect of the new East River bridge being opened at an early date. There was a slight advance in the coalers on the assumption that a soft coal strike would help the authractic business. Delaware and Hudson enjoyed the benefit in addition to the strong showing of its annual report.

The reaction in the grain market was urged as a valid reason for a rise in stocks.

A decline in Northern Securities on the A decline in Northern Securities on the curb was the reminder of the recurring effort to be looked for from the supreme court decision day on Monday. The movement of currency has been in favor of New York and a gain for cash for the week is indicated of nearly \$2.00,000 in spite of the outgo of gold to South America, transfers to Chicago and absorption by the subtreasury. This was regarded with dissatisfaction, as showing a decreasing interior use of money. Attempts to send St. Paul on the favorable January statement and the report of a Burlington note issue
