stages to undertake to pass upon the acts of one of the belligerents. It is considered that Russia simply served on the powers a notice of its views, at the same time warning them that it will hold Japan responsible for the future acts of Korea.

Death of News Not Surprising.

The continued death of war news from the front does not occasion surprise here, as the Russians are proceeding deliberately with their plans, serious land operations not being expected for several weeks.

JAPAN REPLIES TO RUSSIAN NOTE.

Says that World Must Judge of Rightness of Act. TOKIO, March 5.—Japan addressed a note to the powers today in response to the recent communication from Russia.

The report of the General Pflug, chief of the staff of the Japanese cruiser near Chemulpo, have been seen, confirms the theory entertained from the first that the Japanese are following their traditional policy of concealing their losses.

Responding to the charge of violating the neutrality of Korea, they point to the action of Russia in Manchuria, where thousands of troops were assembled long before a diplomatic rupture occurred.

The disappearance of the Japanese fleet from Port Arthur after its failure in creating a breach there, one paper remarking that it has "donned the invisible cap, straddled the carpet and may land next in the front of St. Petersburg."

The probability is that the question of jurisdiction will be raised in Iowa, but that appears to be of little consequence.

Madam Poupse of Riga, who desires to be enrolled in a Cossack regiment, is here urging her petition. She is 23 years of age, was reared under the patronage of the late Czar Alexander II, and is a Russian woman of good stock, and handles rifle, revolver and sword equally well.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

A naval expert, writing to the Novosti, predicts that Korea will prove a mouse trap to the Japanese, and adding that "not one-hundredth part of the yellow Napoleons will get out alive."

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

The weather at Port Arthur during the last few days has been much warmer, indicating the approach of spring.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

Many fast locomotives are being sent from European Russia to Siberia.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

It is said here that the authorities will arrange to give Lieutenant Newton A. McCullough, the United States naval attaché with the Russian navy, special facilities over the Siberian railroad to join the Russian squadron.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

The Berlin report, based on a telegram from St. Petersburg, that all the powers except the United States and Great Britain replied to Russia's note, communicated to its ambassadors abroad and given out February 23, agreeing with the Russian view that Japan had violated the neutrality of Korea, is incorrect.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

The foreign news shows that Russia lodged this protest to the powers without asking for an answer, leaving them free to express themselves or not, as they pleased.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

MRS. DYE IS UNDER ARREST

LOOKS TO TRIAL FOR VINDICATION

Talks Freely to a Reporter Proclaiming Her Absolute Innocence, Although Admitting She Had Much Provocation.

BOONE, Ia., March 5.—(Special Telegram.)—Mrs. Sherman Dye, the woman charged with sending poisoned candy through the mails to Miss Lena Nelson at Pierre, S. D., was arrested here this evening as she got off a train returning home from Des Moines.

A reporter tonight obtained the following statement from her: "This is the first I ever knew of the poisoned candy and I believe it is a putup job on me. I will go to jail willingly because I know that I am innocent and that it will all be cleared up. I will say, though, that I have a cause for grievance against Miss Nelson and my husband. They have been more or less intimate for four years.

Before announcement of the result of the vote was made President Mitchell moved that there be a postponement of the final vote. This was carried and Mr. Robbins and President Mitchell hastily consulted in a corner of the room.

The operators announced they had nothing to offer and the miners insisted to President Mitchell that they were bound by instructions and could not accept a reduction.

After adjournment both P. L. Robbins and the operators and President Mitchell of the miners declined to say whether overtures had passed on either side regarding a resumption of negotiations.

The food experience of a doctor experimenting with himself is worth knowing. QUESTION RAISES SPIRITED CONTEST

Nebraska Delegation Was Warmly Opposed by Mr. Mann of Illinois and Mr. Sherman of New York.

WASHINGTON, March 5.—The house today passed the Indian appropriation bill after some small controversy affecting tribes in the Indian Territory. An unsuccessful effort was made by Mr. Stephens (Tex.) to eliminate the provision for continuing the Dawes commission another year.

Among the important amendments adopted were those to remove restrictions on the disposition of land of allottees in the Indian Territory who are not of full Indian blood, and of vesting authority in the secretary of the interior heretofore resting with the Dawes commission in the matter of sale of lands belonging to the Creek Indians.

The question was put on the acceptance of the proposition made by the operators. The operators, voting by states, cast 4 votes for the acceptance of the proposition. The miners, voting by states, cast 4 votes against the acceptance. It was a tie vote and the question was lost.

Before announcement of the result of the vote was made President Mitchell moved that there be a postponement of the final vote. This was carried and Mr. Robbins and President Mitchell hastily consulted in a corner of the room.
