Starts Off with Republican Convention to Nominate & chool Officers.

NO CONTEST OVER MEMBERS OF BOARD

Democrats Beginning to Talk of Candidates for Both City and Board of Education Nominations-Plenty of Aspirants.

The republican school convention to be held this evening at 8 o'clock in the south room of the county court house is not expected to develop any contests, W. S. Cooper and T. J. Shugart, the republican members of the board whose terms expire this spring, will undoubtedly be accorded renominations, while the third nomination It is understood will go without opposition to George Westerdahl, selected by the people of the west part of the city as their representative. The west end has not had a representative on the board for a number of years and the republicans realize the justice of the demands of that section of the city. G. P. Kemp and J. H. Swartz, who were endorsed by the West End Improvement club for the republican nomination for member of the school board, have, it is understood, declined to run and favor the nomination of Mr. Westerdahl.

For treasurer of the school district Harry G. McGee is the only candidate so far in the field and it is expected that he will receive the nomination without contest.

The democratic school convention will be held Wednesday evening at 8 o'clock in the court house. S. S. Keller, whose term expires this spring, it was stated yesterday, will be renominated, although a short while ago it was said that he would decline a renomination. Dr. Charles H. Bower is said to be willing to accept one of the nominations, while the third, it is the Sixth ward.

George S. Davis, the present incumbent of the office, is a candidate for renomination for school treasurer at the hands of supposed he would have no opposition. Friends of Louis Zurmuchlen, jr., it is said, are urging him to be a candidate, but it is not known definitely whether he would ac-

Candidates for the democratic nominations for the several city offices are coming to the front. It now begins to look as if the nomination for mayor will rest between Alderman L. A. Casper and Dr. Donald EGBERT IS IN NO DANGER OF DEATH. Macrae, jr., with the odds said to be some of Dr. Macrae being selected by the demo crats as their standardbearer Alderman Casper will be given a renomination for alderman-at-large. One of the mominations for alderman-at-large, it is understood, will go to A. G. Gilbert, with either James McMillen or Alderman Casper as his runningmate.

T. E. Casady and F. W. Miller, chairman of the democratic county central committee, are stated to be aspirants for the omination for city solicitor. William Higgeson, the present superintendent of martets, is out for the nomination for city suditor, but up to date no one has been mentioned as being anxious to secure the nomination for city treasurer. That S. I. Etnyre will be given a renomination for city engineer without opposition is a foregone conclusion. W. D. Hardin is mentioned as the likely nominee for city assessor, but there is no certainty that Mr. Hardin will accept.

Candidates for the democratic nomina tions for ward aldermen are not lacking. These are said to be aldermanic aspirants in the different wards: First ward, Oscar Younkerman, Ed Stockert, Charles D. Walters, Dr. M. C. Christensen, F. A. Bluby; Second, Thomas Maloney, Captain O. H. Lucas; Third, Alderman M. H. Tin ley, George Hughes; Fourth, Pat Gunpoude, John Mulqueen; Fifth, George C. Wise, James McMillen; Bixth, Pete Smith, Charles Crippen.

DEMAND FOR FIRE PROTECTION.

City is Short of Funds to Grant the Relief Asked.

Residents of the section of the city south Sixteenth avenue will descend in a body on the city council tonight and present a demand that they be afforded fire protection. If the arrangements made at a meeting of the South Side Improvement club Friday night are carried out a committee 100 strong will march from the club rooms to the city half and present the

That this portion of the city is in need of fire protection is conceded by the municipal authorities, but how to afford it is a problem which they are unable to solve The obstacle to granting the people south of Sixteenth avenue what they ask and what by right they are entitled to is the lack of funds. The city council will be asked, it is understood, tonight to place a chemical engine and crew in that section of the city and the aldermen will be forced to admit that the funds available for the maintenance of the fire department will not admit it.

The city is limited to a 10-mill levy for the general fund, out of which the fire department is maintained. But for the sums transferred from the police to the general fund each year, the general fund would be insufficient to meet the demands of the police and fire departments as they now are, much less if either department was increased. With the prospect of a falling off in the receipts from saloon licenses the next twelve months, owing to the enforcement of the mulct law, the general fund promises to be materially impaired.

There has been talk of getting a bill through the state legislature permitting cities having a paid fire department to levy a special tax for its maintenance. If expected, will go to some representative of this bill should be passed, then the city council would find itself in a position to provide fire protection for the southern part of the city, but until this happens the city council, so the aldermen and other the democrats, and until yesterday it was city officials insist, is powerless to afford the relief asked.

At present in the section of the city south of Sixteenth avenue there is not a fire hydrant south of Nineteenth avenue and Eighth street, nor west of Sixteenth and thickly populated district entirely without protection.

GALVESTON'S GREAT SEA WALL

Progress on the Huge Structure Designed to Resist the Angry Waters of the Gulf.

Ever since the city of Galveston, Tex., was nearly destroyed by a tidal wave, the officials there have been perfecting their safeguards against such calamities in the future. The principal one of these is a gigantic sea wall, thicker and firmer than any structure of the sort ever constructed Not only is the wall 'considered impregnable, even in the face of the sea's onslaughts, but it is also ornamental. far as its waterfront is concerned, the city is to look like a vast fortress. The is to be 31/2 miles long, 16 feet high, with a base 16 feet thick and a top 5 feet across, the riprap of the front measuring 27 feet. Four thousand feet of work are already completed. Before July, it is estimated, the whole job will be finished. The wall is built of crushed granite, sand and cement, resting on a foundation of piles driven to a depth of forty feet. The cost, for which provision was made by bond issue, will be \$1,500,000.

To complete the work of protection it was also necessary to raise the grade of the city, and a contract has been let with a Helland firm to perform the task for \$2,000,000. parts of the country. Following is one from
the Rev. W. C. Avey, of West Piain, Mo.,
who says:

"I have used Dr. Kay's Renovator for
liver trouble, and received great benefit from
its use. As a mild, pleasant cathartic I consider it the best I ever used. Since taking it
I can pass through the night with but little
pain, and my sleep is much more refreshing
than before I began the use of the Renovator."

My Renovator acts directly upon the liver.
It purifies the blood, tones up the stomach,
