All the harbors along the coast in which the Russians might seek refuge are frozen and the squadron must eventually be forced to return to Viadivostok for coal. Although the Japanese squadron is superior in numbers and guns, consisting of a battleship and four armored craisers, two of which are believed to be the Idsumo and the Yakumo, and two unarmored cruleers, the four armored crutsers under Captain Reitzenstein, the Rossia, Grombel, Rurik and Bogatyr, are among the finest vessels in the Russian navy, constituting as sister ships a fighting unit and experts here are not certain that they could not take the measure of Rear Admiral Uriu's ships.

A naval service organ here argues lengthily that the present Japanese naval disposition presages a movement on a large scale in the Sca of Japan, and the paper accounts for all the Japanese ships except the battleship Yashima and the armored cruiser Tokiwa, one first-class protected cruiser and five second-class, reckoning the battleships Fuji and Shikishima the armored cruisers Iwate and Asama and the protected cruiser Takashiho as being injured.

Sultan Disposed to Exact High Price

for Opening Dardanelles. BERLIN, March 8.—The porte has thus far met the requests of the Russian ambassador to Turkey, M. Zinovieff, to permit the Black sea fleet to pass the Dardanelles by naming conditions wholly unacceptable to Russia. One of these conditions naturally is that Russia shall break off or evade the fulfillment of her agreements with Austria respecting the Balkans, give the sultan leave to settle the troversies by his own methods and assist Turkey should Austria or other powers dispute the sultan's decision: Russia rejected these proposals as preposterous, but renewed its request, to which there seeins little likelihood of the sultan's yielding, as British diplomacy is active at Constantinople in urging on the porte a strict observance of the Berlin treaty.

France, so far as can be perceived here has not seconded Russia in this matter. ceased to be neutral, at least as between the belligerents.

3. It is charged under this heading that "In spite of existing international laws shortly before the opening of hostilities Japan captured as prizes of war the Russian merchantmen which were in the neutral ports of Coren." The imperial government has established a prize court with full authority to pronounce finally on the question of the legality of the seigure of merchant yessels. Accordingly, it would be manifestly out of place for the imperia government to make any statement regarding the assertion under this heading. Such a step as permitting the Black sea fleet to pass the Dardanelles, would be regarded diplomatically as a breach of neutrality on the part of Turkey, though Great Britain's opposition to it, being aimed at the maintenance of the statutes on the question, is not so considered. Russia's diplomatic weight at Constantinople has been somewhat reduced by the occurrence in the far east. The porte will give nothing without a heavy price. Germany expresses no opinion on the

subject. The most that Germany will do n the presence of a bargain between Russia and Turkey for the release of the Black sea fleet would be to maintain silence, neither advising nor assisting either The government here is looking It can conceive of a time when it will be to Germany's advantage to have a portion of the Russian navy locked up. Austria and Italy are not moving at Constantinople, where all the powers, therefore, except Russia and Great Britain, are

Russia would not use the Dardanelles now if it could in the opinion of experts here, because its Black sea fleet is not ready for the far eastern campaign, and if it were ready. Russia would wait until its Baltic fleet is thoroughly equipped. It is believed that Russia could not hope for decisive naval success without the Baltic. Black sea and the Mediterranean equadrons uniting and proceeding east together, as otherwise they would be destroyed piecemeal.

Bee, March 8, 1904 ARMY BILL IN THE SENATE

> Amendments Concerning Provisional Troops Takes Up the Time.

> AMENDMENT, WITH OTHERS, ACCEPTED

Porto Rican Amendment Objected to by Democrats as Savoring Too Much of Military Form of Government,

WASHINGTON, March 8.-The senate spent almost the entire day discussing the mmittee amendments to the army bill oncerning provisional troops in the Philprines and the consolidation of the adjutant general's office and of the record and pension office. The Porto Rican amendment was objected to by democratic senators as of government. Both amendments were ultimately accepted. The bill was amended so as to provide for an increase in the engineer corps. It was pending when the senate adjourned.

At the beginning of the session Mr. Newlands (Nev.) spoke in favor of the passage of his bill to preserve the vista from the Some of the capitol to Washington monument by restricting the erection of public buildings to a line 400 feet on either side a central line between the points named, He expressed the opinion that no more public buildings should be erected on the Mall, but that it should be reserved for

visional Porto Rican regiment was again STATEMENT GIVEN OUT IN WASHINGTON taken up. Mr. Teller moved to disagree to the senate traendment making the regiment consist of three battalions instead of two as fixed

by the house. The suggestion caused a

wide range of debate. Mr. Carmack said he took the proposition as an indication of a tendency towards a military government, saying that the 'distinguished soldier." Mr. Root, had been mustered out of the office of secretary of war with flying fings and his successor had been inducted into office under similar conditions.

"Now," he said, 'we are to have a military display on the presentation of diplomats. I am sorry the order for that sys tem was too late for Bunau-Varilla." because of the necessity of having a force and Estrella. of men on the isthmus of Panama who understood the Spanish language.

Mr. Teller's amendment was rejected and the provision for three battalions was retained. The senate also returned to the adjutant general's office into a military ecretary's department. Mr. Proctor said operative detail. The amendment was

inferences and conclusions on the part of neutral powers.

Accordingly the government of Japan makes the following statement respecting the five acts which in the mote referred to are declared to be fully proved and confirmed:

1. It is charged under this heading that before the opening of hostilities against Russia, Japan landed troops in the independent empire of Corea, which had declared its neutrality."

The imperial government admits that Japanese troops landed in Corea before declaration of war was issued, but not before a state of war actually existed between Japan and Russia. The maintenance of the independence and territorial integrity of Corea is one of the objects of the war and the dispatch of troops to the menaced territory was a matter of right and necessity which had the distinct consent of the Corean government. The imperial government drew a sharp distinction between, the landing of Japanese troops in Corea under the sending of a large body of Russian, troops to Manchuria without the consent of China, as was done by Russia, while peaceful negotiations were still-in progress. agreed to. Mr. Culberson suggested an amendment roviding for an increase in the engineer corps, explaining the necessity for a larger number of engineer officers in the river and harbor work of the country. With some modifications the amendment shall be composed of ten colonels, sixteen lieutenant colonels, thirty-two majors, DECIDES TO BREAK OFF RELATIONS, forty-three captains, forty-three first lieutenants and forty-three second lieutenants. Mr. Teller proposed an amendment to the committee amendment for the retirement with advanced rank of officers wh served in the civil war, so as to make it retroactive. The amendment was accepted. As to Chemulpo Incident.

2. Under this heading it is alleged that Japan, with a division of the apanese fleet, made a sudden attack on the 8th instant, that is, three days before the declaration of war, on two Russian warships which were in the neutral port of Chemulpo and whose commanders had not been notified of the rupture of relations, as the Japanese maliciously stopped the delivery of Russian telegrams by the Danish cable and destroyed the Corean government's telegraphic communication. The imperial government did not stop the allegations under this heading are untrue. The imperial government did not stop the delivery of Russian telegrams by the Danish cable, neither did it destroy the Corean government's telegraphic communication. Regarding the alleged sudden attack on February 8 on two Russian menof-war in the port of Chemulpo, it is only necessary to say that a state of war existed and that Corea having given its consent to the landing of Japanese troops at Chemulpo the reby ceased to be neutral, at least as between the belligerents.

3. It is charged under this heading that Question of Granting American Register to Beaumont Agreed To. WASHINGTON, March 8 .- Today in the ouse was set apart for consideration of claim bills. Thirty two bills of this character were passed. One relating to the ship Beaumont gave rise to considerable debate. Mr. Stevens of Minnesota made the point that to afinit such ships to American registry would be detrimental to the interests of American workmen. He was seconded by Mr. Humphrey of Washington.

New York Shortly after the house convened Speaker Cannon, in ruling on the conference report on the legislative, executive and judicial appropriation bill, stood by a former precedent, holding that conferees could not in-

sert new matter. Debate on the Beaumont bill was finally cut off by Mr. Fordney moving that the bill be reported favorably, which was done amid applause. The committee then rose and the bills recommended by the commit tee were passed.

At 5:05 o'clock the house adjourned until tomorrow.

A. It is asserted under this number that Japan "declared to the emperor of Corea. through the Japanese minister at Seoul, that Corea would be henceforth under Japanese administration and warned his majesty that in the case of noncompliance fapanese administration and warned his majesty that in the case of noncompliance fapanese troops would occupy the palace. The imperial government declares the charge under this number to be absolutely and wholly without foundation in fact.

5. Under this heading it is charged that the Japanese government "forwarded a summons through the French minister to the Russian representative at the country with the staff of the Russian legation and consulate." Money for Fortifications. WASHINGTON, March 8 .- Senator kins, from the committee on appropriations, today reported the fortification bill with a net increase of \$506,000 over the bill as passed by the house, making the total of the bill as reported to the senate, \$7,637,191 The principal increases are:

For purchase of submarine torpedo boat for use of school of submarine defenses, \$250,000; for ammunition for machine and automatic guns, \$100,000; for ammunition for sea coast cannons, \$150,000; for construction of sea coast batteries in the insular possessions, \$200,000. The appropriation in the house of \$200,000 for sites and defenses of the Hawaiian Islands is eliminated.

DEATH RECORD.

with the staff of the Russian legation and consulate."

The imperial government denies the accuracy of this statement. No demand either direct or indirect, was addressed by the Japanese government asking the Russian minister to rettre from Corea. The French charge d'affairs called on the Japanese minister at Seoul and informed him verbally, as he did afterward in writing, that it was the desire of the Russian minister to leave Corea and asked the opinion of the Japanese minister with reference to the matter. The Japanese minister would withdraw in a peaceful manner, taking with him his staff and legation guard, he would be fully protected by Japanese troops. He did so withdraw of his own free will on the 12th of February and an escort of Japanese soldiers was furnished him as far as Chemulpo. In this connection it may be remarked that the Russian consul at Fusan remained at his post as late as February 28. It is regarded that he was compelled to stay that long in the absence of instruction, which the Russian minister apparently did not care to give him before his own departure. When it was made known that the necessary instructions had at last resched the Russian consul at the same port offered him every facility for his departure, and his passage to Shanghai through Japan was arranged by the latter. Announcements of the Theaters. This evening at the Boyd theater Mme Lillian Blauvelt, the great American soprano, will give a song recital. This is her second visit to Omaha during the current season and gives the lovers of good music another opportunity to hear one of the inest voices now before the public. Mme. Blauvelt won much distinction in Europe particularly in Italy. At Rome she achieved the greatest distinction ever given an Amertoan in the Eternal city, being commanded to sing at the Qufrinal before Queen Marghareta, by whom she was decorated with an order seldom bestowed on an artist. Her concert tour during the present season has been a successful one.

An event of more than ordinary theatrical importance is announced for Thursday night at the Krug, when Isabel Irving will make her first appearance in this city as a star, bringing before local playgoers her famous impersonation of Virginia Carvel in/Winston Churchill's dramatization of his successful novel, "The Crisis." Miss Irving has been starring in this play for the last two years under the management of James K. Hackett, the celebrated young actormanager who has surrounded his star with a superb company and one of the finest scenic equipments seen on the stage in "The Crisis" will be presented to years. this city with the same company and production that it has been shown in all the large cities of the country this season. Indeed, so fine is this presentation of the play that Mr. Hackett announced at the beginning of the present season that is could not be bettered, for which reason he would himself no longer be seen in the plece, but would leave all the honors to Miss Irving, seeking a new play for himself. Seats are now selling.

Victim in Anti-Mortem Statement Says Writing on Candy Box Resembled That in Letter Previously Received.

PIERRE, S. D., March 5 .- (Special Telegram.)-After a week of intense suffering Miss Rena Nelson, the victim of poisoned candy, sent from Boone, In., died at a late hour last night at her home six miles north of this city from the effects of the drug. From the first the attending physician held out no hope, and while the young woman herself believed that she would recover the physicians who had been called in would give no hope. That she held on so long of Mrs. Andrew Traynor has been postwith the suffering is attributed to her health and strength, she being a large and strong young woman. The remains were brought to this city this forenoon and an inquest, with a post mortem examination, will be held this afternoon

The question as to whether Mrs. Dye will be brought to this state for trial will be spent the week's end visiting Omaha largely settled by the action of Governor friends. Coroner Holds Inquest. The body of Rena Nelson was brought to this city this afternoon and taken charge of by the coroner, who summoned as a Mr. and Mrs. Charles T. Kountze at a box jury A. B. The testimony of the first men of New England for the purpose of three witnesses was as to their knowledge rearing ministers for the spread of Bible of the relations of Miss Neison with Dye, the statements which had been made to the state's attorney by the girl previous to her death and the general conditions through her sickness. The testimony of Williams was that a few weeks ago the postoffice in this city received a letter from Boone, Ia., signed by Mrs. Sherman Dye. asking the office to assist her is, finding out if her husband was carrying on a correspondence with Miss Rena Nelson of this city, saying that she had a friend in the Boone postoffice who would assist her at

that end of the line. After the taking of the testimony of these witnesses Drs. Clark and Ruble began a post mortem examination, and the jury was excused until tomorrow morning, when the report of the postmortem will be presented and probably other witnesses examined. The report of the postmortem will show that they found a large ulcerated spot in the stomach which was surrounded by a gangrenous area and that the kidneys were much enlarged and very hard. None of the other internal organs showed the effects of the poison further than that they were flabby.

The box in which the candy was received was an ordinary half-pound bonbon box, with no specially distinguishing marks, and bore a wrapper addressed to "Miss Rena Neison, personal." This was in a handwriting which Miss Nelson testified in her ante-mortem statement was the same as that of a threatening letter which she had received some time ago and which she was led to believe came from Mrs. Sherman Dye.

Cannot Be Extradited.

(From a Staff Correspondent.) DES MOINES, March 8 - (Special Telegram.)-After considering the application for the extradition of Mrs. Dye from Boom to Pierre, S. ing statement in refusing the papers.

The ruling I am compelled to make upon this application exhibits a grave defect in the law. Under the rederal statutes as construed by a very recent decision of the supreme court of the United States and by an older case in our own supreme court. I have no authority to extradite Mrs. Dye. The holdings in these opinions are clear and expitely to the effect that to warrant extradition the person accused must have been personally in the state where the crime was committed and fled therefrom after the commission of the crime. Mrs. Dye was not in South Dakota and therefore could not have fled from that state. I regret this conclusion, because if Mrs. Dye is guilty of murder, she must be tried for that offense in South Dakota or not at all, unless the statute be changed. I have submitted the matter to the attorney general and this ruling is made under his advice.

THE HOME OF THE COSMOPOLITAN AND THE "TWENTIFFTH CENTURY HOME," IRVINGTON, NEW YORK The "Twentieth Century Home The New Periodical

"For women who plan their lives and do"

"A magazine so strikingly original, so distinctively individual and so uniformly interesting, cannot fail to develop a large and appreciative constituency."—Editor-in-Chief St. Louis Republic.

"Perfect in typography, replete with contributions from eminent authors. The "Twentieth Century Home is beautifully barmonious in all its departments."—Editor Albany Press Knickerbocker-Express.

"An impressive and important triumph. In both its literary and artistic features it is of a very high degree of excellence."—Editor-in-chief Philadelphia Public Ledger.

"It is for women of the twentieth contary, who plan their lives and do, who know and understand, and stand abroast with mankind in the affairs of the world.

"It deals with the affairs of the household, but in a scientific spirit; with dress, but not with the gusb and breathless admiration of the average woman's maga-sine."-New York Mail and Express
