REPORTS FROM SOUTH ARE DEPRESSING.

Corn Has Better Tone-Price Advances one and one-Eighth Cents-Foreign Openings Are on.

OMAHA, March 8, 1964.

Wheat had another bad day. The break surprised the buil element, who could not explain it. The continued bad reports from the southwest and the promise of a long drawn out Argentine strike should have held the market rather strong. Forcign openings, however, were off and gave no support to the American market. Chicago May opened wildly, the quotation being from saye to 94%, one higher and the other tower than the close Monday. There was no mistaking the weakness of the market for soon after the opening it broke to 3%. It later railied to 8%, and at noon stood at 20%, Omaha was much weaker than Chicago. May broke rapidly from 85c, the opening, to 82c. It later took strength from Chicago and railied to 85c. Omaha Joly was stronger than May and only fell away 4c. Chicago showed a spread of 5c at the opening and franged from 85c to 26%. Corh had a better tone than wheat and advanced. Chicago seemed to be cleaned-up and the small offerings were quickly taken. From 50% this future advanced to 25%c, and then weakened toward the close to 54%c. Omaha advanced from 65c to 46%c.

The cash business was again dull. The car shortage plays a considerable part in this. Railways are unwilling to furnish cars while rates are down. Wheat was let up, due somewhat to the larger shipments to Europe and the unfavorable reports in Russia and Argentime. Receipts of wheat were 1 car in and 6 cars out, one week ago, 2 and 6 cars. Cern and oats were firm at the prices of Monday. Receipts of torn were 22 cars in and 25 cars out; one week ago, 31 and 19 cars. CHICAGO, March 8.—Indications that the Ransas-Okiahoma crop scare has perhaps been exaggerated induced liberal sciling of wheat today. The market closed at a not loss of Pac for May and Paciliac for July. Corp is down a shide. Oats are off Sc. Provisions are a shade lower to Pac ingher.

Contradiction of the reported settlement of the Argentine strike caused at the opening as improved tone in wheat. Shorts covered freely in both May and July, the latter option selling up to Sc., while May held firm at 942c. Toward the middle of the day prices slumped severely. May dropping to Sc. while July sold off to 843c. Just before the close extreme weak-ness again developed, and May declined to 813c. a loss of Pac from the high point of the day. July dropped to 873c. a decline of Pac from the top. Final figures on May were 913c. July closed at 88c. Clear receipts of wheat said flour were equal to 218,000 bushels. Primary receipts were 361,000 bushels, against \$13,500 bushels & year ago. The world's visible, according to Bradstreets, decreased \$29,000 bushels, against \$402 cars last week and 393 cars a year ago.

Higher prices at Liverpool, due to reported unfavorable weather in Argentina, caused strength in the born pit early in the session. The close was comparatively steady at the decline with May at \$32c. The opening on May was \$45c to \$600 bushels and closed at a loss of \$400 bushels and \$15c. July sold between 514c. Local receipts were 282 cars 8 of contract grade.

Oats met with a fair scattered demand from commission houses. The close was fairly steady. The opening on May was \$400 bushels and closed at the low point, with a loss of \$400 bushels and closed at the low point, with a loss of \$400 bushels and closed at the low point, with a loss of \$400 bushels and closed at the low point, with a loss of \$400 bushels at \$400 bushels and closed at the low point, with a loss of \$400 bushels at \$400 bushels and closed at \$400 bushels as shade lower at \$400 bushels. NEW YORK, March 8.—Yesterday's disappointment over the monappearance of the Northern Securities decision still weighed upon the market fedgay and threw it back upon the market folds and threw it back with the rest of duliness and sluggishness of the President Gould of the Missouri Parcial of the Statement in the annual report of far from that in either direction. A more the market in the annual report of the market the market to consolidate its control was the subject of some comment. There were signs heard that Petinsylvania, in making the fight for the differential in favor of Philadelphia on lake grain traffic, might incur some adverse influences in the correspondent of the Missouri Parcial of the irregular.

RECEIPTS FOR THE YEAR TO DATE.

sirong. The demand was good for all kinds, though, so that an early clearance was made. As high as \$4.5 was paid for some well fattened cattle.

There was also a brisk inquiry for cows, and, the same as with steers, trading ruled active from start to finish and prices ranged sirong to a dime higher. The better grades were generally a dime higher, while canners and common cutters were a little stronger. Good to choice heiters sold exceptionally well, as both the local and shipping demand was brisk for that kind. Bulls could not be quoted a great deal higher than yesterday, but still they sold to a little better advantage and were much easier to dispose of than has been the case for some time past. Veal calves sold freely at good firm prices.

There were only a few stockers and reeders in sight, and, as the demand both from yard traders and from country buyers was liberal, the market ruled active, with prices strong on all desirable grades. Even the commoner kinds sold without a touch a feeders. Representative sales:
