TRANSACTIONS ARE NATURALLY LIGHT

Slight Renetion Comes Late in Day as Result of Wednesday's Operations -- May Corn Holds Its Own.

OMAHA, March 10, 1994.

Another quiet day on the Omaha exchange in grain for future delivery. The market continued to be such that it is as dark as might to the local contingent what wheat will up during any given twenty-four hours. For this reason transactions are light and overybody is cautious. May dorn continues to supply the speculative interest desired and is practically the only future in which Omaha exchange is active. A reaction in wheat was due today after the southern trip of Wednesday, and it came late in the morning. Elverpool opened 4d up on news of a continued tie-up in Argontine. Chicago May opened on a spread of 3c, the top of the market being isc. The market sagged, however, to 519c. It railled later and by noon had reached \$3\cdot c. Chicago new July riddied about \$8\cdot c. The market sagged, however, to 519c. It railled later and by noon had reached \$3\cdot c. Chicago new July riddied about \$8\cdot c. The elevators all are loaded up with wheat and wish to sell. There is no demand from other sources. If the elevators were in the buying mood the market would be fairly lively, but they are not so inclined. The need of a 1,000-barreladay flour mill is felt; the need of two such consumers is greater. Business in corn was rather better than for several days, although the prices were nothing more than firm at the mark of Wednesday. Omain prices on corn and oats are in line with those of other markets, in some respects rather higher. Corn is grading better now than formerly; out of thirty-eight inspections today two cars only were no grade. Five cars were No. 2. The talent is beginning to think that the corn will not fall in grade with mild weather, for it has graded better during the last few warm days than formerly during the last few warm days than formerly during the cold weeks. Prices on Board of Trade.

CHICAGO, March 10.—Fear of an official announcement of decreased reserves in farmers quantities in hands was largely the cause of a net gain of 140 today in May wheat. July closed at an advance of 140% May corn is up 160. Oats are previsions 22400c.

In spite of rain in Kansas the price of wheat at Kansas City experienced a sharp advance. May advanced to 340, a gain of 130 from the low point. July sold up to 89147896. The market closed strong, with May at 940, the high point of the day. Final figures on July were at 891478940. Clearances of wheat and flour were equal to 77,900 bushels. Primary receipts were 538,300 bushels, against 434,800 bushels a year ago. The corn market opened quite steady. The initial firmness in wheat was also a factor at the start. The close was strong and at the top prices of the day. May opened the lower to 180 fined prices of the day. May opened the lower to 180 fined prices of the day. May opened the lower to 180 fined prices of the day. May opened the lower to 180 fined prices of the day. July ranged between 48%a and 50%c, and closed with a gain of 1c at 50%c. Local prices were 13 cars, with four of contract grade.

receipts were 173 cars, with four of contract grade.

It alied later and by moon had reached 25% c. Chicago new July induced about 88% most of the morning. There seems nothing to disturb the idea of a short crop. Neither on the high market or on the present lower one have the ranmers liberated much grain.

Experts feel that the United States will call for all the American wheat this year, and this business will be independent of foreign markets.

May corn showed strength enough to hold its own today after the rout of Wednesday. Omaha opened at 44% c. sagged to 44, and later railled to about the opening. Chicago broke 1%c from the opening and fluctuated about 51c. It showed some strength at the close.
