district court in this city. The appraise

would be taken by storm. Instead, however, a plan was formed to set Honnett's "castle" on fire and smoke him out. Word was sent to the fire department to be near, so the blaze might be BOON suppressed.

Before putting the plan into execution . Deputy Long decided to give the "squat- supposed to Be Marder and Enfelde. ter" another opportunity to surrender Armed with an are, Long went to the "castle" and demanded admittance. No response being made to the request, he proceeded to batter down the door. Enter-ing, the deputy found Bennett sitting in the

at Marsetlies on June 21, 1997, has been the object of special observations at the Lick observatory by Schastian Albrecht, He-tween June 22 and August 15, 1997, a total of thirty six photographs were setued with the Crocket telescope and with the Pierson and Floyd camenas Throughout the entire series of photographs two dis-tinet types of tails peeds. The principal tail is long and strught in its general di-rection and can be traced to the edge of the plate, a distance of 19 degrees. It was always directly chead it widens out and, in most of the plates, divides into two dis-tinct branches. The other tail is struct and yery much curved and presents practically the same appearance on all the negatives.
