(From a Staff Correspondent.) LINCOLN, March 16 - (Special.)-At meeting held this morning the State Board telephone company which proposes, if per-Equalization decided that the decision of Attorney General Prout, that credits in connections along the lines of the various the new revenue law mean net credits, af- rural lines in this neighborhood. The counfeets only these tiems in the personal property schedule: "All notes secured by mortgage owned by me; all other notes owned until the next meeting. This move is the by me; all money loaded by me and not culmination of the strife over the matter already chtered on this schedule; all book accounts due me, and credits not otherwise

The interpretation of the hoard means that a person who holds, notes secured by mortgage, owns other notes, has book accounts due, has money loaned that is not aiready included in the schedule and has credits not otherwise listed upon which he is to be faxed, the person has the privilege of deducting money that he owes.

The item, "credits not otherwise listed, is taken to mean money loaned to a bank and such like from which a person will be allowed to deduct his debts.

Since the attorney general held that cred Its mean het credits there has been considerable apprehension that the revenue raised under the new law would be materially decreased because of the ruling. This action of the board in making it apply to only five items in the schedule, it is said, will cause only a small decrease. The wholesale merchants of Omaha probably will be benefited more than any other by the decision. Junior Normals.

The book tells how by selentific experiment I

I found invariably that where there was a weakness the inside nerves were weak. Where there was
lack of vitality that the vital nerves lacked power.
Where weak acgans were found I always found

but the vital organs' nerves, the inside—the invisible nerves.

This was a revelation:
Then my real success began.
Then I combined lagredleshs that would strengther,

#### TROUBLED OVER TELEPHONE RATES

Humboldt Merchants Object to Charge for Connections. HUMBOLDT, Neb., March 16 - (Special.) This city seems determined to maintain its reputation established long ago as the recognized center of municipal controversy council was asked last evening to grant

The city a franchise to a newly organized mutual mitted to maintgin a local exchange with cil passed the ordinance asked for to the second reading and then allowed it to rest of rates charged by the company now operating here for connecting with rural Georgines, which originaled last summer and Sage. was quite freely discussed at the time. One of the rural companies was assessed a fee of \$1 a year per 'phone for connec tions with the Humboldt company's lines. This was later discontinued by order of the city council, to whom had been delegated the power of arbitration of the differences. By an agreement between the two companies this arrangement was continued until the annual meeting in March of this year. At that time the Humboldt company decided to make a charge of 10 cents for each outgoing call and allow free connections for inward business. This threw the burden on the local merchants, who were dissatisfied and have quietly gone to work and organized a competing concern. The stockholders in both companies are local citizens and it may be that matters will yet be settled by a sale of the old franchise and stock to the new company At this time, however, those in charge of the latest move show no disposition to purchase. Under the terms of the franchise ordinance the work of construction is promised to be started within ninety days of

Calls Merrick County Convention. CENTRAL CITY, Neb., March 16,-(Special.)-The republican county central committee met in this city yesterday for the purpose of calling a convention to select delegates to the state and congressional conventions. It was ordered that the convention be called for May 12. No resolutions were adopted endorsing anyone for United States senator or for governor. It would appear from a surface view that there was no great enthusiasm for Mickey as a self-successor in this county. Mr. Harrison or Mr. Robertson appear to be those about whom the most favorable comments are made for governor. At present a strong pressure is being brought to bear upon Isaac S. Tyndale of Central City, one of our most successful dry goods merchants, to accept the support of this county for state senator. Should Mr. Tyndale become the nomines for this office it is conceded that he would carry this county by a very large majority.
