NEW YORK STOCKS AND BONDS

Nervous Tone Caused by Early Failure Continues to the Closing. BANK STATEMENT HAS NO INFLUENCE. Feverish and Irregular Condition Continues to the Close in Spite of the Favorable Financial Reports.

NEW YORK, March 18.—There was a rather pronounced tapering off of the buying movement in stocks today and the market proved unable to withstand the weight of the realizing and selling pressure by the Sully failure. The assertions that the operator was short in the stock market, caused by the failure, continued to the closing, which was feverish and irregular and not far from the lowest. Renewed selling for foreign account while the exchange was in session was a feature in the tone. The forecast of a favorable bank statement was without influence. The fall in sterling in Paris and a sharp advance here, as well as a marking up of the price of gold in London, were moderate factors in the market and the tone was irregular. Total sales, par value, \$2,700,000. United States bonds were unchanged on exchange.
