CHARGED WITH MANY THEFTS

Domestic Arrested Accused of Stealing from Numerous Employers.

IDENTIFIED BY NUMBER AT CITY JAIL

Several Detectives Work on Case for Long Time and Pind Ineriminating Evidence in Various Nebraska Towns.

One of the most obstinate cases that the Omaha detectives have had to contend with for years was brought practically to an end Friday afternoon, when De tectives Ferris and Dunn arrested Eila Hurst of Wymore. Neb., at the home of DeForest Chapin, 1580 Harney street.

During the last year numerous com plaints have been received at the police station stating that a servant girl had worked at a certain place, pilfered various articles of value and then suddenly left. The case was diligently worked on, all the ruses applicable in such cases being applied by the detective department. semed almost hopeless. Reports came with more frequency and more drastic means were used to run down the guilty person, for it was evident that one person was doing the work, although the description of the thieving servant did not agree in all

The case grew to such proportions that for the past month or two from two to four detectives have worked on it almost continuously, with the result that the muchwanted person was apprehended Friday

The young woman's modus operandi was to work at a place for a short time, steal such articles as might appeal to her fancy, then leave the city suddenly and return in a month or so and repeat the operation. She has worked at Hastings, Beatrice, Wymore, Nebraska City and Council Bluffs, but whether she maintained the same sysof theft at those places as she did in Omaha, has not yet been learned.

Her Pirst Place Here.

The first report of her Omaha depredations was received about a year ago from the home of Warren Switzler, 2604 St. The following are some of the persons in whose homes she is known to have worked and stole articles of various values

R. F. Hodgin, 428 North Fortleth street; D. V. Sholes, 1120 South Thirty-first; George Squires, 616 South Thirty-seventh; Harry May, 1316 South Twenty-ninth; E. W. Arthur, 914 South Thirty-third; DeForest E. Chapin, 2580 Harney; Rabbi Abram Simon, 1117 South Thirtieth, and Thomas M. Orr, Twenty-eighth and Farnam streets. At some places it is said she worked as short a time as three days and in some manner she obtained recommendations which invariably made her entrance to some of the best residences an easy mat-

From the home of H. C. May the woman is said to have taken such articles as opera gtasses, silver-handled umbrells, set of punch glasses, cups and saucers and other articles. The report from the residence of E. W. Arthur shows that two fine watches, two overcoats and a suit of clothes were taken. A valuable cameo was taken from he home of R. F. Hodgin, and a quantity of cut glass and hand-painted china from the residence of Thomas M. Orr.

The other reports received from the various houses where the woman worked show variety of articles stolen, the aggregate amounting to several hundred dollars. None of Plunder Found,

As none of the plunder has been located in Omaha, it is thought that the woman may have a fence somewhere and may have taken the stuff with her when she left the city, as she did frequently between acts She says her brother-in-law, named Neison, ed at Twenty-second and Lake streets up to last September, when he moved to

While working at one place the woman is said to have ordered a large amount of groceries, and it is thought the use of a horse and vehicle must have been employed to take the stuff to its destination.

When questioned Friday afternoon the woman was exceedingly noncommittal re-garding her operations. She said she was raised at Wymore, was 24 years of age and at present in a delicate condition. A majority of the persons who have re

ported the losses have called at the police station and identified the woman as being the servant who worked for them. The woman's apprehension has much re lieved the detective department.

Judge Day has handed down an order commanding Dr. Coulter to pay \$40 a month for the separate maintenance of his wife and \$15 for tion for a divorce, which had been so persistently urged in the trial, which was prolonged and sensational in some of its details. When Coulter's attorneys did this Mrs. Coulter's lawyers asked that she be granted a partial decree. Gentlemen-For years I suffered with stomach trouble and constipation, causing dizziness and loss of appetite, together with all the other troubles accompanying all these afflictions. In my case I feel that constipation was the chief cause of my stomach trouble. It became so bad with me that I had no passage of the bowels except when I used warm water injections. But at last I have found the thing for constipation in Milks' Emulsion. Since taking the first box I have experienced for the first time in many months free operations with no pain in the bowels. Your Emulsion has given me the only relief that I have had for several years. Send me another box at once and your cash terms to agents. Yours truly, O. H. ROGERS,

In speaking of the convention and the dairy men in general, Mr. Harding said:

"Owing to the fact that we have been so husy building up our business during the pust three years, we have not had time to infom the public of the rapid growth of the dairy business in this state. We now are going to take a little time off to show the people of Omaha and Nebraska just what is being done in the dairy line.
