Such is Plan of E H. Harriman for the Union Pacific.

MUCH NOW LAID UN THE MAIN LINE

Work is Going on Quietly but Persistently and Progresses, as Does New San Pedro Rond.

An official of the Union Pacific, in speaking of the large increase in the traffic of that line during the past year or two, said: 'At present our increasing business demands more double tracking and it is my inderstanding that it will be the policy of company to lay another track in places n months the company has been e plans now under way are comwill have about 149 miles of the he of the system in this state with two main-line tracks. Sevyears ago double tracks were laid Omaha to Gilmore, nine miles. Durthe past two years we have built ble tracks ten miles long at Columbus, miles at Kearney, sixteen miles at Grand Island, twenty-five miles from Cheysane west and six miles from Chevenne From Hermosa to Laramie, a distance of twenty miles, double track has also been laid. From Silver Creek, Neb., west the grades have been prepared to receive double track for a distance of sev-

Will Continue West.

"This grading was completed last summer, and it is my understanding that the grading will be continued on westward during the coming summer. That portion which was graded last year will be settled sufficiently this summer to receive the second set of rails and they will be laid at the earliest possible date that it is thought safe to put them down. When the rails are laid in this district and some of the other short gaps are closed up we will have about 180 miles of continuous double tracking in the central western portion of the state. When you stop to consider you will find that with other short stretches this will figure up about one-third of the entire main line of the system in Nebraska under double track.

work has been carried on quietly that few people are familiar with the fact that a policy of double tracking the entire system is being gradually carried out. It is my opinion, and I undevstand a decision in the matter has been reached, to begin work immediately when spring opens, to grade for double tracks a distance of twenty-five or thirty miles on each side of Green River, Wyo. You see, these double tracks are needed most at division terminals, where there is a disposition for freight to pile up and traffic scome congested; consequently it is the policy of the company to first bulld double lines out of these places, which has been done at the points I have mentioned.

Harriman's Fixed Policy.

"It was the policy of President Harriman as soon as he secured control of the system to double track the entire main line of the Union Pacific. He realized that it would be but a few years until the natural increase in the traffic of the company would make the volume so heavy that two tracks would become necessary.

"I do not believe, however, that natural traffic increase is the cause of the present activity in laying double tracks, If we look a little farther west we will see that the San Pedro line soon will be completed. This will open up a vast and rich Union Pacific from this source has to be handled the management of the company realizes that one set of rails will not be adequate. Looking at the matter from this standpoint, it is my opinion that the Union Pacific will be double tracked almost the entire distance from Ogden to Omaha by

the time the San Pedro line is finished. "I believe the line from Green River to Ogden, a distance of 175 miles, will be taken care of first-that is, after the rails on the grade at Silver Creek are laid. I think you will find that when the San Pedro line is opened the Union Pacific will be amply able to care for the additional business which that road will bring. It cannot very well be otherwise. We have all the business we can handle now, and something must be done to take care of the increase and in what other way than laying double tracks can it be done?"

LITTLE BOY IS BADLY HURT

ruck by a Brick Hurled by Another at Random Into Gang of Tormenters.

Gifford, the 9-year-old son of J. McManibrasks Telephone company, residing at more harm than good. A. W. Keliner, by a brick thrown by Henry George last night, causing a depressed fracture of the Clarkson hospital and George to the police

According to the story of Henry George, who is 14 years old, it seems that some of the boys of the neighborhood have formed an organization and, among other things, make life unpleasant for a newcomer. George came to Omaha about a week ago. and, for the time being, the only strange boy in the district, he has received the undivided attention of the "club." Last night as he was returning from the grocery store, he says, a number of the boys met him and proceeded to throw stones at him. He was chased to his home, a few blocks away, but as the gang showed indications of invading his territory he picked up a brick and threw into the crowd, litting Gifford McManigal on the head. The injured boy it seems did not have anything to do with the "club," but had been sent to the store and, seeing George chased, it is presumed followed the others. This gang of boys have been the terror

DOUBLE TRACK ALL THE WAY of the neighborhood for some time, and RALLY OF CITY IMPROVERS It is alloged that they were the persons who a few weeks ago tore up the sidewalk near Twenty-ninth and Parker streets to build a bonfire. The gong for supposed to be led by a colored boy rather older than the rest.

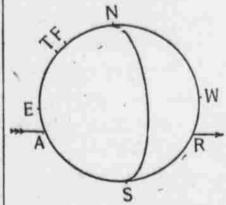

> Dr. J. E. Summers performed an operation on the injured boy's head at the Clark son hospital, removing about an inch and a half of bone. He is resting easily and no serious outcome is expected.

MOON HITS THE BULL'S EYE Alpha Taurus Will He Covered for an Hour on Monday Evening.

The reader will probably remember that on November 6 the meon made an unsuc- by E. G. Routzahn, field secretary of the cessful attempt at hitting the Bull's Eye, e the business is most congested at that is to say, the moon came very close earliest possible date. The Union Pc- to the brightest star in the constellation at present probably has more double of the Buil, called Aldebaran, or Alpha than is supposed. During the last Tauri, or the Bull's Eye. She promised to make amends for her unskillfulness on adding to its double trackage and March 22, and she is now here to remind us of her promise.

This time the moon will make a succe of it and hit the Bull's Eye so well that she will keep it covered for a whole hour. She will be a beautiful crescent only five days old.

The annexed diagram will explain the whole performance. The letters N S E W are the cardinal points of the moon's disk, N being the direction of the north star. The diagram is to be held in such a way

that the point F is on top at 6:43 p. m. when the star disappears behind the moon at the point A, and the point T on the top when the star reappears at R at 7:44. The star, therefore, would seem to run along the line A R, although in reality it is the moon that moves while the star is stationary. The right part of the moon, the crescent N W R S will be bright, while the left, N T F E A S, will be dark and invisible. This will be a novelty to all amateur observers because the star will thus disappear at the moon's dark edge. The star will appear to be at some distance from the lunar crescent, until, when the important moment comes at 6:43 p. m., it will disappear with a suddenness that is apt to start an inexperienced observer. This phenomenon is well worth observing, as it is the usual and strong proof that the moon has no atmosphere, for if it had the star would first grow dim or be displaced laterally by refraction. As the sun sets on that day, Tuesday, March 22, at 6:35, this immersion or disappearance of the star will take place only eight minutes after the time of sunset, hence in such strong twilight that the naked eye will probably not be able to see the star near the moon. Any telescope or even opera glass will, however, remedy this disad-

vantage The star will remain sixty-one minutes hidden behind the moon. At 7:44 it will reappear at the point R at the moon's bright e with the same suddenness with which dded traffic which is poured onto the it disappeared, but owing to the moon's brightness this suddenness will not be as startling or as noticeable.

The times of immersion and emersion 6:48 and 7:44, apply only to Omaha, so that if the reader is at some distance he must be on the lookout sooner if west and later if east of Omaha. These occultations, or eclipses of stars by the moon, are visible only over a very limited portion of the We just missed it last November earth. 6, but now we are right in the star's shadow. Nothing terrifying will happen, there will be no earthquake, no cyclone and no war, but only one of those quiet, simple but grand and exceptional sights in the heavens which delight the heart of every lover of astronomy.

WM. F. RIGGE, S. J., Creighton University Observatory.

FASCINE PROTECTS THE BANK Inroads of the Missouri River Above East Omaha Are Finally

Word was brought to Omnha yesterday that the fascine installed by the East Omaha Improvement club on the river bank gal, a lineman in the employ of the Ne- a mile east of Florence lake, was doing 3004 Burdette street, was hit on the head president of the Kellner Construction company, who is doing the work, says the fascine was tipped over by a sudden break Register company of Dayton, O. A large skull. The injured boy was taken to in the ice, which snapped one of the cables by which the big mattress was anchored, damage. This was quickly repaired, and offering substantial prizes. Considerable now the fascine is performing its function

not do all he claims for it.

Don't Fool with a Cold. From the New York Sun.

We must repeat our warning against pneumonia, the most dangerous disease WOMAN CUTS HERSELF IN RAGE that prevails in this city, and which is extraordinarily prevalent at this time. Be on the guard at all times against taking cold. Look out for it if you take it. Gladstone used to go to bed and send for a doctor whenever he had a cold, and consequently he got well in a very short time. The is right and their warning should be heeded. For colds there is nothing better than Chamberiain's Cough Remedy. It prevents any tendency of a cold toward pneumonia. It always cures and is pleasant and safe to take.

Tailors Form an Exchange.

Many of the tailors of the city have formed an orga ination to be known as the Tailors' exchange, whose object is announced as for the mutual advancement and protection of that particular line of business in Omaha. The concerns which have joined this organization are Remington & Kessler, Hulin & Co., Williams & Smith company, G. A. Lindquest, Heigren & Gradman, Guckert & McDonald, J. A. Ryicz, Barrett-Johnson company, J. A. Kervan, Frank Vodica & Co., Nicoll the Tailor, Max Motris, MacCarthy Tailoring company, Theodore Volz, S. Wickman, P. J. Milander, Paris Woolen company, Albert Kodym. The following officers have been elected: President, Frank Barrett; vice president, Fred Pafferrath; secretary, J. C. Lewis; treasurer, B. H. Smith.

Poker Games Raided.

Poker Games Raided.

Thirteen may be an unlucky number, but hereafter eighteen men will have some seruples in sitting down to a quiet game of poker when there are nine men in the room. Last night the police cortinued the raiding of poker games and brought two of them to an abrupt conclusion. Nine men were arrested in each instance. The first call was at the cigar store of George Horner at Mi South Fifteenth street, and the next to the barber shop of P. Vercheval at 1625 Howard street. Some of the players where searched at the police station had as much as \$150 on them.

WHAT MAY BE DONE FOR OMAHA'S CASE

Secretary Rentzahn of the National Body Illustrates Possibilities by Means of Photographs of What Has Been Accomplished.

In the assembly room of the Board Education in the city hall the Civic Improvement league of Omaha and the Omaha Federation of Improvement clubs gave an improvement rally, which was addressed American League for Civic Improvement, Public spirited men and property owners from all parts of the city were present and showed much interest in the stereopticon pictures which were shown-200 in number-illustrating the work which has been done in various cities in changing uninviting neighborhoods into gardens. The impression gained from the meeting was that Omaha men will do a great deal to chance unnecessarily unsightly and inartistic things for the betterment of the physical appearance of the city.

It was announced that Mr. Routsahn would talk to civic improvers who wish to come to the Paxton hotel, parlor B, this afternoon at I o'clock. He will then go more into detail regarding improvements about which questions may be asked him. The Omaha improvers feel that they should not let this opportunity slip by when they have in the city one so well informed on the work, without learning all possible

Gift to the Park Fund. Park Commissioner J. H. Evans an-

nounced at the meeting yesterday evening the gift of \$7,087 to the park funds by Turner. Mr. Turner had been awarded the sum of \$7,850 by the city as damages to his property through the construction of the boulevard which is to cross Curtiss Turner park at Thirty-first and Farnam streets. He informed Mr. Evans that if he would pay the taxes due on this property because of the improvement amounting to \$813, he could have the city warrants for use in park work. This gift is to be used anywhere in the city. The Civic league, in support and recogni-

tion of the semi-centennial celebration, appointed a committee to assist the old settlers in the preliminary work. Those named by President Slabaugh are A. L. Reed, W. Poppleton and A. L. Patrick.

A letter was read from General Manderson, inclosing a check for a \$10 prize. The writer said that the city should have been laid out with contour streets and not in rectangles, necessitating much grading. This could not be helped, but in future additions he thought the league should see that the contour or park plan be adopted. He thought that the bad condition of streets and alleys is in part due to the expense of getting wagons to remove rubbish. He suggested that the league buy some dump carts which the public would be able to hire cheaply for this work. Toward the vacant lot and best kept yard

ontest prizes were offered-for the Fourth ward, Dr. Gifford and Dr. Ralph; for the Sixth, Dr. Mason and Mr. Johnson, and for the Ninth, Henry W. Yates, J. H. Evans and Comptroller Lobeck.

Mr. Routsahn's Remarks.

Before showing the lantern pictures Mr. Routzahn made a few preliminary remarks. "The few hours I have been in your city," said he, "have revealed to me some of the possibilities which it possesses for the greater Omaha which you all look forward to. In relation to this improvement movement, I wish to impress upon you the need of an intelligent constituency. This will be church societies and similar organizations, which will give particular attention to the problems which you have to consider. These attention. There is a need of a civic program. You should not wait for the city authorities to take action which you may wish to support or to oppose. All things are to be anticipated-a policy outlined. A plan may be perfected as to the manner of planting trees and of the kinds. In this way many mistakes may be avoided which have been made in the past.

"It is desirable that you bring to the city early a man who can see visions and knows what ought to be done to bring Omaha to its own. You should have a program before you, toward the working out of which you may spend years. A campaign of education is another essential. You must educate the people so that there will be a recognition of the necessity of such societies. The enlistment of the children is all important. The children so enlisted may develop a new class of citizens."

What May He Done. pictures showed principally what could be done with small expense in beautifying dreary back and front yards by planting flowers and vines and the removal of dilapidated and unnecessary fences. The civic improvement, movement which had been suggested now and then by various men of advanced ideas, was first put in practical operation by the American Cash number of the pictures showed houses and yards of workingmen before and after the and for a short time did contribute to the company had encouraged improvement by attention was also given to the billboards which are put up on vacant lots and to the Mr. Kellner offers to forfest \$500 to advertisements painted on dead walls. Archarity if the work he is installing does tistic tree planting was also shown by contracting views. Among other things were shown forms of certificates and awards to children for services of one sort or another in assisting civic improvement.

Undertakes to Stab Man with Shear and May Lose Two

Fingers.

Ear! Day, a roomer at Gertie Broomfield's place at 911 Capitol avenue, was given the chance of expressing her opinion of the police force in general, and of Officer "Daddy" Ryan in particular, as he was the man who arrested her for being drunk and disorderly. She made such good use of the chance that the police were forced to tell her to quit. It appears that there was a colored man in the resort last night to whom the woman had taken a particular dislike, and having had an undue allowance of liquor, proceeded to try and

puncture him with a pair of shears. According to the testimony of the on ookers the fight was a gorgeous one, and when stopped by the appearance of the officer it was seen that both the combatants were covered with blood. The woman had two of her fingers cut in attempting to hold the shears when her opponent endeavored to get them away from her. The man was not arrested, as it was shown that he was only trying to get the shears away from the woman before any damage was done. Though her hand was bleeding profusely and was very badly cut, the woman would not consent to have her hurts attended to and raised such a commotion at the appearance of the police; surgeon that nothing could be done with her. The police surgeon said that she is likely to lose her fingers.

AFFAIRS AT SOUTH OMAHA

John L. Webster and Other Prominent Repub icans to Address Big Bally.

ALL CANDIDATES WILL BE PRESENT

Several Meetings Are Scheduled and Campaign Opens Lively and with Good Signs of Republican

The subcommittee of the republican city ommittee appointed to make arrangements for meetings reported yesterday that the Werkman Temple had been engaged for a blg rally on Friday night, March 25. is understood that invitations will be issued to Hon, John L. Webster and other prominent republicans to address this meete present. This will be the first big rally the campaign.

Other meetings arranged so far are Tues ay evening. March 22, at Twenty-seventh and J streets. March 26 a rally at Koutsky's hall, in Brown park. March 27 at the new hall. Thirty-sixth and U streets Friday night, April 1, there will be a rally at Workman Temple. At this meeting a number of well known speakers will deiver short addresses and then give way to the candidates. The republicans appear to be gaining enthusiasm every day and big turnouts at all of the meetings mentioned are expected. In addition to the moetings slated, republicans gather at the headquarters, 316 North Twenty-fourth street, every evening and talk over the situation. From reports given out at headquarters the prediction is made that the entire republican ticket will be elected.

Will Cost Money.

The coming spring election will cost co siderable money for judges and clerks, to say nothing of the rental of suitable quarters, lights and heat. Seven judges and clerks are assigned to each of the twelve voting precincts in the city. The municipality pays each judge and clerk \$3 per day. The School Board pays the same under the law and with the special county bond election on the same will be paid so that all judges and clerks will receive \$9 each for their work on election day. This will make a total of \$756. The county will pay its portion, the School Board the same, but the city will be called upon to pay the regular price and then the cost renting rooms. While the county clerk has designated the places for holding the county bond election the locations do not agree with the ideas of the city officials. The inference is that the county will come to some understanding with the city and that the voting in each precinct will be done at one place.

Mayor Koutsky said last night the city officials were having considerable trouble in finding suitable places centrally located for the voting. All of the locations will be published in the mayor's proclamation, which will be issued in a few days.

Captain Cockrell's Funeral. A large number of the early residents of South Omaha gathered at the home of the late Peter Cockrell, 817 North Twenty-fifth street, yesterday afternoon, to pay the last respects to the dead. The floral offerings were beautiful and numerous and the casket was draped with the flag. Rev. Leander Lane, pastor of the Christian church, of which the deceased was a member, delivered the funeral sermon. The local lodge of Odd Fellows attended in a body, and, along with members of Phil Kearney No. 3, escorted the remains to Laurel Hill cemetery. In compliance with orders from Adjutant General Culver, a firing squad from the South Omaha cavalry troop marched in the procession and fired the regulation salute as the body was lowered into the grave. The firing squad was com posed of eight men and was commanded by Lieutenant Duncanson.

Postoffice Hours.

Commencing today the general delivery a. m. until 12:30 p. m. This change has been made by Postmaster Etter for the purpose of giving the public better service on Sundays. When the windows were opened from noon until 1 p. m. the lobby was crowded. By the new arrangement the postmaster savs that business men will be able to get their mail before the rush comes. The keeping open of the stamp and registry windows an hour later each evening tends to not only accommodate the public, but also to increase the receipts of the office.

Truss Troubles. know a whole lot about "trus troubles" and comfortable fits. You do, too, if you wear one that doesn't fit. We know we are successful in getting comfortable ones on our patrons. MISS BEACH MODEL FOR COIN Figure is to Adorn the Nev British Two-Shilling

Piece. Copyright, 1904, by Press Publishing Co.) LONDON, March 20 .- (New York World Cablegram-Special Telegram.)-Susan Evclyn Hicks-Beach, the statuesque daughter of Sir Michael Hicks-Beach, lately chancellor of the exchequer, was the model of the figure of Britannia which is to adorn the face of the new British coin, a florin or two shilling piece, worth about 50 cents in American money. The original drawing and carrier windows will be open from 11:20 of Miss Susan-much larger of course than the figure on the coin-is now one of the most treasured adornments of the family

Chamberlain's Cough Remedy Is the best medicine in the world for bad colds It relieves the lungs, opens the se cretions, aids expectoration and effects a prompt and permanent cure. There is no danger in giving it to children, as it con tains nothing injurious. When you have a cold give it a trial and you are certain to

be more than pleased with the result. Holt Has Troubles.

John Holt, colored, residing at \$16 North Fifteenth street, went to the police station last night with a tale of woe for the deak sergeant and a badly cut head for the surgeons. "It's dem niggers, Will Brown and John Johnson dat dun it," he said, in explanation of the cut on the head. "Dey bofe rooms at my place and didn't done pay no rent, officer. I sex to dem, 'Clar out of dis place,' and dey clared out. But dey comes back agin and busts my door an jumps onter me, officer, just as I wus a-gettin inter my bed. It ain't no way to do dat sort of ting an' I wants em' rested." Unfortunately for the desires of Holt the police were unable to apprehend the men last night.

Byrne's Cheap Cargo.

A number of the police force are much interested in J. H. Byrne, residing at the St. James hotel, and who was arrested last night for being drunk. When taken to the police station Byrne carried a load that would cast envy into the soul of Bacchus. He was asked how much money it required to be able to get into that state. With hiccoughs and thickly uttered words he said he did not know, but that he had \$15 when he took his first drink. When his pockets were gone through \$1.35 were found, a fact that made Conductor Vanous do some calculations on paper.

"A dollar and a nickel," said Vanous thoughtfully, "some fellows have all the luck."
