Wheat Shows Some Dis orition to Rally After the Cotton Papic.

SULLY STILL WIELDS SOME INFLUENCE

Conditions Now Regarded Better Than Before the Break, but the Pit Continues to Guess Some.

Wheat was getting together this morning from the sympathetic break are to the cotton panic. Sunly was known to be more or less interested in grain, and unleage opened this morning rather wildly, as brokers that not know just what to expect. May had an opening spread of \$\frac{1}{2}\$ point and new July \$\frac{1}{2}\$. The effect, however, was not as much as had been resired, and the talent now considers that wheat is in a more healthy condition now than before the break. Omaha longh refuse to part with their lines in May and July, July was bid up from \$2\frac{1}{2}\$c to \$3\frac{1}{2}\$, and both May and July have asvanced for three days in the face of the Chicago weakness. July have anyanced for three days in the face of the Chicago weakness.

Corn drew some strength from the disapproval of the proposed change making No. 3 corn contract. Omaha May opened at 44%c, 4a under the close of Friday, and after reaching 40c was bid up to 4ac. Chicago opened with a spread of 3c and ranged from bibs. I 52%c. Oats opened with more strength than for several cays.

The range in prices of Omaha grain for future delivery and the close Friday and today were as follows:

Open. High. Low. Today. Fri'y May 88% 88% 83% July 82% 83 82% 5816 93 May 44% 40 44% 46 May 28% 88 Local Cash Grain Market.

The spot wheat situation was not par-ticularly good, although some changed hands by sample. Corn in one or two in-stances soid at an advance over Friday of \$5 cent, and oats were rather weak at Fri-day's figures. Receipts of wheat were 4 cars in and 11 cars out; one week ago, 8 and \$2 cars. all the week and such kinds can safely be quoted steady for the week. Canners have also shown very little change. Good heavy cows and medium grades of all weights are generally 10@15c lower than at the close of last week. Canners and cutters are selling largely from \$2.00 to \$2.40, fair to good from \$2.50 to \$3.75, with something fancy in the cow or heifer line a little higher than that.

The bull market has been dull all the

fair to good from \$3.25 to \$3.75, with something fancy in the cow or heifer line a little higher than that.

The built market has been duil all the week. Bologna buils have not been hard to dispose of at prices ranging from \$2.50 to \$2.75. Big fat buils have been very slow sale at from \$2.85 to \$3.25, or, in other words, packers do not want to pay much more for good to choice fat buils than they do for the bologna grades. It takes something fancy to bring \$3.25. Occasionally a sale will be quoted as high as \$3.50, or even \$2.50, but that is usually a buil that was sold in with a load of steers and weighed separately. Veal calves have been in good demand all the week at unchanged prices. They sell largely from \$4.50 to \$5.50, with an occasional sale at \$5.75.

The stocker and feeder market was active and higher the first of the week, but closed duil and lower, as the country failed to buy the oattle at the higher prices asked. The decline amounts to fully a quarter and in a great many cases the loss is even greater than that. Good to choice cattle are selling largely from \$8.00 to \$6.00, fair to good from \$3.40 down.

HOGS—There was a fair run of hogs here this morning, which makes the supply for the week a little in excess of both last week and the same week of last year. As a result of these liberal runs the tendoncy of the market has been downward most all the week, and with today's decline the average cost goes below \$5.00 for the first time in several weeks. The net loss for the week amounts to 15 pp.

Unfavorable reports were received this morning from other points, and as a result packers continued their bearish sactice at this market also. The market opened extremely slow and \$5000 tower than yeaterday's general market. Trading, though, was so slow that the morning was well advanced before many hops crossed the scales. It is to be noticed that hops welght ing from 200 to 225 pounds are selling to much better advantage than they were a short time ago, the tendency being for them to come closer to the heav

SHEEP—There were no fresh arrivals this morning, but for the week receipts show a slight increase, both over last week and the corresponding week of last year. The demand for sheep, though, has been fully equal to the supply and an active and strong market has been experienced most of the time. Ewes and wethers still seem to be the most popular and the better grades can be quoted right around a quarter higher, with commoner kinds 10915c higher, heavy yearlings are also about ife higher, and in extreme cases perhaps a quarter higher. Light weight yearlings and lambs, however, have been none too brisk and cannot be quoted any more than standy. The quality of the lambs coming

to this market, though, has not been very good, which in a large measure accounts for the limited demand, but still the prices paid here, considering quality, are in line with those paid at other points.

There have been very few feeders coming forward, though occasionally a thin bunch of lambs is offered that sell to feeders for more money than the killers will give.

Quotations for corn-fed stock: Choice western lambs, \$5.0076.5; fair to good lambs, \$5.0076.5; good to choice Mexican rearlings, \$4.5575.0; good to choice western yearlings, \$4.5575.0; good to choice western, \$4.5594.50; fair to good wethers, \$4.504.50; fair to good to choice western, \$4.5594.50; good to choice western, \$2.5593.75. Real estate men unite in the opinion that maha has not enough modern cottages for rent. The expression of The Bee of some weeks ago that this field for investment is most attractive is now being echoed by all. Tenants for soven and eightroom modern cottages are more plentiful than the cottages, and the demand is growing rather than decreasing. Mr. George G. There is ground sultable, and a demand for, a dozen such blocks between Eighteenth and Twenty-sixth from Dodge to Howard. The construction in the next few years of even half that number will force business up to Twenty-fourth at Perhaps it is the beginning of the fulfillment of a prophecy made some years ago by a shrewd real estate investor that the younger men then in active business would, many of them, live to see Omaha develop and grow until Twentyfourth street would be the leading north and south business street as Sixteenth

street was then." A. P. Tukey of the firm of A. P. Tukey & fon says that the conditions of the real estate market in Omaha today reminds him very forcibly of the situation along about 1882 and 1883. He says that there is quite a similarity in the two situations. Along about that time houses became scarce, rents advanced slightly all over the city and there were not sufficient houses to supply the demand. It is much the same today. Omaha is outgrowing present living accommodations, and we have reached the stage in its development in which we shall see a large building sea son for the next year or two. Those who were here in the '80s will recall that property gradually advanced, people bought for investment and improvement. Property mand for three or four years until about the middle of 1887. Mr. Tukey predicts that Omaha will repeat the same process of development for the coming three or four years. We are fairly well entered upon it now and the demand for property is about all we can reasonably expect. The NEW YORK. distinguished visitor a royal reception. While Premier Coumbs May He Undone it is Expected that Min-Inter Deleasse Will Be Betnined.

> PARIS, March 20.-The situation of Premier Combes' ministry is gradually becoming precarious as a result of its recent parliamentary reverses. It is not considered that any immediate crisis will occur, but even the best informed government quarters describe the ministry as gradually crumbling away. Some of the recent majorities have been below the traditional twenty, which is the limit of safety.

The gradual sapping of M. strength is not due to the pending law suppressing all forms of congregational teaching, as his majorities have been steadily maintained on that question, but the difficulties are mainly due to socialist measures for kingmen's pensions and employment agencies. It is said be will be able to pass the law of congregations about Easter, and with this principal work accomplished it is not expected that he will wish to remain in

The names of Miller and Etienne are the most often mentioned in connection with the possible reorganization of the ministry. There is little doubt that the foreign mints ter, Delcasse, will remain, as he is considered to be the strong man of the present ministry, and his recent treaty achievements are regarded as placing him among the first statesmen of contemporary France

Caustic Criticism of French Policy Will Change President Loubet's Plans While at Rome.

PARIS, March 30 .- The pope's caustic criticism of French policy, in the course of his address to the cardinals yesterday, is receiving serious attention in the highest quarters here. It was first thought that the unofficial reports of the pope's utterances might be overstated, but the official version fully bears out the gravity of his remarks.

They related chiefly to past and prospective laws for the suppression of teaching by the religious orders. The pope charac-terized some of the steps as contrary to liberty and civilization, and he also criticized the arraignment of three French cardinals before the council of state for writing letters to President Loubet against the proposed extension of 'aw.

The remarks of the pope give additional certainty that M. Loubet will not make a call at the Vatican during his coming visit to Rome. The plans for the presidential trip do not include such a visit A prominent personage says President Loubet will go to Rome more like Charlemagne, as a representative of authority instead of dependence. The visit will also be notable in breaking the long standing custom that the visit of the ruler of Catholic country to Rome required a visit to the Vatican.

The tension between France and the Vatican promises to be offset by a strengthening of the bonds between France and Italy, particularly concerning thele Mediterranean interests. The visit will follow the conclusion of the Franco-Italian arbitration treaty, which is another link in the international understanding which France recently has been establishing

HIGH SCHOOL NOTES.

The high school students were dismissed usual on account of the senior contest, which opened at 1:30 Friday afterneon. Before the doors were opened the high school orchestra entertained the crowd fer some time in the hall. Each number was received with enthusiastic applause. It was found necessary to send half of the crowd to the study hall on the next floor and render the same program there. So it happened the same program there. found necessary to send half of the crowd to the study hall on the next floor and render the same program there. So it happened that while part I of the program was being rendered in one room, part II was being presented in another. As the purpose of the program was to raise funds in order to present the high school with some gift it was thought by the senior class that by holding a contest more money would be made, as each side would try to sell the most tickets. The class was therefore divided into two parts, the green and the gold. Beulah Buckley and Tom Alien were chosen leaders of the former side and Grace Conant and Murray French captains of the latter. It is needless to say that the very best talent of the senior class was displayed in this pregram, and it was pronounced by all the very best ever given at the Omaha High school.

The program rendered was as follows:
