OFFICERS FOR ELECTION ARE NAMED

Estimate of City Expenses for Coming Year Show a Small Increase Over that Which Has Closed.

The city council last night passed the appropriation ordinance for the ensuing year, after making two changes in the amounts decided upon by the committee of the whole. The appropriation for the fire department was increased to \$18,250 and that for the streets and alleys allowed last year.

The increase for the fire department was brought about by reason of the passage of an amendment to the ordinance, raising the salaries of the chief of the department from \$75 to \$90 a month and that of the firemen from \$40 to \$45 a month. This amendment was introduced by Attorney D. E. Stuart, who it was assumed was acting for the members of the department, although he declined to say so.

Aldermen Casper and Fleming voted against the ordinance. As introduced the ordinance called for an increase in the chief's salary of \$150 a month, but this was scaled down to \$75 before passage.

The Walter Sign company, which has been erecting a number of high billboards throughout the city, presented a bond which the council refused to approve and the city attorney was instructed to draft a new ordinance governing this matter.

Estimate of the City Expenses. Estimating the revenue from the tax levy for the general fund and other sources at \$75,000 for the ensuing fiscal year, the committee of the whole of the city council yesterday afternoon fixed the appropriations for the maintenance of the several municipal departments for the next twelve months at \$72,850. Last year the appropriations amounted to \$67,500, and the receipts exceeded this, so that there will be on March 1 nearly \$5,000 of a balance to carry forward for the next fiscal year beginning April 1. This, with the estimated revenue of \$70,000, makes the \$75,000 which the committee figured would be received into the general fund during the next twelve months.

One reason for the increase in the appropriations for 1904 is caused by the \$8,000 for the new engine house and equipment to be established in the southern part of the city.

The appropriations for 1904 as decided upon by the committee and those for 1903 are as follows:

Table with 2 columns: Item, 1904, 1903. Salaries, executive dept., \$10,350, \$10,350. Police and marshal's dept., \$5,000, \$4,500. Streets and alleys, \$2,000, \$2,000. Fire department, \$17,000, \$15,500. Fire and police telegraph, \$250, \$250. Engineer's department, \$1,000, \$550. Printing and supplies, \$1,000, \$1,000. City painting, \$500, \$500. Elections, \$500, \$500. Deficiency in water fund, \$5,000, \$3,000. New engine house, \$8,000, \$0. Total appropriations, \$72,850, \$67,500.

QUEER TIEUP OF LOBBYISTS

Liquor Dealers and Temperance Advocates Get Together on Legislation.

BANKS TO PAY INTEREST ON PUBLIC MONEY

Bill to Create a Board of Managers for All State Educational Institutions Growing in Favor with Legislators.

(From a Staff Correspondent.)

DES MOINES, March 22.—(Special.)—A remarkable agreement has been entered into among the lobbyists of the legislature affecting a number of bills that have been causing the legislators much annoyance. One of the most persistent lobbyists is that in favor of the state constabulary or state marshal bill. This has been led by A. C. Rankin of Chicago, who organized the state to further the movement for state marshals to enforce the liquor laws. Under this bill, which is in the hands of a house committee, the state is to be divided into a number of districts and the governor will appoint marshals in each, whose special duty it shall be to prosecute violators of the liquor laws. This has been, of course, bitterly fought by the saloonmen of the state and liquor manufacturers. Last week the legislative committee of the Iowa Retail Liquor Dealers association came to Des Moines to push certain bills before the legislature that are interested in. One of the bills relates to an extension of the time when saloons may remain open, so that they will not have to close until 11 instead of at 10 p. m. They also desire to keep open on election days and certain holidays, notably on a special order. Labor day and Washington's birthday. It is now widely reported that the liquor dealers' legislative committee and the lobby for the Rankin state marshal bill have come to an understanding and that the liquor men say they will be satisfied to allow the Rankin bill to become a law if the temperance people will consent to the modification of the liquor laws as indicated in their bills. It is expected the committee will act on this assumption early in the present week and report favorably on all the bills. But even if this is done it is uncertain whether the bills can get through.

The bill to provide for limiting the life of a petition of consent to sell liquor, so that after three years 25 per cent of the voters may by petition call for a new petition will come up in the senate tomorrow as a special order. An effort is being made today to secure pledges from a sufficient number of the republican senators to join with the democrats to defeat the measure, and with good prospect of success.

Interest on State Money. A bill was introduced by Clay to provide for reducing the number of bills required on a petition of consent in towns of 2,500 from 80 per cent to a majority. The house voted down a bill to increase the compensation for members of the board of supervisors.

The bill to require banks to pay interest on deposits of the state was passed in the house and is now in the senate. The bill is the Lewis bill which had passed the senate. It authorizes the executive council to enter into an agreement on the amount of the per cent.

For Board of Managers. The board of managers bill is all ready. The selection of trustees and regents last week in caucus may be of no avail, for the bill to which it is planned they should be elected may be abolished before the legislature elects the new members. The bill is said to be all ready. It provides for three members and they will have an office in the state capital and have full and complete control of the three state colleges. It is found as the members of the legislature canvass the matter that a great many of the members of the boards favor this plan and as the matter is more discussed they are throwing off the reserve and coming out in the open for the measure, as one for the college of the state and the good of all the colleges. A strong point in favor of the one-board plan is being made because of a belief which is prevalent that there is much duplication of work in the three state educational institutions, that the normal school is giving collegiate work, that the university is dabbling too deep in the sciences and that the state college bears down too heavily on the classical courses. The appropriations have been held up awaiting crystallization of sentiment in regard to the board of managers, and this also has had the effect of holding off the millage tax propositions.

Finances of the Institutions. The Board of Control is preparing a financial statement for the legislature, such as that called for by resolution, which will show the condition of all the funds up to March 1. The monthly balance sheet and statement, which the board secures and files every month, shows that at that time there was to the credit of the institutions in the special funds a total of \$7,969.92. The report will show that much of this represents contracts partially completed or work

not yet contracted for, or similar conditions. The support fund balances aggregate \$6,917.23, which represents the amount on hand in various funds for the support of institutions, but the balances fall low at this time of year because of the increased expenses incident to winter. The statement March 1 shows the following as to the employes, inmates and balances at the several state institutions:

Table with 3 columns: Institution, Em. Inmates, Balances. Anamosa, 72, 409, \$ 20,513.23. Cherokee, 12, 111, 1,013.00. Clarinda, 123, 931, 12,118.83. Council Bluffs, 54, 246, 8,738.67. Davenport, 77, 823, 11,951.47. Eldora, 45, 211, 8,804.11. Fort Madison, 88, 475, 62,288.91. Marshalltown, 119, 347, 18,114.24. Independence, 138, 975, 16,807.72. Mount Pleasant, 109, 812, 4,873.71. Mitchellville, 30, 209, 8,658.28. Mount Pleasant, 134, 929, 15,108.74. Knoxville, 40, 180, 7,282.29. Knoxville, 40, 180, 2,602.58. Totals, 1,211, 7,774, \$175,066.92.

There are in addition to the above employes twenty-five at the inmates at Eldora employes, sixty-four at Glenwood and 108 of the old soldiers at the Soldiers' Home.

Dies of Broken Heart. Mrs. Sarah Graves, mother of Charles W. Graves, under indictment charged with the murder of his wife, died at Mercy hospital last night of a broken heart. Mrs. Graves is past 70. She became seriously ill upon learning of her son's misfortune and hovered between life and death for weeks. Grief together with old age infirmities was too much for her and in a moment of peace and quiet her troubled soul took its flight. Charles W. Graves was arrested in December, charged with murdering his wife and burning her body. The tragedy is supposed to have been enacted in the home of Mrs. Graves, in East Des Moines. Graves reported the finding of his wife's body. His stories led to an investigation and subsequent arrest and indictment. Graves is under bonds and will therefore be permitted to attend the funeral of his mother.
