ANOTHER OF MYSTERY FIRES

O'd Krug Malting House Partially Burned Last Night-

POLICE PURSUING PROBABLE PYROMANIAC

Multiplietty of Blazes in Neighborhood Confirms Belief that Fire Crank is at Work Down There.

The old Krug malting house at Eleventh and Jackson street caught fire at 6:30 o'clock last night and is the latest of the number of fires which have so mysteriously originated in that district recently. It is hard to tell even where the fire started. The building is a three-story structure and oy which thrills each word of the following communication from Mrs. John P. Solan, 51 Soley St., Charleston, Mass. She age of her son, Roy: with the exception of the first floor, where building, and for a time it looked as if the fire would prove a serious one. But it was soon got under control and did no damage except to the woodwork around the cupola and to a wooden chute which runs from the first floor to the cupola.

Mr. Albert Krug was at the fire and said he could not think how the fire started. The doors and windows in the building are ecurely fastened," he said, "and there is othing in the upper floors. There are no electrical wires in the whole building."
Assistant Chief Wyndi.am said he could

ot account for the blaze. "The fire was confined to the cupola and the wooden chute," he said, "but whether the fire originated in the cupola and an ember dropped down the chute and set that on fire, or whether the fire started at the bottom of the chute and worked its way to the cupola, I cannot tell.'

As this building is in the district where a number of fires have started in a mysterious manner, the police put it down to the work of an incendiary. Chief Donahue said he thought the whole trouble is being caused by a fire crank and not the work of

dischlevous boys. "We have two of our men working on the ase," he said, "and we believe we are on the right truck of the person."

A large crowd gathered on the viaduct to watch the blaze and pressed up against the railing to get a better view. The railing is not a strong one and it was only by the prompt action of Sergeant Dempsey, who dent did not take place.

Dr. J. B. McMichael, president of Monmouth College, Illinois, who occupied the pulpit at the United Presbyterian church last Sunday, was tendered an informal reception at the home of Rev. W. F. Johnson, 1919 Spencer street, last night. The guests were composed entirely of graduates of the Monmouth college and numbered about forty-five. There is a plan on foot to try and get up an organization composed of the alumni of the college. An alumni association was formed among the Monmouth graduates present. William Baird was elected president; Dr. S. K. Spalding, vice president; W. F. Johnson, secretary, and W. T. Graham, treasurer.

IMPEACHES FEDERAL JUDGE

House Committee on Judiciary Votes

DETAILS OF CHARGES ARE WITHHELD

WASHINGTON, March ZI.-The house ommittee on judiciary today voted to impeach Charles Swayne, federal judge of the district of Florida. The committee reached this conclusion at a session lasting from o'clock until 6. The vote and the details of the charges which will form the ground of impeachment the committee agreed to withhold until the report on the case has been completed for presentation to the This report is to be drawn by Represent

ative Palmer of Pennsylvania, chairman of the subcommittee which took the testi-mony in the case. In this subcommittee Messrs. Palmer and Clayton of Alabama reported to the full committee in favor of impeachment, while representative Gillette

of California reported against it. Mr. Paimer's report will be presented this week. If the house votes against Judge Swayne tomorrow two of its members will be detailed to inform the senate, before which the case must be tried. Judge Swayne's case would be conducted by six manager who would be members of the house, elected by that body by ballot.

Judge Swayne, after the case has been resented to the senate by these managers, will be given an opportunity to present his side of the case. While the committee has voted to give out no details of the case at present, it is known that the charges on which testimony was taken include those of being absent from his circult, being a nonresident of his district, imprisoning a lawyer in a contempt pro eeding, imprisoning the son of a litigant, also for contempt of court and refusing to hear a certain witness in a case before him, alleging that he would not believe the

witness under oath. The last impeachment proceedings were those of Andrew Johnson. Only three federal judges have been impeached. These were Judge Pickering of New Hampshire. who was impeached for giving up the bark Eliza to her owner without taking proper bond, after the bark had been seized for smuggling, being drunk and using profane

language on the bench. Judge Chase of Pennsylvania was im peached for refusing to allow a lawyer to address the court or the jury on a ques-tion of law which he already had decided Judge Peck of Missouri was the last judge impeached. He was charged with improperly striking the name of a lawyer from a roll of attorneys for contempt James Buchanan was one of the managers on the part of the house in this trial, The proceedings against Judge Swayne if carried to the senate, undoubtedly will delay for several weeks the adjournment of the present session of congress. If the senate decides against Judge Swayne the penalty attached to the decision is the loss of his judgeship.

Uphold Texas Option Law. In an opinion by Justice Holmes the United States supreme court today upheld the local option law of the state of Texas. The case was that of Granville Rippey against the state of Texas. Rippey was convicted of selling liquor contrary to the law, and the state court of criminal appeals affirmed the verdict. Justice Holmes said that inasmuch as the

state had absolute control of the liquor traffic within its borders Rippey had no case under the federal constitution. Nebraska Claim Irregular. in an opinion by Justice Brown today affirmed the finding of the court of claims

in the case of Charles Gagnon against the United States and the Sloux and Cheyenne Indians, an Indian depredation case involving the question as to whether a common law court has jurisdiction to enter a fudgment of naturalization in a case in which it is alleged that naturalization papers had been granted thirty-three years ago, but of which no record remained. The point was decided in the Gagnon, claiming to have lost his naturalization papers, applied to the district court in Richardson county, Nebraska, where he claimed to have been naturalized in 1863, to declare him a naturalized citizen. This the court did, notwithstanding no record of the former proceeding was found. The court held this process to be irregular and refused

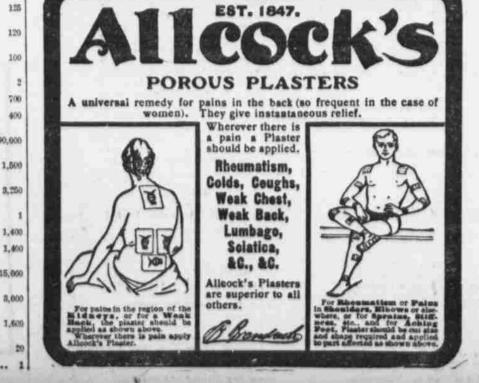

to allow the claim. Taft Talks of Philippines. Secretary Taft was heard by the house committee on merchant marine and fisheries today on pending bills affecting commerce between the Philippines and the United States,

In a private letter received at the Navy department today from an officer on board the Kearsarge, the following remarkable record made by that battleship in target practice, just completed at Pensacola, is given: One thirteen-inch gun made six hits out of seven shots in five minutes and twenty seconds. An eight-inch gun made ten hits out of ten shots in five minutes and twenty seconds, and a five-inch gun made eighteen hits out of eighteen shots in two minutes. At the Navy department this record was declared to be the best ever made by an American warship, and as far as the officials know it has not been equalled in any foreign navy.
