Decision on Terminal Live Stock Charge Brings Cheer to Nebraska. CHARLES A. MALLORY TALKS OF FIGHT

One of Leaders in This Long Draws Out Controversy in Which Bailroads Finally Have Lost.

The final decision of the Interstate Com erce commission in the long-drawn-out itigation between the live stock men and he railways over the terminal charge nade by the latter in Chicago of \$2 a car neans the return of a considerable sum paid out in this way by cattle shippers in Nebraska. June 1, 1894, the rallways bringing live stock into Chicago made a terminal harge of \$2 which had not been made hefore, and the commission now decides that \$1 of this charge is illegal and must be refunded in cases where proof of damages is nade, Charles A, Mallory, manager of Greer, Mills & Co., who is now an Omaha

esident, was prominent in this fight against the rallways. 'I was delighted," said Mr. Mallory, when I saw the account of the decision It is a big victory for the live stock men over the railroads. The terminal charge was made in 1894 and the Chicago Live Stock exchange through its railroad committee, of which I was chairman for thir-

teen years, and the Cattle Raisers' asso ciation of Texas, together began at once to fight this addition to freight rates. Spent Great Deal of Money.

"We must have spent \$50,000 in this liftgation and we were laughed at by must people for wasting our time in fighting

the roads. The western, castern and cen tral associations were against us, and remember one time when they had seven teen lawyers in court. But the railroads had no legal, moral or other right to impose this tax, and we never let up. The first time we carried it to the supremcourt we won on every point but one, and the case was remanded back on a technicality to the commission. This concerned a reduction of freight in certain territory. "When we took the matter up again we made such a strong showing that repara tion was granted. They also held that the

statute of limitations did not apply. The callroads held that the delivery of stock included the through rate. From 1865 to 1896 no terminal charge was made, but just before the latter year the railroads had sold out their interests in the stock yards and were feeling that they were not getmight get. So they Legan charging \$2 a car. T. W. Tomliuson, formerly of Sloux City and railroad representative of the Chicago exchange, had very much to do
