> INDIAN APPROPRIATION BILL PASSES

Mr. Gibson Favors Repeal of Land Laws in Order to Hold the Land for Actual Settlers.

WASHINGTON, March 24.-The senate today passed the Indian appropriation bill. After the routine features of the bill had been disposed of Mr. Bacon again raised the question of civil service appointments, basing his remarks upon the statement made by Mr. Hoar yesterday, that senators from states of political faith different from that of the president should be consulted in the matter of appointments to office. Mr. Bacon contended that the southern states were practically disfranchised under a republican administration and said that this condition of affairs was contrary to the intention of the founders of the government.

Early in the day Mr. Gibson spoke in support of his bill for the repeal of the desert land, the timber and stone laws and of the commutation clause of the homestead law.

He contended that the remaining agricultural land should be held exclusively for actual settlers, and that the timber belonging to the nation should be properly cared for, and, as it is required, sold at its true value. This reform can only be accomplished, he said, by an absolute repeal of the desert land act, of the commutation clause of the homestead land act and of the timber and stone act.

Calls Attention to Frauds. Mr. Gibson argued that frauds are made possible by all these laws. He quoted the land decision of the Interior department as showing that in 1877 as much as 34,968 acres of land had been entered in California under the desert land law for the benefit of J. B. Haggin, and, he added, "I am informed that desert land entries for the benefit of Mr. Haggin and his associates exceeded 200,000 acres." Another instance was given in which 48,000 acres of land was entered in Wyoming by residents of eastern states a land company without having ever been

Senator Gibson denied that the repeal of these laws would seriously cripple the irrigation fund, slace it now aggregates \$30,000,000, including land filings to date, and will be further increased by sales of coal lands, timber and so forth.

The bill was allowed to lie on the table until Tuesday, April 5, in order to permit further discussion.

The following blils were passed: Authorizing the annual collection of sta-istics regarding births and deaths in registration areas.

Authorizing the state of South Dakota to select school and indemnity lands in the ceded portion of the great Sloux reserva-

Consideration of the Indian appropriation bill was then resumed. At the instance of Mr. Mitchell, the bill was amended so as to permit the attendance of Alaskan Indians at the Indian school in Salem, Ore., and to pay for their transportation to and from

Santee Sioux.

Referring to the court of claims the claim of J. Hale Sypher for services as attorney to the Choctaw Indians.

Mr. Culbertson made a point of order against the appropriation of \$25,000 to send Indians to the St. Louis exposition, saying that the government already had done enough for the exposition. The point was

Mr. Bacon, referring to Mr. Hoar's suggestion yesterday, that appointments to service with the Panama commission could be made on the recommendation of senators and members of congress, and that the president should consult democratic senstors in democratic states about appointments, Mr. Bacon characterized the utterance "as a most notable one." in condemnation of a system "which practically dis franchises one-third of the people of the United States in the matter of the administration of the federal laws in their midst."

Mr. Bacon was interrupted by many senators on the other side, who declared that were the president a democrat, senators and representatives from republican states would not be consulted regarding appointments.

When Mr. Bacon concluded the Indian appropriation bill was passed. The senate at 5:20 went into executive session and at 5:25 adjourned.

HOUSE KILLS TAHITI AMENDMENT.

Island Matt Carrying Appropriation Savagely Attacked. WASHINGTON, March 24.-Consideration

of the postoffice appropriation bill was resumed when the house met today. Mr. Robertson (Ind.) attacked the appropriation of \$45,000 for carrying the mails from San Francisco to the island of Tahiti and offered an amendment to strike it from the He referred to previous appropriations and said the item had been inserted by a "fine Italian hand undisclosed." No one knew of its birth, he said, which led him to believe "this appropriation had been sneaked through congress in a cowardly

The island of Tahiti, he stated, stood like pinhead in the Pacific. Mr. Oyerstreet, chairman of the postoffice committee, declared that the trade of that island and the United States buying annually \$400,000 worth of goods. Messrs. Cromer (Ind.) and Shirley (Ky.) supported the amendment. Mr. Livernash (Cal.) strongly opposed it, saying that the Oceanic Steamship company, a company most liberal in the em ployment of white laborers as against Chinese, should not be embarrassed in an attempt to enlarge its usefulness. The amendment, he said, was a blow at the white

sallors of the Pacific. The amendment was agreed to and the provision was stricken from the bill. Mr. Scott (Kan.) criticised the Postoffice department for its "pernicious policy of nishing stamped envelopes and newspaper wrappers to print the names of individuals, firms and corporations on. At present, he

said, the government was a competitor of the local printer all over the country. He offered an amendment to correct what he

ermed the abuse. The amendment was opposed by Mr. Lawrence (Mess.). Mr. Overstreet also opposed the amendment because he said it would not affect the price paid to contractors whether the return card was printed or not.

A point of order against the amendment was sustained. With the view to securing a complete investigation of the Postoffice department. Mr. Williams of Mississippl, the minority leader, offered an amendment to the bill providing for the appointment of a jdint select committee of eight, five members and three senators, to "exercise-all functions necessary to complete investigation of

all frauds and irregularities alleged to exist in said department. Mr. Overstreet promptly made the point of order that the amendment was not germane and was new legislation, which the

chair sustained. Mr. Williams appealed to Mr. Overstreet to withdraw his point of order, which Mr.

Overstreet refused to do. Thereupon Mr. Williams appealed from the decision of the chair, which brought from Mr. Overstreet an appeal to the house to uphold the chair. To do otherwise, he said, would be a reflection on the chair and dignity of the house.

Mr. Grosvenor of Ohio and Mr. Payne of New York spoke in favor of the chair's ruling. An unsuccessful attempt was made by Measrs, Livernash of California and Sulzer

of New York to increase the appropriation for pay of letter carriers from \$20,250,200 to \$118,250,000. Mr. Lever of South Carolina criticized the department for its discrimination and

palpable favoritism against the southern rural free delivery routes. Mr. Davidson of Wisconsin entered a vigorous defense of Postmaster General Payne and General Bristow, denying that they were to blame for the recent Postoffice depratment report. The chair sustained a point of order by

Mr. Mann of Illinois against the prohibition in the bill that rural carriers after July 1, 1904, shall not solicit business or receive orders of any kind during their hours of employment nor carry any merchandise for

Mr. Overstreet declared that he would apply to the committee on rules to bring in a rule tomorrow allowing the subject to be further discussed. He then made a point of order which was sustained, against who immediately turned the land over to that part of the same paragraph providing receive a sylary not exceeding \$720 per at Capri. annum. This leaves the salaries at \$600 per year as now.

Various members sought to amend the remainder of the paragraph relating to the signing himself "your affectionate friend appropriation of \$20,180,000 for pay of rural and loyal ally." carriers, the proposition all going out on points of order. The paragraph in the bill appropriating

\$5,000 for the galary of purchasing agent of the postoffice, thus consolidating the several supply divisions of the department, went out on a point of order. The bill was laid aside and the house

agreed to postpone until April 9 the memorial exercises which were to have been held on Sunday next in memory of the late Representatives Foerder and Burke. At 5:25 p. m. the house adjourned.

Herr Duffel, a local magistrate of Windhoek, reporting under date of March 8,

So far as the causes are concerned. I believe I am not mistaken in attributing them chiefly to the reckless methods of wandering traders in collecting debts in Herreroland. This is proved by the statements by natives immediately before the outbreak and by whites intimately acquainted with the circumstances. These traders proceed with reckless injustice against their customers, either taking their cattle in payment of debts at too low a valuation, or else seizing animals which did not belong to the debtors. It is reported that traders paimed themselves off among the Herreros as government officials and threatened the natives with punishment if their debts were not paid. The timid natives submitted without lodging complaints with the government. The hatred negainst the traders thus gathered force and was transferred to all Germans.

PEARSE GETS THE GOLD WATCH Tells Teachers How Surprised and Delighted He is to Receive the Gift.

Teachers from the public schools filled the assembly room of the Board of Education in almost their total strength yesterday afternoon at the last general meeting of the year. The feature of the occasion was the presentation of the gold watch to Superintendent Pearse, who leaves in a week to become superintendent of the Milwaukee schools. The watch was bought by subscriptions from some of the teachers. Principal Waterhouse presided and introduced President Maynard of the Board of Education, who read a speech and handed Mr. Pearse the watch. He introduced a modernized bit of Long-

fellow, reading: Lives of great men all remind us
We may be as great as they,
And departing, leave behind us
All we cannot take away.
This caused some laughter and did not

seem to be quite understood. "We give you this token," continued the speaker, "to remind you that in this fair city of the west there are true friends who bear to the imperial yacht Hohenzollern, which you Godspeed in the fields of your new endeavor.'

> The teachers applauded, while Superintendent Pearse gazed at his new watch. He then thanked them, after disciaiming the right to "be taken completely by surprise." "I feel," said he, "standing in the pres

ence of the teaching corps, those who make the schools, that I am standing in the presence of my friends. I have been here for almost nine, years.
