Allege Clerk is Short.

Edward Waugh, at one time a clerk in the office of County Treasurer McLaughlin, is under arrest in Thebes, IlL, and will be brought back to Lincoln, charged with embesziing \$3,000 from the county. Waugh is accused of issuing receipts for money and failing to keep on file in the treasurer's office duplicate receipts. By this means, it is alleged, he was able to collect a large amount of money of which there is no record in the office of the treasurer. Special Accountant Gilchrist of Omaha is at this time making an examination of the books, and it is said the shortage is a great deal more than was at first supposed. Waugh was arrested by Detective Malone, who has been on his trail for several months. He was at work for the American Bridge company. He is about 30 years old and married.

Grove, where it burned his barn, with the hay, grain and four horses machinery and harness belonging to Ethan Hayes, and came so near burning the house that the cellar door was on fire. George

Bourn also lost about 500 bushels of corn, one horse, seven hogs, his barn, blacksmith shop, harness, machinery, etc. A fire in Cedar Rapids was narrowly averted by the prompt action of the fire department. J. E. Cleveland was burning some trash in his yard when the wind sud-

denly raised, driving the fire into the garden and almost into his residence. Close Call for Loomis.

HOLDREGE, Neb., March 24 .- (Special felegram.)-It is still hard to find out definitely who the losers are in the fire yesterday. Not as many dwelling houses were burned as yesterday's report would indicate Several of the homes that were reported

as destroyed were saved by hard fighting and letting all the outbuildings go. A great number of barns and other outbuildings are destroyed, as well as much feed and stock. Today the wind veered around to the northwest and the fire was started toward comis, causing much apprehension. It ran three or four miles and got within one

fight fire and the women and children were hurried into the region swept by the fire yesterday. So much excitement and apprehension existed that it is hard to get the details and names of losers today. It is an absolutely pure distillation of malt, scientifically combined with medicinal ingredients of the highest quality. It acts directly upon the weakened, diseased or? gans and parts in a natural manner, kills the germs of disease, drives them out of the system, purifies and enriches the blood, improves the circulation, strengthens the heart's action and builds up and sustains the entire system.

It brings into action all the vital forces and enables one to get from food all the nourishment it contains. This is the reason Duffy's Pure Malt Whiskey is so suc-

medicine. This is a guarantee. CAUTION.-When you ask for Duffy's Pure Mali Whiskey be sure you get the genuine. Unscrupulous deal-ers, mindful of the excellence of this preparation, will try to sell you cheap imitations and malt whiskey sub-stitutes, which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and he sure you get it. It is the only absolutely pure Malt Whiskey which contains medicinal, health-giving qualities. Duffy's Pure Malt Whiskey is sold in scaled bottles only; never in flask or bulk. Look for the trade-mark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken. Two Medical Examinations.

The Board of Secretaries of the State Board of Health this morning decided to hold two examinations to test the ability of the young men to practice medicine, the first of which will occur on April 21 and 22 and the second on June 1 and 2. A resolution was adopted, however, specifying that next year only one examination would be held. Considerable feeling exists between the colleges of the state as to the date of these examinations, because it is the desire of each to have its graduates take the

examinations as soon as they come out of school. The first examination will occur shortly after the close of the Lincoln Medical college. The questions to be submitted were also agreed upon and they are said to be the hardest that could be found.

Receives Long Lost Property. FREMONT, Neb. March 24 - (Special.) Dr. George Haslam of this city received by express this morning a package containing 194 microscopic slides from the various portions of the anatomy of the frog, which had been lost for nearly twenty years. The slides were prepared by him at an English university while he was a student there and during his term as an instructor at the University of Zurich, Switzerland, and left at the latter place to be forwarded to the doctor in this country. They were sent first to England, then to Dublin,

Ireland, where the box remained for many years and was entirely forgotten by the person in whose costody it was. The party recently died and the box being found among his effects was forwarded to its destination, the plates being entirely uninjured. The doctor gave up the plates as lost about nineteen years ago.

How to Break Up a Cold.

Everyone knows the first symptoms of a old and the dangerous consequences which often arise from its neglect. A severe cold can be completely broken up in one or two days' time if prompt and proper treatment is given. The first action should be to relieve the lungs, which is best accomplished by the free use of Chamberlain's Cough Remedy. When this remedy is taken in double doses every hour on the first appearance of the cold it will counteract its effect and a complete cure soon follows. Deep-seated colds or coughs also yield readily when this medicine is used.
