# Paint Up! Paint Up!

Let this be the watchword for the house-owners of Omaha this spring. To do this with the greatest economy use Lowe Bros.' "High Standard" Paint, because it gives best results.

## WHY?

**Because it is a pure liquid paint not a "mixed paint"**

A "mixed paint" is made as cheaply as possible—for the purpose of selling to make the largest possible profit—and will do your house more harm than good. On the contrary a pure liquid paint—like Lowe Bros.' "High Standard"—made on honor to "give the best results", will preserve and protect your house, give the best satisfaction, save you money in the long run, and increase the sales and make money for Lowe Bros., because your next door neighbor will see what it does and use it NEXT time—in other words it works like an endless chain.

## WHAT IT COSTS

**One Gallon, \$1.60  
Five Gallons, \$7.75**

53 Colors to Choose From.

Now—one gallon of "High Standard" paint over a fair surface, using two coats, will cover about 350 square feet. Figure up how many square feet on the house by measuring around the house—multiply this by the height—then add about 20 per cent for edges, windows, doors, ornamental work, etc., divide the result by 350 and that will give the number of gallons you need. Then multiply by \$1.60 (the cost per gallon) and you can tell pretty nearly what it will cost for the paint.

We have a reputation to sustain throughout the country at large, and in Omaha where our goods have been sold and used with gratifying success for a long number of years.

We know that in "High Standard" liquid we have a paint which will best serve your purpose, which will afford you full satisfaction and which will save you money. Write or phone us (3425) and we will call and figure with you. Send for color cards, booklets or any information you want.

**The Right Paint for Every Purpose**

**Chester C. Clark, Mgr.**

Paint Department Meyer-Dillon Drug Company  
1416 Harney St. Phone 3425.

## IF YOU DON'T BELIEVE IT—ASK THEM

When Mr. Geo. H. Lee, the well known Omaha poultryman, was approached recently on the paint question, he said: "Don't worry—High Standard paint has been on my house for three years and the minute I am ready to paint again you will get my order."

Ed O. Hamilton, the contractor and builder, said: "To show you what I think of Lowe Bros.' 'High Standard,' I have used it on my own new residence, 41st and Davenport. Can you ask me for any higher recommendation?"

Frank J. Fitzgerald, manager of R. C. Peters & Co., said: "I recently have painted my residence, 1314 South 30th avenue, with Lowe Bros.' 'High Standard' and it looks better than any lead and oil job I ever saw."

Next week Albert Cahn, the shirt maker is going to have Lowe Bros.' "High Standard" put on his elegant residence, 2225 Farnam.
