TOKIO, Tuesday, March 29, p. m.—The special diet concluded its labors today, finally passing the series of war taxes for the measures proposed by the government. It will finally adjourn tomorrow.

Almost the entire program submitted by the cabinet was approved, although several changes were made. The amount to be raised annually by special taxation was reduced from \$24,000,000 to \$21,000,000. The government plans to make up the deficit thereby created in the estimates by cutting down the administrative expenses. Another change in the program was the refusal to sanction the creation of a salt monopoly.

An interesting feature of the financial legislation is the passage of an act authorizing the banks to issue savings prize debentures. The total issue of these debentures is limited to \$15,000,000 a year. The rate of interest and the amount of the prizes under a lottery drawing scheme are limited. The whole plan ends when the war is over. The government has the right to borrow the money realized by the sale of the savings prize debentures, but the management, sale and redemption of the debentures is entirely in the hands of the banks.
