CITY COUNCIL PROCEEDINGS

Vote Contract with Garbage Company for Term of Three Years.

WILL BUY METROPOLITAN FIRE ENGINE

Two Important Matters Settled by the Council and Another Opened Up by Plumbing Inspector Lynch's Report.

By a vote of 5 to 3 the members of the city council Tuesday voted for a contract with the City Garbage Company along the terms proposed by the concern several weeks ago, with the exception that the terms were cut from five years to three. "Any and all persons duly authorized by the city of Omaha" are to be accorded the privilege of using the dump at the foot of Jones street, which the McDonald, or City Garbage company, controls, on consideration of the city paying \$10 salary to three collectors each month, \$25 a month rent, \$2,000 a year for the collection and disposal of all dead animals and the right to haul, without further license, at the prevailing rates fixed by ordinance, garbage, ashes, manure, night soil and all other kinds of waste. It is to cost the city \$100 a year and the rates in effect for ten years are to be operative. Independent companies are not barred from competition.

In pursuance to a report from the committee on fire, water and police the five-year contract had been placed on file earlier in the evening. The garbage contract was reserved until the very last, and all the ordinances on third reading had been gotten out of the way.

Ralph Urges Action.

A communication from Health Commissioner Ralph pointed out the necessity for facilities for handling garbage and dead animals and recommended a contract with the City Garbage company for as short a time as could be secured. The commissioner declared that the McDonald company had done "good, satisfactory work" in the past, and declared that a competing bidder, James Whalen, had not. In some way the proposed contract was "tacked on" to the Councilman O'Brien tried to fight the contract, but he and President Zimman became involved in a parliamentary tangle which finally resulted in a direct vote on the proposition. The yeas were Back, Evans, Hoye, Huntington and Schroeder and the nays, Dyball, O'Brien and Zimman. Nicholson was absent, being out of the

city. Nothing except the signature of the mayor now stands between the contract and its complete authorization.

Will Buy Metropolitan Engine.

Despite the presence of E. A. Wilkinson, representing the Nott Fire Engine company of Minneapolis, and a new proposition that he made, the council voted to buy the "Metropolitan" engine manufactured by the American Fire Engine company of Cincinnati. The machine will cost \$3,000 on board cars, Cincinnati, and was the lowest priced engine for which bids were submitted in the regular way.

Mr. Wilkinson addressed the council, saying that he desired a competitive test with the other engine and that his people had been an engine expressly for Omaha which would be ready in two weeks. He offered to deposit \$1,000, to be paid the city in case his engine lost in a competitive test or was found deficient in any way under the representations made for it. The vote was 5 to 3 in favor of the resolution authorizing the purchase, however, and Wilkinson admitted himself defeated.

Time Out for the Firemen.

An ordinance was introduced requesting the Board of Fire and Police Commissioners to modify and change rules and regulations of the fire department pertaining to hours of the men off duty. Twenty-four hours each six days is demanded in two periods of eighteen and six hours, instead of twenty-four each nine days in shifts of six hours each, as is now the rule. This is to be done, according to the ordinance, which was introduced by Councilman Back, so that the firemen can properly enjoy the privileges of home and for their physical, mental and moral welfare. The ordinance was referred to a committee after being read the first and second times.

Another ordinance introduced, fathered by Councilman Back, although he declared he had placed his name on it unwittingly, makes it a misdemeanor to re-paper any room without first removing paper already on the walls and placing the walls in "sanitary condition."

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much so as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

Mother's Friend

Children's Caps

The stylish new effects for boys and children—in the newest shapes and shades that will be worn this spring—every pretty novelty in juvenile head-wear—specially priced at..... **49c, 75c, 98c**

change was worked so that the incumbent, W. F. Gurke, may draw \$100 instead of \$25 a month for his services and not disturb the serenity of the law.

Votes a Frame Building.

Mayor Moore voted an ordinance proposing to exempt lot 5, block 351, at the northeast corner of Seventeenth and Webster streets, from the fire limits. This had been asked so that John Collins might erect two frame dwellings there. The mayor found that the lot is five blocks south of the north fire limits and he ruled against the concession because it would set a bad precedent and further because it would conflict with existing ordinances.

Paving Specifications Approved.

Much to the surprise of the council the Board of Public Works reported favorably on the specifications for asphalt street repairs prepared by the city engineer. After the city attorney had looked them over the council approved the documents. The report of Assistant City Attorney Herdman advising that the 1902 specifications for new paving were still available, were placed on file and preliminary work taken toward the pavement of several streets for next year. Specifications from the majority members of the Board of Public Works were referred to the city attorney.

Plumbing Inspectors Report.

Plumbing Inspector Lynch submitted the following report, which, after some discussion, was laid over for the general committee meeting Monday afternoon, when all interested parties will be asked to appear and give their version of the controversy:

To the Honorable Mayor and City Council: I, the undersigned, plumber, who has had the honor to be called upon by you to inspect the plumbing of the following houses:

First, the bills as presented are in excess of the amount authorized by your honorable body.

Second, in my estimation the work could have been done within the \$50 limit per each house, had it been done through the proper officials, or had it been consulted in regard to same.

I have examined the bills and find that the profit on material charged is what might be termed handsome, or outrageous, as it ranges from 25 to 30 per cent profit on the cost of the material.

As to time charged for each house, I will state, as a practical plumber, who has had the work had been done as it should have been, the time would not have attracted beyond the time that I have averaged instead of eight to nine days each.

I will state further, that I have seen the work on several of the houses, and am willing to make the claim and make it good; that if this work had been placed in my hands I could save the City of Omaha from \$30 to \$50 on the work in my estimation. The proper way to have done would have been to place the resolutions in my hands, and I would either have asked for bids on the work or if such a man is appointed I believe him capable of handling such work to better advantage to the city than an official that has been elected or appointed to care for another class of work.

It has always been the case in the plumbing work that is ordered for the city that any one in charge of a certain department can order this work, and it has been a con-

nolly for his address, and after talking the matter of a waterline trough of Thirty-third street near Parker or Franklin, the club adjourned.

FARMER'S END OF BUSINESS

Subject Chiefly Discussed by Creamerymen—No Parade Nor Banquet, but Smoker.

Owing to the sudden illness of E. E. Bell of New York, who presided at Tuesday's session of the creamery men's convention, Charles Harding of the Hygeia Creamery company of Omaha was called to the chair.

The morning session was greeted with a largely increased attendance, there being nearly 300 present. The proceedings were opened with the usual Emper's "yeil," and then the convention got down to deliberate business. The general topic was the farmers' end of the creamery question. Many very interesting talks were given on the necessity of cleanliness, care of cream, care of cows and the dairy generally as being potent money-making factors to the farmer.

PROSPECT HILL IMPROVERS

Lively Evening Spent in Discussing a Number of Matters of Local Interest.

From the report of the street committee of the Prospect Hill Improvement club, as submitted last evening, the paving of Thirty-third street from Cumming to Hamilton streets seems to be an assured fact. Signatures have been secured for 1,800 feet and the balance of feet frontage will be obtained in a few days more.

WOMAN FINED FOR STEALING

Mrs. Minnie Oliver of South Omaha Pays for Shoplifting in Local Department Store.

Mrs. Minnie Oliver, Twelfth and Polk streets, South Omaha, arrested last Saturday afternoon at Hayden Bros.' store for shoplifting, has been fined \$15 and costs by Judge Berka in police court. The woman's daughter-in-law, Mrs. G. E. Oliver, arrested at the same time on a charge of stealing three rings at the same store, will have a further hearing Thursday morning in police court, her case having been continued.

Notification by the city electrician to the Omaha Electric Light and Power company that it must stand inspection fees, amounting to \$336.25, for a new 1,000 K-W generator installed about a year ago, has produced an ordinance in the council which seeks to limit the fees for motors and dynamos to \$10.

SCHEME TO DODGE THE FEES

Ordinance Beneficial to Electric Light Company Reaches the Council.

ANTICIPATES MICHAELSON'S ACTION

City Electrician Notifies Concern to Pay Over Three Hundred Dollars Fees on New Generator.

The ordinance, which was introduced Tuesday night, is a long one and goes over the scale of inspection fees for all kinds of electrical work. The only change, however, according to the electrician, is the insertion of a maximum of \$10 for dynamo and motor inspection and the release of the street railway. No charges for this kind of work over have been taxed against the traction line anyway, so this feature is not considered important.

WOMAN FINED FOR STEALING

Mrs. Minnie Oliver of South Omaha Pays for Shoplifting in Local Department Store.

Mrs. Minnie Oliver, Twelfth and Polk streets, South Omaha, arrested last Saturday afternoon at Hayden Bros.' store for shoplifting, has been fined \$15 and costs by Judge Berka in police court. The woman's daughter-in-law, Mrs. G. E. Oliver, arrested at the same time on a charge of stealing three rings at the same store, will have a further hearing Thursday morning in police court, her case having been continued.

There were numerous witnesses on both sides, many of Mrs. Oliver's neighbors and acquaintances appearing in her behalf, while a number of employees and representatives of the Hayden store were put on the stand to establish the theft of the goods. Detective Henry Eisefelder of South Omaha testified that Mrs. Oliver's son John told him at the time the Oliver home was searched that Mrs. Oliver "had been doing that thing for six months and that he had warned her to stop or she would get into trouble." When put on the stand Mrs. Oliver could not say positively whether he had said such a thing or not, nor what he might have meant if he had said it.

The Origin of all Sickness.

I Believe that Most Cases of Serious Illness Originate in the Stomach.

I have made up my mind to the above fact, after my many years of extensive practice and the hundreds of people I have cured of all kinds of maladies. Ninety times out of one hundred I can trace the origin of a patient's malady to a deranged condition of the stomach. This much having been determined upon it is easy to quickly restore the sufferer to good health. With this experience, I many years ago perfected my Dr. Kay's Renovator whose chief object is to tone up the stomach, induce the bowels to act naturally, purify the blood, and to invigorate the nerves. By its beneficial action upon these important functions of the body, it also drives disease from the kidney, the liver and the lungs, and thus by making the great life centers strong and healthy, it cures many painful and disagreeable symptoms which are absolutely free.

I earnestly wish that more sufferers would know the great remedy of mine, which is really a Godsend to suffering humanity. You will agree with me after giving it a fair trial.

If you are sick, do not delay; go to your nearest druggist and procure a package of my Renovator. This sells at 25 cts., 50 cts., and \$1.00 a package. If you cannot buy it, write me and I will send it to you on receipt of price.

I would recommend that if you do write me that you describe your case fully and let me know the symptoms of your trouble. Perhaps it may be necessary for me to advise you especially. I am always glad to do this. Sufferers everywhere can have the benefit of my experience, and I will also prescribe for them absolutely free.

All letters should be addressed to Dr. B. J. Kay, c/o The Dr. B. J. Kay Medical Company, Saratoga Springs, N. Y., and will be considered in every way confidential, and promptly answered and attended to.

This is to certify that I have used Dr.
