## CRAIN AND PRODUCE MARKET

Omaha Leads Middle West Cities on Spot Corn Center.

FARMERS TOO BUSY TO COME TO TOWN Armours Builing Corn on Condition

of What is in Cribs, Partieularly in Illinois and

OMAHA, April 2, 1904.

Omaha is the best spot corn market in the country. Today it leads Kansas City, St. Louis and Minneapolis by from 2 to 4 cents. Considering the long haul and other conditions it is a better market than Chicago where good, choice corn is now selling at fancy prices. Nebraska corn is in strong demand there, for it is the stuff that contract is made of. It is understood that corn from this state handled in the exchange is grading No. 2 in Chicago. "The farmers are busy seeding," asid E. A. Cope, "and will not leave their work to bring corn to market. None of it is condition of what is in the farmers cribs, particularly in Illinois and lows on the supposition that it will not grade contract in May. Nebraska corn is the best on the market. Not half enough corn was on tho market this morning. The Updike Grain company took eight of the ten cars offered and we would have liked all we could get." The speculative market was uneventful this morning. The lack of foreign cables restricted it somewhat, but domestic conditions control just now. Crop reports restricted it somewhat, but domestic conditions control just now. Crop reports restricted it somewhat, but domestic conditions control just now. market was an insignificant affair, as was to be expected of a two-hour session between two holidays. The fact that the London market was closed today was an additional incentive to absentees on the part of stock exchange members. The drift of prices was suggish throughout. The Pacific stocks especially receded from their recent prominence in the market. People's Gas suffered from a movement to take profits on the recent considerable rise and was a depressing influence on the general list. The weather bureau's crop bulletin and the weekly reviews of the dommercial agencies were not sufficietly cheerful to induce any buying of stocks, but there was no urgent pressure to sell.

The bank statement revealed the large transactions which have been going on in the money market, but the maintenance of last week's full surplus by the offsetting of other items and the extreme ease now ruling in the money market prevenetd any anxiety over the banking situation. The cash item reflected the receipts of government deposits from interior banks coming over from last week's operations. The sovernment deposits included in the deposit item amount to \$56,107,400, compared with \$46,348,100 last week. The expansion of nearly \$15,000,000 in the loan item is considered corroborative of the rumors of large loans contracted during the week in connection with stock market operations. Yesterday's payment of subscriptions to the \$5,000,000 Pennsylvania note lines up probably figures in this item also. The market closed easy on a late selling movement. Total sales of bonds par value \$1,540,000. The volume and character of the transactions in the great Pacific and transcontinental railroad stock give ample warrant for the prevalent assumption that important operations are working out in that field designed to establish financial policies on the part of great forces of railroad capital.

The feeling has crystalized in Wall street that the dissolution of the Northern Securities company. The one substantil basis for the assumption that such pol

OMAHA, April 2—Comparative statement of bank clearings for the week: 1904. 1903.

NEW YORK, April 2.—All previous high records for loans and deposits were swept aside by the week's statement of the associated banks of this city. Loans now aggregate \$1,022,707,100 and deposits \$1,023,309,400. The deposit increase for the week of almost \$21,000,000 is doubtless due to preparations for the payment of \$20,000,000 of Panama canal moneys.
