Month's Trial Free

Breathes Hyomei Three or Four Times Daily and He Cured of Catarrh.

The Sherman & McConnell Drug Co., corner 16th and Dodge streets, one of the most reliable business firms in Omaha, have seen many instances of the remarkable power of Hyomei to cure catarrh troubles and other disorders of the respiratory organs.

Results in this treatment have given them so much confidence in Hyomei that they will give a month's trial with the positive understanding that if at the end of that time a cure is not effected or enough relief gained to warrant a continued use of the treatment for a while longer, the money will be refunded.

Hyomei is the only treatment for catarrh that has ever been sold under a "no cure, no pay" plan, and the only one where a month's trial treatment is free unless it cures.

Hyomei is not a pill or liquid. Just breathe it through the nasal inhaler that comes with every outfit, and benefit will be seen from the first day's use. Breathe in this way, the health-giving Hyomei penetrates to the minutest air cells of the lungs, and drives catarrh germs and poisons from the system.

The complete outfit costs but \$1, and extra bottles of Hyomei may be obtained for 50c.

Remember that if Hyomei does not cure you after a month's trial with the positive understanding that if at the end of that time a cure is not effected or enough relief gained to warrant a continued use of the treatment for a while longer, the money will be refunded.

EXCLUDES NEGRO VOTES

Constitutionality of Virginia Election Law Argued at Washington.

IOWA HORSES SUFFERING FROM COIT

Chairman Griggs of Democratic National Committee to Resign—Clark's Bill Makes Cabinet Eligible to Presidency.

WASHINGTON, April 4.—A large number of negroes were present in the United States supreme court today to listen to the arguments in the case affecting the constitutionality of the Virginia election law, which was designed to exclude negroes from voting. Mr. Wise occupied the greater part of the day and was followed by William H. Anderson, attorney general of the state of Virginia.

Summarizing his case at the close of his address, Mr. Wise contended that the Virginia constitution was null because the convention by which it was adopted never was organized and because the instrument never was submitted to a vote of the people of the state. The constitution was, he declared, in contravention of the federal constitution and he urged on the court the importance of the case to the colored people, saying that with them it was a question of liberty, which they believed to be guaranteed by the federal statutes.

Chairman Griggs of the democratic congressional committee has ordered a meeting of the committee for Thursday night. Mr. Griggs will resign the chairmanship, which probably will go to Representative Cowder of Missouri.

Entire Cabinet in List. Representative Clark of Missouri today introduced a bill adding to the list of cabinet officers available for the succession to the presidency in case of removal, death or resignation of that official, the secretary of agriculture and commerce and labor, thus including the whole cabinet.

Secretary Wilson has decided to extend assistance to the cattle interests in Montana, North and South Dakota, in the extermination of cattle itch, or scab. Approximately fifty experts will be in the field shortly, making practical demonstrations of the methods of dipping cattle to stamp out the disease.

Coit Attacks Iowa Horses. The Department of Agriculture has received word of an outbreak of coit, a serious horse malady, in Van Buren county, Iowa, and an investigation has begun to determine whether the disease was imported from a foreign country. The infection was found among horses shipped here from France. Much importance is attached to the tracing of the outbreak.

Guthrie Bank Closes Doors. The comptroller of the currency tonight learned at the Capital National bank of Guthrie, Okla., has suspended. He has appointed National Bank Examiner Starkevant receiver. Although the directors say that the depositors will be paid in full, the stockholders will be heavy losers. The bank is a national and territorial depository and many of the Oklahoma banks carry large deposits with it.

Provides Military Commission. Representative Parker of New Jersey today introduced a bill to provide a national military park commission. It terminates the present Military Park commissions July 1, 1906. The new commission is to consist of five members, to be appointed by the president and confirmed by the senate, the term of appointment to be for five years. All of the commissioners for the first five years of the operation of the law shall be veterans of the civil war, and two of the confederate army.

To Settle Church Dispute. Secretary Taft and Governor Wright of the Philippines are in correspondence with a view to arranging some satisfactory method of settling the dispute between the Roman Catholic church and the Philippine national church, of which latter Bishop Artigas is the head, regarding the ownership of certain churches and convents in the Philippines. In most cases the question of title is complicated by reason of the fact that while the buildings were under construction, the Roman Catholic church on crown lands donated for that purpose by the Spanish government, the money and labor for the buildings were provided by the people of the different provinces where the buildings are located.

HOUSE ON PERSONAL RIGHTS

Considers Several Questions Affecting Individual Affairs.

LIVERNASH TAKES UP LABOR QUESTION

Mr. Goldfoyle Considers Resolution for Uniform Treatment in Russia and Mr. Hardwick Dis-cusses the Negro.

WASHINGTON, April 4.—In the house of representatives today an attempt to secure consideration under suspension of the rules of the bill appropriating \$175,000 for the Lewis and Clark Centennial exposition to be held in Portland, Ore., in 1905, failed, after the house had divided several times and the roll had been called twice. The military academy appropriation bill was taken up.

Mr. Livernash (Cal.) made an attack on President Roosevelt, and Mr. Morrell of Pennsylvania discussed the negro question. Consideration of the bill was not concluded when the house adjourned until tomorrow.

Under the license of debate, Mr. Livernash (Cal.) discussed the labor question and attacked President Roosevelt. Referring to the Miller case in the government printing office, he said the president had embraced the opportunity in a letter to Secretary Cortelyou on the subject of the findings in the anthracite coal strike to express himself clearly with the "open shop."

Attacks the Members. Mr. Livernash also attacked the membership of the house and said there was in that body a distinct intolerance of laboring men and their acts.

Mr. Goldfoyle (N. Y.) spoke on his resolution introduced in January last in reference to the United States exercising every effort to secure from the Russian government uniform treatment of Americans traveling in Russia, whether they be Jews or Christians. He declared that Russia continues its restrictive policy against the Jew and continues to abuse and dishonor the American passport whenever presented at its gates by Jewish citizens. He wanted to see efforts earnestly and actively made on the other side of the Atlantic to accomplish what the Jews in America seek and thus break down the barriers that unfortunately exist between class and class "brought about through bigotry, intolerance and base persecution."

Mr. Robb (Mo.) delivered a speech against the republican party and said the Postoffice department was seeking with corruption, while in the general land office frauds and crimes had been committed.

Using as his text the remarks of Mr. Hardwick (Ga.) on the negro question in the senate delivered in January last, Mr. Morrell (Pa.) said that the ambitious and aspiring negro was treated as an outcast in this country to a certain extent, as the Jew was treated by the degraded peasantry in Russia.

Favors the Negro. Everywhere, he said, the negro was being treated as an outcast in the different walks of life. It was not alone in the southern states that the negro was unfairly treated in the enforcement of the law, he said, but in the courts and in the streets often were enemies. The corporations upon which the democratic institutions of this country were founded, the hope of all Americans, whether native born or adopted, white or black, was being exemplified, he declared, in the "door of hope" policy as expressed by President Roosevelt.

At 5:25 the house adjourned.

WESTERN MATTERS AT CAPITAL

Postmaster Palmer Protests on Civil Service Order.

(From a Staff Correspondent.) WASHINGTON, April 4.—(Special Telegram.)—Captain Palmer, who returned from the south this morning, had a conference with General Black of the Civil Service commission today, relative to the contemplated transfer of the civil service rolls at Omaha to St. Louis. The Omaha postmaster showed the hardship this would entail and to what disadvantage Omaha and South Omaha would be put if it was carried out. General Black stated that the matter was in process of being worked out when he came into office, but informed Captain Palmer that he would look after it.

An examination for the revenue cutter service will be held April 25, 27 and 28 at Omaha, Lincoln and Grand Island. The service is open for young men between 15 and 25 years.

Colonel Frank Hanlon of Omaha has been in Washington for several days. He is on a visit to friends in Baltimore.

Senator Kittredge presented a bill for South Dakota Indians to President Roosevelt today.

Rural carriers appointed for Iowa routes: Blairburg, regulars, Henry A.

POSTOFFICE BILL BEFORE SENATE.

One Amendment Strikes Out Age Limit for Mail Cars.

WASHINGTON, April 4.—Though the postoffice appropriation bill was before the senate almost the entire day, the early debate on the measure was relative to general land laws. Mr. Gilson of Montana denied that the purpose of the first bill for the repeal of the desert land act and the commutation clause of the homestead act were proceeding at the instigation and at the interest of land grant railroads.

Mr. Gilson, aided by Mr. Quaries of Wisconsin, made light of the charge that a lobby was maintained in Washington to fight for the passage of this bill. Messrs. Hansbrough of North Dakota and Warren of Wyoming took the other side of the question. Mr. Hansbrough mentioned by name George H. Maxwell, who, he said, was drawing a princely salary for the work he did. Considerable progress was made with the postoffice appropriation bill. Both provisions of the bill relating to sites for postoffice buildings in New York was amended by the senate committee were agreed to.

Other important amendments provide for the transfer of the free delivery service from the office of the fourth assistant postmaster general to the office of the first assistant postmaster general, strike out the age limit for cars used in the railway mail service and eliminate the restrictions placed on first and second class postmasters in the matter of telephone service.

MANY CHILDREN ROLLING EGGS.

President and Others See Annual Festival on White House Grounds.

WASHINGTON, April 4.—Hundreds of children, of all colors and conditions, participated today in the Easter Monday egg-rolling festival on the White House grounds. The youngsters practically had the grounds to themselves and they enjoyed the day immensely. Ample police protection was afforded, the little guests of the president and Mrs. Roosevelt and they were guarded against every possible harm. To add to the pleasure of the egg-rolling party, President Roosevelt himself directed that the Marine band should give a concert in the grounds during the afternoon. The president's young children and some of their playmates also participated in the egg-rolling fun.

To witness the sport Mrs. Roosevelt invited the women of the cabinet circle and a party of her young friends to the White House during the afternoon. They viewed the sport from the south portico of the White House. After luncheon the president joined the party on the portico and remained for a time to watch the children.
