HOGS—There was a fair run of hogs here for a Menday, and, although Chlongo was quoted only sleady to strong, the market here was right close to a nicked higher. The bulk of the hogs sold at \$5.15% and \$5.15, with the choicest loads going targely from \$5.15 to \$5.17%. The loss desirable loads sold largely from \$1.6 down. Trading was fairly active and most everything was sold before the provision market was kened.

OMAHA, April 4, 1994.

Armour has pur the short boys in corn to fright. Late Saturday he chartered vessels to carry 20,000 bushes of No. 2 corn to Buffalo. When the Armour house goes into the market it always cares for the legitimate side of things, so that the crowd thinks it is now getting the contract stuff out of reach and where it may be got by the exporters. The demand seems to have been better in the east than the reports would indicate and corn has sold higher at the semboard than in Chicago. Last week the rall shipments east were equal to the receipts. The Chicago stocks of No. 2 are 3,000,000. Armour is thought to hold such a line of May and July that he can do what he pieases with the market. The shorts are therefore getting very cautious. Omana taient did little with either May or July. May ranged from 57%c to 55%c, and lost about ic during the day. The Illinois April builetin taiss of complaints of bad corn in orth. It reported much as soft and damp, with much spoiled. "There is little corn in the farmers hands," said E. C. Twamley, "but I believe the corn remaining in the country is of better quality. The farmers have what there is, as the elevators have small stocks. The farmers have marketed their soft stuff and are holding the best for later delivery. Of course we have to consider the warm weather and the Nebraska situation may not then look so good. But I have faith in the corn which is to come."

CHICAGO GRAIN AND PROVISIONS.

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO. April 4.—Prospects of rain caused general selling of wheat today. All cereals closed weak, July wheat being down lighty. Corn is off lighty. Oats show a less of the and provisions 754214c.

Predictions of favorable weather caused a bearish sentiment in the wheat pit at the opening. The July delivery was 1464c to 1475c lower at 8740875c. Final quotations on July were at 8740875c. Final quotations on July were at 874c. Clearances in wheat and flour were equal to 147,400 bu. The amount on passage increased 148,006 bm. and the visible supply decreased \$4,006 bm. Primary receipts were 557,000 bu. against 678,400 a year ago. Minnespolis, Duluth and Chicago reported receipts of 413 cars, compared with 549 last week and 438 a year ago. The early com market was steady, but toward the noon hour a selling movement set in that caused a severe break. A decline of nearly 2c in the cash article was an important feature in the situation. July opened unchanged to 4574c lower at 25466 5746654c. After selling between 254c and 874c the close was at 375,0074c. May ranged between 554c and 574c and closed at 56c. Local receipts were 178 cars, 31 of contract grade.

The oats market was subjected to a raid early in the session, causing much weakness. The close was weak and at the bottom. After opening 14674c lower at 25466 2546c and 415,0415c. closing at 394c. Local receipts were 178 cars, 31 of contract grade.

Provisions were weak. A marked increase in contract stocks of pork and lard was the principal cause of the selling pressure. The market closed casy, with July pork down 252524c at \$11,09611.424; July lard was off 74610c at \$10 ribs were 10c lower at 37.

NEW YORK, April 4.—Speculators who are been trading for two weeks in the onlident belief that they knew the inside acts of the Northern Securities settlement were nonpussed today by the terms of the pertition of the Union Pacific interests for an injunction against the distribution of Northern Securities assets on the plan proposed, it had been expected that some judicial opinion would be invited on the proposed it had been expected that some proposed plan, but the question of legality in the substitution of collateral for the Northern Securities stock now held against the Oregon Short Line bond issue was the one which was admitted to be at issue, in view of the protestations from all interests concerned that perfect unity and harmony existed. Demand for Union Facific was again conspicuous today and carried the price at one time as high as 30. The stock's gain on the day was 3's points on total sales of 189,90 shares. It was only momentary below Saturday on the reaction which followed the opening buge and carried higher by successive buying orders. Other notable movements seemed to be due to special causes. Feople's Gas suffered from the supreme court decision adverse to its contention against the To-cent Chicago gas ordinance.

United States Steel reflected the anxiety over the showing of earnings to be made by the quarterly statement due tomorrow, Amaigamated Copper and Sugar weekened without explanation. The spurt in Chicago Great Western was called a traders' movement. Bulls of medium weight sold without
much trouble at stronger prices. Fig heavy
bulls did not show much of any improvement. Veal calves were unchanged.

There were only a few bunches of stock
cattle in sight and, as speculators carried
over very few from last week, they were
all anxious for fresh supplies. The market
