> Committeemenis Charge of Semi-Centennial Celebration Issue Public Statement

> CALL ON ALL CITIZENS FOR CO-OPERATION

Defer to Grand Army, Which Has Prior Claim on Thirtieth of May, Date Bill Was

Signed.

The committee of old citizens charged with the work of arranging for the semientennial celebration May 31, of the arganco-operation. The event is to be celepublic to May 30, as their annual memorial military demonstrations are decided on and the oration of the day will be made by Hon. Henry D. Estabrook, a son of Ne- age on account of drouth. brasks, now a citizen of New York. Other details the committee proposes to disclose

Manifesto of Committee,

The complete pronunciamento issued by committeemen, is:

To the People of the State of Nebraska On May 30, 1854, the president of the United States approved what is known as the Kansas-Nebraska bill, the most important legislative and executive action in the history of the country west of the Missouri river since the Louislana Purchase was made under the direction of Thomas Jefferson. The fifty years that have since elapsed have been prolific in great events, but none are more worthy of note than the development that has come during the half century of the transmissouri section of the republic, and especially to the states of Kansas and Nebraska.

The undersigned, a committee of citizens, have been charged with the duty of arranging for a remi-centennial celebration of this event.

By both federal and state law the 30th day of May of each year is devoted to memorial observances of the gallant spirits who in their lives served their country during the great war of 1861-65. That day being thus devoted to holy purpose, it has been thought best to hold the exercises properly incident to the semi-centennial on Tuesday, the 31st day of May. Thus will come a proper recognition of Memorial day. and also of the important fact that the state of Nebraska received after the great war a larger proportion of ex-soldiers than Charles Mix county, Charles Mix, affirmed. any other state in the west, and these sol-

Defer to Grand Army.

The Grand Army of the Republic, which has had direction of the memorial observances, has been in the habit for years of to the 20th day of May, and it has requested that on the Sunday preceding that date in should make fitting reference to the incldents of note proper to the day and inculcate patriotism and fitting sacrifice for the

The committee suggests to the Grand Army and to the clergy that it would be most fitting, in the schools and in the ming & Missouri River railroad in the Black churches, to call attention to the fifty years pecially to the part of it in which our lot has been cast, and on Memorial day it certainly will be appropriate that all who address the people, while giving fitting tribute to those who served the country and have passed away, should make like reference to the progress that has been made during the half century that will close upon that

On the flat day of May, in the city of Omaha, there will be proper observance of the signing of the Kansas-Nebraska bill by the president of the United States. The delished and the city of Omaha invites all citizens of the state to join in this celebration by local ceremonial if they wish, but preferably within the limits of the metropolis of the state.

Son of Nebraska as Orator.

The committee takes pleasure in announce ng that a son of Nebraska, who has achieved great distinction and prominence by reason of his ability and eloquence-Hon. Heery D. Estabrook, now of New York-will deliver the oration of the day befitting the occasion. It is expected that other speakers of worth and prominence will recount the interesting events of the fifty years that have past since the birthday of the state of Nebraska. Military and civil parades will also be an incident, and the latchstring of Omaha will be cut in hearty welcoming to all who wish o glorify the event of May 30, 1854.

The press of Nebraska is requested t publish this address, and so soon as the detail of the observances can be decided upon further communication will be made to the public.

Wardens and Vestrymen Are Chose for St. Barnabas and St. Matthias Episcopai.

The annual election of wardens and vesrymen was held by the parishioners of St. Harnabas' church Monday evening. J. W. Van Nostrand was elected senior warden and Theodore L. Ringwalt junior warden. The following were chosen for vestrymen: A. T. Jackson, George F. West, Will Browne, Frank Pogue, M. C. Howes, J. R. Ringwalt, F. L. Howell. Delegates to the nnual convention are: J. W. Van Nostrand, Theodore L. Ringwalt and Dr. A. W. Nason, alternates, F. L. Howell, Walter and Harry Manville. Theodore L. Ringwalt was elected treasurer and Will Browne secretary. The only change made in the vestry was in the retiring of W. Sanford, whose place was taken by A. T. Jackson.

The financial reports read Monday night at the annual meeting of St. Mathias Episcopal parish were satisfactory to those present. In the annual election which followed, Joseph Barker was chosen senior warden, John C. Barnard junior warden and the vestryman for the next twelve

and very little has been done. Winter wheat in the eastern portion o the state, including the Concordia branch and as far west as Red Cloud, Hastings and Grand Island, is generally in excellent condition. While the weather has been dry, this crop has not been damaged in this territory during the winter. Some damage is reported on the lines northwest of Aurora, but not serious. West of Grand Island the damage has been such from the weather and dry winds that probably half a crop is the best that can be expected with favorable conditions from now on. The same may be said of all territory in Nebraska from Hastings west to Curtis and from Red Cloud west to Indianola. West of Seneca, Indianola and Curtis prospects for any wheat, except in irrigated districts west of Akron, are exceedingly slim. South of Alliance, where onsiderable wheat is generally raised, the crop is not looking at all well. Between Newcastle and Alliance the ground is gen erally dry and practically no spring work has begun.

From Edgmont to Deadwood, on the Black Hills line, there has been considerable moisture and farming has begun on a very small scale. On the Sheridan division the ground is in excellent shape and the outlook good. Stock seems to have wintered well. Pasture and hay lands are in generally good condition. This also applies on ranges in Colorado, Wyoming and Montana. Stock generally is reported in good condition. There was no rain at any point on the B. & M. last night.

MUST PAY SEWER TAX FIRST Property Owner Will Be Required to Meet Obligation Before Connections Are Made.

Hereafter permits for sewer connections will not be issued from the office of the city engineer until the property owner applying can produce a certificate showing that he has paid his proportion of the tax to cover the expense of the district sewer. An ordinance passed recently by the council authorizes this rule and makes it in cumbent upon the engineer to demand the certificate before he allows connection of house plumbing with new sewers. In case the levy is not made the property owner or agent must pay the estimate and settle with the treasurer after the actual amount is determined upon. This arrangement is made to prevent persons from contesting taxes after having obtained full use of the improvements. This has been done in the past by certain prominent citizens and others and in some cases taxes evaded. Now it is proposed to see the cash before any accommodations are permitted.

Police with Great Effort Keep the Two Bodies Apart, but More Trouble is Looked For.

CHICAGO, April 5 .- Although it was ansunced last night that the strike at the American Can company's plant in this city was settled, the rioting around the place was flercer today than at any time previously, one man, John Nicholos, lost his life by a bullet, fired, it is said, from a train on which a number of nonunion men were being taken back to the city after the conclusion of the day's work.

The fighting began early in the morning when 300 Greeks, who have been employed during the strike, attempted to come to the factory. They were met at the gates by a large number of union pickets, who attacked them with stones and clubs. large detachment of the police had their hands, full to protect the Greeks when a shot fired from the crowd aroused the Greeks to fury.

Those of the number who had entered the factory came pouring out, armed with knives and revolvers, and attempted to attack the union men and their sympahizers, who were assaulting those Greeks who had not reached the gateway. police with great effort kept the two bodies apart, drove the Greeks into the factory and dispersed those on the outside. In this fight a number of men were bat-

MR. BURT TELLS OF HIS TOUR Enjoying Good Health and Experience-No Trouble with Japanese on Landing.

Horace G. Burt, ex-president of the Union Pacific, has been heard from by friends in this city. The communication is dated Yokohama, Japan. He tells in an interesting way of his trip around the world as far as Japan. This is Mr. Burt's first extended experience with water travel. Mrs. Burt has been across the Atlantic.

His description of conditions in the Hawaitan islands and Japan are very interesting. The main group of islands of Japan, so the letter states, is a little less in area than twice the size of the state of Nebraska, and accommodates 41,000,000 people, who are pleasing and thrifty in all the branches of economy, social, political and otherwise. In speaking of the experience of the Korea, on which they sailed, Mr. Burt says:

Ther was no attempt at capture, but a Japanese gunboat did fire a shot across our was to follow the gunboat through the territory in which submerged mines, lay and the gunboat preceded the ship through the entire territory in order that we might go through safely. Having passed the grounds only calculated to do harm to an enemy, the gunboat simply passed off to one side and allowed the Korea to pilot itself that the harman where the other territory is a second of the control of the contro one side and allowed the Korea to pliot itself into the harbor, where no obstructions existed. The cargo of the Corea was, as a matter of fact, very largely supplies for the Russian government, from the packing houses in Bouth Omaha, Bloux City and Kansas City. These were not seized in any way, but were simply taken out of the ship and stored in warehouses beyond the reach of the Russians, and will be either purchased by the Japanese government or otherwise disposed of without loss to any commercial interest except Russia.

Mr. Burt will remain in Japan until some time in May. He will then go to the Phillipines, where a sojourn of a few weeks will be made and from there will proceed to China where a considerable period will be spent. In September or October, when the climate becomes comfortable, they will proceed to India, and from there to the European continent. It is probable they will be absent from America for about one year, according to the letter.

Mr. and Mrs. Burt are enjoying excellent health, and are having all the delightful experiences anticipated previous to their leaving home.
