LINCOLN. April 6—(specials—James Manahan, former democratic nominee for congress from this district, has returned from Washington, where for several days, he has been the guest of W. R. Hearst, candidate for the democratic nomination for president. Mr. Manahan comes back an avowed Hearst advocate and in all likelihood will assume the management of the Hearst campaign in Nebraska, though has not yet made such an announcement. After saying that Mr. Hearst was in every way worthy to lead the democratic hosts to victory. Mr. Manahan stated that Lancaster county would send a delegation to the state convention instructed for Hearst in the first of the state convention instructed for Hearst was in every way worthy to lead the democratic hosts to victory. The statements of Mr. Manahan are taken by the reorganizers to be the reflection of Mr. Bryan's ideas and they no longer doubt that Bryan is for Hearst and will use all of his influence to swing Nebraska in line for him. Probably no man in Nebraska stands closer to Mr. Bryan than does Janess Manahan. When Mr. Bryan than does Janess Manahan that the European tour some time ago. Just what effect the Manahan announcement will have on the democratic situation is hard to say, but unless Mr. Bryan has all of his followers well in hand he can not turn them over to Hearst. When the olution favoring Hearst for the presidency.

Bryan Against Parker.

Bryan Against Parker.

Mr. Cleveland's nomination is out of the question, although he is the first choice of the plutocraite element in the damoratic party. Mr. Oliney has removed him self by his advocacy of Mr. Cleveland's nomination, and Mr. Gorman's chances seem reduced to a minus quantity by his failure to secure the co-operation of democratic senators on the Panama question. Mr. Hill is not a possibility, but he has taken up the candidacy of Judge Parker in the hope of making himself the "power behind the throne." As some of the democratic as a considering Judge Parker as a "harmony" candidate, it is important that the real nature of his candidacy should be examined. He is first of all Mr. Hill's candidate, and that in itself would be gufficient to raise a suspicion in regard to his position on public questions. In a letter written shortly before the election he told a New York republican that he had not decided what he would do, concluding with the statement. "I am a democrat still—very still."

Mr. Hill made himself the champion of the cangregation believe firmly in his innocence, and they have the key to the church. The reverend gentleman claims he is innocent and so does his wife. Mr. Hill made himself the champion of Mr. Parker in New York, and it is not likely that he would do this without having an understanding with Mr. Parker as to his own position with the administration. It can be eafely taken for granted that in case of Judge Parker's nomination and election N. Hill would be the controlling figure in the administration and that would mean that those who attempted to reach the White House would have to wade through peanut shells knee deep.

Mr. Hill stands for everything bad that Mr. Cleveland stands for and lacks that brutal frankness that has given Mr. Cleveland most of his popularity. But Mr. Hill's support, dangerous as it is, is not so detrimental to Judge Parker as the corporate support which is gradually gathering about him.

A few of the republican workers realized that there was something going on, and that the chance for two or more democratic councilmen might be good. The vote was very light and in some wards there appeared to be no workers. The fusionists realized that in a city election of this kind there would be an indifference on the part of the republicans and they quietly passed the word around to every populist and democrat to vote and when the returns were counted last night many were sur prised to learn that the fusionists had elected three councilmen out of four.
