(From a Staff Correspondent.) LINCOLN, April 7 .- (Special Telegram.)-The apparatus in the Diamond poolroom of Omaha has been declared gambling devices by the supreme court and the mandamus issued by the lower court to compel Mayor Mooers to close the room has een sustained. The opinion was written by Commissioner Hastings and in it he states that the evidence shows that the gambling laws of the state have been flagrantly violated. The court also decided today that former olice Judge Gordon must again lose out on his salary case and sustained its former decision handed down some months ago. McCormick of Grand Island, who was sentenced to the penitentiary for twenty years for murder in the second degree, will have to serve the remainder of his term, nineteen years, the supreme court having deided that its former opinion in upholding the trial judge was correct. McCormick was originally sent up for twenty years and during the first year of his imprisonment appealed his case because the judge failed to ask him if he had anything to say why sentence should not be passed. The court in passing upon this question ordered him resentenced. This was done, the lower court deducting the time from the sentence that McCormick had served.

"I am now in my 72d year and have served God fearlessly and to the best of my ability in my chosen calling. For more than forty years I have been afflicted with dyspepsia and nervous prostration. At times I would get so run down constitutionally through over work as to be disqualified entirely from discharging my ministerial duties. The older I grew the more the disease seemed to prey upon me. The most noted physicians failed to prescribe any medicines that benefited me. I could neither eat nor sleep, and for more than two years I had to take sleeping powders every night.

Duffy's Pure Malt Whiskey.

In the brief period of two days I found that it began to help me. It gave me strength, aided my digestion, settled my nerves, and I have gained ten pounds since taking it.

I thank God there is such a medicine to be had, and recommend all people with weak, broken-down constitutions, and nervous people especially to use it. I feel that it will help them. I will be glad to answer any communications in regard to the healing virtue of your preparation. I am a temperance man, and I do not think my position in this matter-will be misunderstood."
