SPECULATE ON JAPAN'S COURSE.

Russians Do Not Seem to Fear Opera tion of Army.

ST. PETERSBURG, April 9.-5:25 p. m. The best informed military circles no longer anticipate a Japanese landing at the head of the Liao Tung gulf. They believe the Japanese have missed their opportunity, the Russians being now too strong. A Russian officer who accompanied the Japanese during the war with China said: Japanese during the war with China said:

I witnessed the Japanese landing at Wei
Hai Wei. It was excellently performed,
but there was no enoung to offer resistance,
the Chinese having fied. Yet it required
four days to disembark 21,000 men. If the
Japanese attempt to land anywhere within
striking distance of New Chwang, we can
casily concentrate a force to oppose them
faster than they can disembark.

The opinion now is that the Japanese will try flanking movements from Taju Shan, west of Antung, at the head of the Gulf of Corea, in connection with their advance on the Yalu river, but the authorities here make no display of nervousness, manifesting the utmost confidence in the plan of campaign marked out by General Kouro-

THREATENS HEAD OF COPPER COMPANY

Westerner Pinced Under Arrest and Held on the Charge of Feloatous Assault with Intent to

K111.

NEW YORK, April 2.- James W. Goodman, a machinist, was arrested here today, charged with making threats against the life of William C. Greene, president of the Greene Consolidated Copper company, When Goodman was arraigned in police court Mr. Greene testified that Goodman lay in wait outside his (Greene's) house today, and that Goodman came up to him and said: "You're the man I'm laying for. Now I'm going to kill you." Mr. Greene said that Goodman rubbed against him and he felt a revolver in the

Goodman followed him to his office, Mr. Greene added, and was there arrested. According to police, two revolvers were

found in Goodman's pockets, Goodman has been in the city since last September, having given his address as Nogales, Ariz., and been understood to be here as representative of a mining company at Sonora, Mexico.

The charge of felonious assault with attempt to kill was made when Goodman was arraigned in court, and he was held in \$5,000 bail for examination on Monday. It was alleged that there had been some differences between Greene and Goodman on a mining deal. Goodman met Greene today near Broadway and Seventy-second streets. and it is charged there threatened to kill him, but Greene told him to come down to his office and matters could there be satisfactorily settled. They went by an elevated Porath of West Point, all of whom were train down town, the trip being uneventful. Demands \$500,000.

> After getting in the office it is charg Goodman said to Mr. Greene:

"I want that \$500,000 that is due me or that mining deal. I demand a settlement. As if to emphasize his words, it is further caused by a disease known as anuerism. He alleged, Goodman pulled out a revolver Ball located in this city about thirty years from his hip pocket and pointed it at

> During the controversy which followed, I is alleged, Goodman three times pointed the revolver at Mr. Greene and threatened each time to shoot him.

> Mr. Greene excused himself, leaving Goodman in the room with Mr. Robbins, the secretary of the company. Mr. Greene Hurried to the Old Slip police station and told about the trouble. Patrolmen were sent post haste to the office and Goodman was disarmed. Goodman, after two revolvers had been taken from him, laughingly said: "Well, you've got them all."

Goodman was then taken at once to the Tombs court and arraigned. Mr. Greene brought to this city for burial and are swore to the affidavit charging felonious as sault and attempt to kill. Mr. Robbins swore to a correborating

affidavit. Mr. Greene in stating the case to Magis trate Cornell told the story of the case and also said:

Claims to Have Been Robbed.

"This man Goodman disposed of stock n a Mexican mine to a man named Smith. This man then drank and gambled the money away and it was not until he had spent all the money and found himself broke that he came to me and claimed that he had been swindled." The defendant asked for a postponement

and the magistrate turning to Mr. Greene, asked: "Do you think this man can furnish \$1.500 ball?"

Mr. Greene replied significantly: "The He might get bonds for \$1,000,000 as easily Bs. for \$1,000." Goodman was held in \$1,000 ball for examination on Monday afternoon. He was

taken to the Tombs and locked up. Mr. Greene after the case had been disposed of made the following statement: "I did not know this man until three weeks ago, when he called at my office and said there were 5,000 shares of Yaqui Copper company due him,

"He asked me to go and straighten out the matter for him. I went to the office of the Yaqui company and arranged with the president and secretary of the company so that Goodman would receive all that was due him.

"The stock was made out and left there so that he could call for it. A few days later Goodman called and refused to sign the receipt for the stock, so he did not get

"Then Goodman told me that he was omployed by the Minas Prietas Gold and Silver Mining company of Sonora, Mexico, of

which John W. Gates and his associates are the owners.' Goodman refused to talk at all.

He refused to say what company he was onnected with. After returning from court Mr. Greene

was closeted with his attorney, Franklin M. W. Cutcheon. Mr. Cutcheon would only say for Mr. Greene that Goodman had absolutely no claims upon Mr. Greene, and he expressed the opinion that Goodman was mentally deranged. He said that so far as he could learn there had been no intimate business relations between his client and Goodman

President Greene made a formal state ment later in the day.

The statement says in part:

The statement says in part:

The man (Goodman) was a comparative stranger to me. I have met him perbaps eight or ten times during the last four years. He was at one time interested in some mining properties in Sonora, which he and his partner, Frank Smith, transferred to the Yaqui Copper company, 170 Broadway, in consideration of 100,900 shares of the capital stock of the company. The stock was issued to them according to contract and a large portion sold by them. The stock at one time went to fif per share and Mr. Goodman's grievance is that, through what he claims was manipulation by myself and others, the stock was depreciated until at present it has a market value of much less than fif per share.

The only reason that I can give for his act was that the money he had received he had squandered, was desperate and without means, and he expects to force me to give him an amount of cash sufficient to make up his losses in stocks. I understand that he has lived many years in Mexico and Arizona.

When this statement was given out Mr. Greene's attorney said that Mr. Greene had no recollection of making any remark in the court regarding some men having instigated Goodman's action.
