Arrest Two Saloonmen.

C. H. Hooper and H. H. Martens, saloonkeepers who were included in the number against whom Attorney Wadsworth secured permanent injunctions during the recent saloon fight in this city, were arrested yesterday on warrants from the district court. Like Charles Bierwith, whose case is set for hearing this week, they are charged with being in contempt of court. It being alleged that despite the court's injunction hanging over their heads they have continued to conduct their saloons contrary to the provisions and requirements of the mulct law. The actions against them are brought in the name of the state of Iowa, the informations having been filed by County Attorney Killpack.

Hooper and Martens both furnished bonds in the sum of \$500 but the time for their hearing was not set. At the county attorney's office it was stated that similar proceedings would be brought against a numher of other saloonmen in the near future.

STUDYING THE NEW DRAINAGE LAW

supervisors of Three Counties to Meet at Missouri Valley.

The supervisors of Harrison, Monona and Pottawattamie counties will meet next Tuesday at Missouri Valley to discuss and familiarize themselves with the new drainage law just enacted by the state legisla-The new law, it is understood, will not affect the contracts for the Harrison-Pottawattamie county drainge ditches les last year, and the contractors, R. A. Brown of Washington, Ind., and W. A Smith & Co. of Missouri Valley are preparing to get the work under way.

The only change under the new law which will have to be made will be the assessment of the benefited property. This assessment was made by commissioners appointed by the auditors of the two counties. The new law provides that the assessment shall be made by three commis sioners who shall classify the benefited lands. In the case of a joint ditch district between two counties, as in the case of the Harrison-Pottawattamie county ditches, ne commissioner shall be selected by the Board of Supervisors of each county and these two commissioners shall then select a third.

The new law also provides that the con tracts shall be awarded by the county board and not by the auditor, as heretofore. The contracts for the Harrison-Pottawattamic county ditches were let by the auditors of the two countles, but the new act legalizes all previous actions in this respect up to the assessment of the bene- fourche and on May I will take the field fited lands, which must be done again by the commissioners appointed by the county board and not by the auditors.

NEW INEBRIATE LAW IS DRASTIC Heavy Penalty for Furnishing Liquor

to Chronics. The bill passed by the state legislature establishing a state hospital for the care of metriates and dipsomaniaes at Knoxville provides severe penalties for the sale of intexicating liquors to chronic inebriates and County Attorney Killpack, in discussing the new law, suggested vesterday that every saloonkeeper should make himself onversant with its provisions.

Under the new law any person selling or even giving intexteating liquor to any "patient" who has or who may hereafter committed to any insane hospital as an inebriate or dipsemaniac shall, on conviction, be sentenced to not less than six months or for not more than one year in the state penitentiary, or to a fine of not less than \$500, but not more than \$1,000, at the discretion of the court.

This same penalty applies to persons sellng or giving liquor or narcotics to persons addicted to the use of narcotic drugs such as cocaine, merphine, etc., and commonly

classed as "dope fiends." The new law further prohibits the sale giving of intexicating liquor to persons who have been committed to any state institution as inebriates and who have been discharged as cured, except on the precription of a reputable practising phy-

the new law will be deemed guilty of a misdemeanor and on conviction shall be subjected to a fine of not less than \$300 nor more than \$1,000, and shall be committed to the county jail until such fine is paid.

These stringent penalties, the county attorney said, should make saloon men and others very careful as to whom they furnish liquor. The experience of the authorities in this county has been that many of the persons sent to the Hospital for Inebriates at Mount Pleasant, the majority of whom made their escape and returned to their homes, were able to secure all th liquor they called for in any of the saloons, with the result that they soon fell by the wayride again.

Under the new law all male inchriates will be sent to the state hospital at Knoxville as soon as it is placed in readiness for their reception, but in the meantime they will be committed under the old law and sent to Mount Pleasant and other similar state hospitals or asylums. Female inebriates under the new law will be comnitted to such hospitals for the insane as the State Board of Control may designate. This law went into effect last Saturday, the day of its publication, a fact which church, when Rev. H. E. Nickien, D. D., of the county attorney said he believed was Woodbine, Harrison county, was elected not generally known. In this city there are several persons who have been committed to Mount Pleasant as chronic inebriates and who, having made their escape, are back home, and should any of these be arrested again for drunkenness the county attorney said a strict investigation would be made and the persons responsible for the sale of liquor to them would be made to suffer the penalty of the

Two Commissions Named to Carry on Investigations and Report to the Next Session of the Legislature.

(From a Staff Correspondent.) DES MOINES, April 12-(Special.)-The legislative session closed nominally at noon today, but in fact late this afternoon, with the clock stopped and much waiting done for conferences and for the completion of work by the enrolling committees. The day was an unusually quiet one in every way and the members were in good humor as they waited for the closing scenes. The amount of work done was not great. Only a few bills needed attention and they were easily disposed of, with one exception. All the general bills had been got out of the way. That which was troubling the members

on the last day was the appropriation for the repair of the state capitol. The capitol commission has only about \$45,000 on hand of a former appropriation for repair work, and none of it could be used to restore that portion of the capitol injured by fire. The senate bill, in accordance with the unanimous recommendation of a committee appointed early in the session, provided for \$126,000 for the restoration after the fire and \$82,000 additional for specified purposes about the state house, such as repair of steps and walks and other purof Police Richmond yesterday compelled poses. The bill also provided that the \$308,he motor company to stop the work of 600 should be raised by a miliage tax on relaying and paving on East Pierce street the property of the state, thus not taking until the work can be done under the su- it from the general revenues of the state. pervision of an inspector appointed by the The house was not ready to accept this The paving was recently torn up and was especially opposed to the miliage by the motor company while relaying the tax. Commissions to Investigate. Two commissions for investigation and report to the next general assembly were provided for and these were named today by the presiding officers of the two bodies. On the commission to investigate the inreformatory idea and report to the next legislature on the advisability of adopting this reform in the penal system of the state there was named Senator Saunders and Representatives Temple and Jones.

On the commission to investigate as to the best method of managing state educational institutions with special reference to the advisability of placing them under one board there was named Senators Whipple Turner and Lambert and Representative Kendall, Wright and Langan.

Maintaining Interlockers. The Iowa supreme court today decided n a case coming from Clay county that court may require joint support and maintenance of an interlocker at a crossing of two railroads under the Iowa The Rock Island's Gowrie line crossed the Minneapolis and the latter chose to demand an Interlocker. The court on a hearing of the case decreed that the entire cost of the interlocker should be paid by the newer company, including the cost of perpetual maintenance. The supreme court decides today that while the entire original cost must be borne by the newer company, there should be division of the cost of maintenance. Mme. Yale's Hair Tonic

FOR CHILDREN AND ADULTS ANTISEPTIC AND HYGIENIC

A Hair invigorator, -Just what its name implies. It supplies nourishment, the elements of growth, which, when absorbed by the hair, strengthens and beautifies it in the same way that sap glorifies the foliage of a tree. Even when the follicles are seemingly dead, if the scalp is massaged daily with Mme. Yale's Hair Tonic a vigorous growth will be produced. It has honestly earned its title of "the great hair grower." It stimulates the most stunted growth and makes the hair magnificently healthy and beautiful.

Mme. Yele's Hair Tonic is prized equally by men and women, particularly when the hair begins to weaken or fade. Cures baldness, grayness, splitting of the hair, dandruff and all diseases of the hair, scaip and beard. One applica-tion stops hair falling. A nursery requisite; no mother should neglect to use it for her boys and girls; when the hair is made strong in childhood it remains proof against disease and retains its vigor and youthfulness throughout life.

Mme, Yale's Hair Tonic is a colorless fragrant, delightful hair dressing; neither sticky, gritty nor greasy; makes the hair soft, fluffy and glossy. Contains no artificial coloring; would not soil the whitest hair; restores original color by invigorating the scalp and reestablishing natural circulation and proper distribution of the live coloring matter. Beautiful hair redeems the plainest countenance, and anyone can secure it by using Mme. Yale's Hair Tonic. Now in three sizes-our prices,
