STOCKERS

HOGS—There was another liberal run of hogs in sight this morning and the tendency of prices was downward. The decline amounted to 550c. the bufk of hogs selling at \$4.8054.82%. The choice loads sold from \$4.806.00 the commoner kinds sold from \$4.806.00 the commoner kinds sold from \$4.80 down. Trading was fairly active at the decline, as salesmen did not see any hope of preventing the decline. It was some time, however, before a clearance was made owing to the liberal receipts.

receipts.

There was no particular change in the latter part of the market, unless possibly a triffe weaker feeling on the extreme light weights. Most everything was disposed of by noon, so that a good clearance was made. Representative sales:

Winter Wheat Up on Sensational Reports of Bad Conditions.

DETERIORATION IS FEARED Rumors Cause Large Covering of Shorts -- Government Report Shows April Lowest in Nine-

teen Years.

While the bullish government report was discounted Tuesday and the dealers believed in such improvement or winter wheat that they were predicting a bearish report for next month, today the market is up on some almost sensational reports of bad condition. Logan & Bryan had reports or this nature from Michigan. Ohio and sections of illinois, which they wired if true would show a very rapid deterioration of the condition. From western Kansas came the report that the government report was an overestimate, and in central indiana a very low condition was said to exist, being almost total failure. These reports caused a large covering of shorts. Chicago advanced at one time about 2c over the opening, the range in May being 19% to 80%c, and in new July 87%te to 80%c. Omaha was not so strong. The government report shows the lowest April condition for nineteen years. The explanation of the slump of Tuesday is given as traditional, a break always following official figures. Anticipatory buying and heavy liquidation were the immediate cause. Minneapoils is very bearish on the flour condition, no local demand and foreign offers 30 cents under cost. Mills are reported to be closing down, and a prominent miller is quoted as saying the 12,000,000 bushels there will last as long as 18,000,000 under ordinary grinding. Seeding is said to be very bad, with no possibility of getting in on the Red river and other ground before May 1, and an acreage decrease of 30 to 40 per cent. Chicago cash business is very slow, with little wheat demand.

Tuesday in Chicago 107 cars and 52,000 bushels of contract corn were made and the receipts show a fair proportion of contract. Omaha May went off from the opening 45%47%c, but inter recovered and went to 45%c. A. B. Jaquith bid the latter figure for 100,000 bushels, but did not get it. The corn strength was largely due to wheat.

The range in prices of Omaha grain for future delivery and the close of Tuesday and today were as follows:

A good demand was enjoyed by corn as usual, but the offerings were not particularly large. Corn was from steady to 1/20 up, the better prices coming late in the day. Whoat was le up from Tuesday's market, but little of it changed hands. Oats remained steady. One car of No. 3 corn on track sold for 480 one of No. 3 yellow for 48%c, and four of No. 3 white for 480. No. 3 hard winter wheat on track brought \$21/40. Receipts of wheat were 4 cars in and 15 cars out; one week ago, 30 and 23 cars. Oats were 1 car in, and the same one week ago. ago. CHICAGO GRAIN AND PROVISIONS.

Prices on Board of Trade.

CHICAGO, April 13.—Pessimistic reports on the condition of the winter crop caused sharp advances in wheat today. Compared with yesterday's close, final figures today showed a net gain of 1%c for the July defivery. Corn is up %c. Oats are %3%c higher and provisions 10% for the July defiger and provisions 10% for the July light receipts here and in the northwest caused a firm tone in wheat at the opening, the July option being a shade to 4% for the July option being a shade to 4% for the first hour of trading was an increased interest in the September delivery, that option leading all others in strength. After July had touched 87% prices made some recession on account of profit taking, but the market held strong, July closing at 87% for the deficiency of wheat and flour were equal to 57.500 bushels. Primary receipts were 245.400 bushels, compared with 20,400 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 77 cars, against 241 linst week.

Strength in wheat was the main Influence in the corn market. Local receipts were small, and that contributed to the improved tone. The close was near the high point. July soid between 49% and 50% of 50% and closed at 50% and 60% of 50% and closed at the top. Local receipts were 100 cars, with 33 of contract grade.

Oats were affected by strength in wheat and corn. The market ruled strong and closed almost at the high figures. July opened 1% lower to a shade higher, soid between 50% 637% card closed at 37% c. Local receipts were 100 cars, with 33 of contract grade.

Provisions were strong in sympathy with grains and on lighter receipts of hogs, with higher prices at the yards. Foreigners were credited with buying lard and packing houses made fair purchases of ribs. All the advances did not hold. owing to liquidation by pit traders, Features of the Trading and Closing Prices on Board of Trade.

Break in Union Pacific Regarded as Due to a Rad.

EFFECT OF RUSSIAN DISASTER IS FEARED

Reports of Large Steel Exports and Other Factors Have a Cheerful Influence on the

NEW TORK, April 13.—The dull and uncertain stock market of today was the natural outcome of the course of the previous market. The rather violent break in Union Pacific yesterday was regarded today as due to a raid. The more careful consideration of the part taken by the attorney general in the Northern Securities case at St. Paul modified the first impression that the government was opposing itself on principle to the Union Pacific's effort to recover its former holding of Northern Pacific. But the action of the stock yesterday on that supposition caused a deeply grounded impression that the recent mysterious accumulation of Union Pacific is based on the hope of advantage to the stock from the ends sought in the suit. The influence of foreign markets was on the side of reaction, and there were fears that the Russian naval disaster might result in further depression on the Paris market.

The cancellation of an option on 67,000 tons of pig fron by the United States Steel corporation, and the reason given that it was feared that the purchase would invite the resumption of biast furnaces, was not of reassuring effect on the steel trade. Renewed strength in the wheat market pointed to yesterday's weakness as due to profit-taking on the government's report, with the ultimate effect still to be counted with. On the other hand, reports were current of a large export of steel products for March, and the very cheerful view of the trade outlook expressed by the Iron Age, and published near the close, had an important effect in rallying the market. So did the increase in the dividend on Reading second preferred, which gave point to the reports of large accumulations of anthractic at the reduced spring price schedule.

The failure of the threatened bear demonstration to appear prompted some covering of shorts by room traders, and the closing was firm. The duilness of the trade some covering of shorts by room traders, and the closing The inlitire of the threatened bear demonstration to appear prompted some covering of shorts by room traders, and the closing was firm. The duliness of the trading was practically unrelieved to the close. Bonds were irregular. Total sales, par value, \$1,690,000. United States new is advanced in call.
