(Copyright, 1904, by Press Publishing Co. PARIS, April 11.-(New York World Cablegram-Special Telegram)-The French papers are displaying an unusual amount of interest in the coming presidential election in the United States. In general they predict the election of President Roosevelt and one added that Elihu Root would be vice president if he were not from the president's own state. Paris, is waiting to be evicted. "This is the only room of the whole house that is left to me," she said to your correspondent. "Some Italian tenants have all the others and I am forced into rather cramped quarters. I have been very ill and am consequently quite in ignorance of

the proceedings relating to the sale of my home. When my lawyer arrives we will talk it over and see what can be done. "I realized long ago that I had been victimized. My Italian husband induced me through false representation to sign a lease for twenty-five years of the marble quarries on my place and to give a \$7,000 mortgage on the house, and then he hypothecated them and ran away. I never had a cent of the money. He got it all, and now I am ill and eviction stares me in the face. I don't know what I would do if it were not for the kind women of Mamaroneck who come here occasionally to help me.

against me were made by enemies without any warrant or foundation, and that they relied upon untruthful testimony and faise representations. I am sure has been conclusively demonstrated by the decision of the committee which investigated my case.

Not a Candidate for Re-election "Since by the action of the committee am cleared of all charges of wrong-doing. and as the report of this committee has left no stain or blot upon the fair name of our state or party, I wish to announce for the information of my friends that I am not a candidate for re-election. "In this connection I think it only fair

for me to invite attention to the fact that my indictment was taken advantage of by a faction of the republican party which wished to put me out of the way of re election. My fealty and loyalty to the party and to the wolfare of the state have at all times been greater than any personal ambition, and in order that 2 may not embarrass the party or my friends I make

It was he who made the memorable campaign against Hon. W. A. McKeegan for congress. For the last eight years he has held the position of first auditor of the treasury. "Hon, E. J. Burkett has also been a hard working republican and an able representative of the First district in congress for six years. He occupies an important position as member of the house committee on appropriations and as such would grow in usefulness to the state. He is a worthy man and would make an able senator.

Opposed to Nominating Candidate.

"I do not believe it is wise for the state convention to nominate a candidate for the United States senate, but I wish it understood that whatever action may be taken by the convention will receive my most hearty support and I shall use my best of forts to assist in carrying out the wish of that or any other republican convention. However, I fear the nomination of a candi-

possible, and also refrain hereafter from falsely accusing any man without first have ing some substantial foundation for the at-All the population of the town-about a tack. My chief regret as senator is that I was unable to secure the appointment of Mr. H. C. Lindsay as United States district attorney, an honor which he deserved more than anyone in the state. consistent with his duties as executor of the will and that he is unnecessarily de laying the settlement of the estate. In the demurrer it was claimed for Mr. Bryan that in seeking to have the sealed letter incorporated in the will he is not attacking the will or assuming a position of hostility toward it, but is attempting to

remove the ambiguity of the clause in the will mentioning the letter. Judge Cleveland finds that "there is nothing to indicate that it was Mr. Bryan's

duty to resign as executor and thus desert the trust conferred upon him by Mr. Ben

nett, and it cannot be the law that his duties as executor involve the waiver of his right to have his claim as legatee passed upon by the court of last resort in this state. The precise question raised by this application has, so far as appears from the cases cited in the briefs of counsel, never been raised, and in the absence of clear authority requiring the removal of an executor under the circumstances of this case, it is the opinion of this court that Mr. Bennett's

choice should not be thus defeated, and that the facts alleged do not constitute sufficient ground for Mr. Bryan's removal. The demurrer is sustained and the application is dismissed."

ST. PETERSBURG, April 16 .- 2:20 p. m.-One of the highest authorities at the Admiralty makes the following statement to the Arsoclated Press:

You can deny with absolute ascurance the reports that the enemy was in any way responsible for the dimaster to the Petro-pavioyse. Admiral hexaroff never leit the narbor without aragging for mines. We harbor without aragging for mines. We believe the Petropaviovak's bailers blew up. They were of the old Scotch type. We also consider it quite sikely that an unexploded whitehead torpeus caused the Pobleda's injury, as the explosion occurred just at the water line.

Vice Admiral Skrydloff's appointment to command the naval forces at Port Arthur has been received with great satisfaction by both the navy and the public. He is a great favorite with the jackies, who have a song about him. Skrydloff is considered to be one of the ablest seamen and strategists in the Russian navy. He is the natural successor of Makaroff, whose comrade he was during the Turco-Russian war, both distinguishing themselves. The papers unanimously commend the selec-

tion in the highest terms. The Novosti, reviewing the naval situation, argues that there is no cause for despair, the ships left at Port Arthur and Visdivostok still constituting what Captain Mahan calls a "fleet in being." which

leaves the Japanese not free to act. The first two brigades of the nine Elberian rifle brigades have been ordered to be converted into nine divisions, increasing their numerical strength to about 100,000 men.
