LOCAL MILLS HOLDING FOR HIGH PRICE

Spot Corn is Off Again, but Demand and Receipts Good-Omaha Showing Up Well by Comparison.

OMAHA, April 15, 1904.
Wheat was weak, regardless of the deterioration in the Unio vaney, the drouts in the southwest and the delay in the portnwest. The professionals have been much influenced by these builtish reports, but the outsiders have not shown much interest, and the market is off today, not so may be much in the course of the local course. but the outsiders have not shown much interest, and the market is off today, not so much on the liquidation as on the lack of buying orders. The news from the southwest shows improved conditions. Inc. Kansas state report, just out, says the general average, taking the good with the bad, is 83 for winter wheat as against yi.s for 1803, 74 for 1802 and 80.8 for 1801. The report says, while in many sections the plant has not advanced as tar as usual, it is of good quality and responds to improved conditions tollowing the rains. This is due to the saturated condition of the soil. In most counties the soil and weather are propitious. St. Louis wires a prominent man of Kansas City, and says Johnson county will take twice as much wheat as allast year and the state will have a higher concordia and Dodge City, Kan., and at Kansas City and Sprinfield, Mo. From Newcastie, Ind., a merchant writing to his brother says there are no prospects for a crop in Henry county, one-fourth being more than is expected. An assessor in Noble county says the fields are bare ground and the farmers in that part of the state will not get their seed back. One-half the farmers will sow oats if it ever gets dry enough. Spring plowing and seeding have not been begun. The local mills are holding their wheat expecting high prices and none is now in farmers hands. The Omaha market in wheat for future delivery was without interest. Chicago May soil off the from 82 for and new July went from 80 to 80 kg. The September is only 414c below the new July. The bad crop news, the lack of movement and the small stores of contract will give the scalpers a chance to get busy for a few days.

The range in prices of Omaha grain for future delivery and the close of Friday and today were as follows:

Rather Sluggish.

Bank Statement Shows Smaller Loan Expansion and the Cash Increase Enhances Surplus of Re-

NEW FORK April 16.—There was only a sluggish drift in today's stock market and the trading was without interest. The day ended with prices generally a fraction lower, after having been at one time higher. lower, after having been at one time higher.
The only considerable movements were in specialties on individual causes. The local gas stocks were sected by the surmises regarding the fate of legislation from which they would benefit. The weakness of the Virginia Carolina chemical stocks was caused by a proposition to issue preferred stock for repayment of a large floating debt. The bank statement showed a smaller loan expansion than expected, so that the cash increase went further to enhance the surplus of reserves, but the market sold off after the publication of the bank statement and closed easy at the lowest. Prices on Board of Trade.

CHICAGO, April 18.—Acting as if innoculated with a selling fever wheat traders today took growing weather in Kansas as a pretext to force a decline. July wheat shows a net loss of 140% c. Corn is down 14% c. oats are off 140% c and provisions 74% in 14% c. July opened unchanged to 4c lower at 85% 25% c. The close was weak, with July at 85% 25% c. The close was weak, with July at 85% 25% c. May sold between 32c and 22% c and closed at 52% c. Clearances of wheat and flour were equal to 21,200 bushels. Primary receipts were 21,500 bushels. Primary receipts were 21,500 bushels, againt 33,300 bushels a year ago. Minneapolis, Duluth and Chicago reported receipts of 135 cars, compared with 132 cars last week and 190 cars a year ago.

Corn at the opening was comparatively firm, considering the easier tone in wheat. But sentiment soon changed and prices started downward. After opening 1,45% of cand 50% 25% and closed at 25% c. Local receipts were 57 cars, with 35 of contract grade.

Oats withstood the weakness of other grains for a time. As the session advanced weakness developed and the close was near the bottom. July opened a shade to 1,65% and 1,56% c and 25% c and 2

bank statement and closed easy at the lowest.

The Kansas state report on wheat conditions weakened the wheat market by indicating a more favorable condition than that reported by the government. A published report of a determination to stop improvement work on the Pennsylvania system attracted attention, as did a statement that steel orders booked by the United States Steel corporation for 1904 amounted to but 1,000,000 tons. The bond market was relatively firmer than stocks, but was dull. Total bond sales, par value, 1975,000.

NEW YORK, April 16.—DRY GOODS—
Dull and apathetic, with little interest displayed by buyers even at reductions in price, which have been the order of the aday for some time. The curtailment at Fall River and in other centers is argued by sellers as a builish influence, but It is too early to observe any results of this shutting down of mills as yet. Defers Sentence of Mrs. Botkin.

SAN FRANCISCO, April 16.—Superior Judge Cook today postponed for two weeks the formal sentence of imprisonment for life of Mrs. Cordella Botkin for the murder of Mrs. John P. Dunning. The delay was granted to afford time for the preparation of a transcript for exceptions made by the defense which will be used as a basis for a motion for a new trial at the time sentence is imposed.
