PLEADS FOR CLEAN STREETS Mayor Asks Butiness Men to Ch p in and

Help the City. COLONEL BAKER SETS OUT HIS VIEWS

Reviews Controversy with Councilmen Over Disposition of City's Contribution to the County

Road Fund. At the meeting last night of the roads and streets committee of the Commercial olub Mayor Macrae made a plea for the -operation of the committee and every nember of the Commercial club in the effort to keep the streets of the city clean. He spoke of the small amount of money vallable for street work and suggested that the business men subscribe a small sum each month to create a fund for the employment of five or six men to keep the streets clean in the business center of the city. These men, he explained, need only be employed for six months in the year and the expense to the individual business man would not be more than 50 cents or \$1 a month. He told also of the orders issued the police to notify merchants to remove all obstructions from the sidewalks and hinted that a more strin-

erning these matters would be introduced the city council in the near future. Chairman Baker of the Board of County Supervisors, who is also chairman of the roads and streets committee of the Commercial club, gave his version of the law governing the expenditure of the county road fund, especially that portion raised winter by taxation within the city limits, and day explained why it was that there had invariably been more or less friction between him and the city council over the disposition of this portion of the read fund. According to Colonel Baker, this friction had resulted from what he termed the extravagant demands made by the city aldermen. Chairman Baker told of what he expected to do this summer in the matter of improving the main thoroughfares into the city and suggested that a portion of the city's share of the road fund be xpended upon the road to Lake Manawa. expended upon the road to Lake Manawa.
