evolution of the silk industry. RAW SILK was first made by the Chinese about 150 B. C. It was first brough from India to Europe in 24 and was worth its weight in gold. Silk was introduced into Europe by some monks in 500. Silk dresses were first worn in Paris in 1432. WINSLOW TAFFETA was first made in 1835 in United States of America. The silk that will beat it has yet to be invented. HAYDEN BROS, are the Omaha agents.

Six Hundred and Sixty Good Enough to Get Him the Honor and What Went with it in 3 Cash.

The first state tournament under the auspices of the Omaha Bowling association came to a Garrison finish last night, when the Colts butted in and knocked the bottom out of the big leading score made by the Omaha team on the first night of the pins, less than one frame. It was not such a big beat as it might have been, but it was large enough to carry off the big end of the tournament and cause a lot of noise on the part of the winners. While the Organas are not made of the squealing kind of stuff and do not want to belittle anybody's victory, they cannot be blamed for mentioning the fact that they bowled against entirely new pins, while the ones banged by the Colts had been used for three days. Marks was an easy winner in last night's individual contest with a total

enman Two-Men Teams. tournament by the narrow margin of nine BUCK KEITH TO MANAGE TEAM

Comers and Wants Players.

HOT SPRINGS, S. D., April 18—(Special.)
—The people of Hot Springs are becoming considerably interested in base ball. At a meeting of a number of the leading citizens of the place a company was organized by the election of officers and a subscription paper was started to raise funds for a good team for the season. "Buck" Keith was engaged as manager and has begun work upon the grounds to put them in condition for starting games by May 1. About \$2,500 has been subscribed for fixing up the grounds, purchasing uniforms and getting the team together.

Hot Springs has not had a distinguished team since 1891, and proposes this year to put a team in the field that will defeat all comers. It is planned to have games with Deadwood, Lead, Fort Meade, Rapid City, Fort Robinson, Chadron, Alliance and any other places that may feel disposed to play. "Buck" Keith, the manager, has gone to Omaha to secure a few playera, who, with local talent, will make up the team.

Y. M. C. A. BOYS' INDOOR CONTEST Third Annual Event Sees Some Good

Performances by Lads. The third annual indoor athletic meet of the boys' department of the Young Men's Christian association was held last night in the association gymnasium and very senerally attended by the parents and friends of the participants in the various events. Naudo Wolf of the Business boys won the gold medal and first place, and Elmer Clark of the High school boys the

silver medal and second prize. Strilley of the Elementaries got the bronze medal and third place. The scores made by the three boys were 19, 16 and 13 points, respectively. Secretary Willis presented the medals and made a neat little speech in connection with the operation. Elwood Bailey was referee and Mr. Orange and Dick Patterson judges. The following were the events and scores made by boys between 14 and 17 years old:

For the first time in many years the Industrial school for Girls, or State Reform school, at Mitchellville, has to record the escape of three of the inmates. Last night about midnight they quietly took their departure from the school. As there is little but moral sussion to restrain the giris, and guards and fences and such things are dispensed with, there was no difficulty in the girls getting away. Those who escaped were Edna Russell of Sheldon, aged 14; Jennie Stead of Gienwood, aged 17, and Hattie Shepherd of Musca tine, aged 18. The three removed a cold air register from their room and siid down through the opening to the basement of the cottage, thence leaving through a window. In this way they got away without anyone suspecting their absence until
