STATEHOOD BILL IS PASSED

House Measure Provides for New Oklahoma and Arizans.

FOUR TERRITORIES FOR TWO STATES

Oklahoma and Indian Territory and Arizona and New Mexico Are United Under the Joint Bill.

WASHINGTON, April 19.—After a debate extending through the entire session the house today passed the bill providing for joint statehood of Oklahoma and Indian Territory under the name of Oklahoma, and of Arizona and New Mexico under the name of Arizona.

Following a brief explanation of the bill by Mr. Daisei, Mr. Williams (Miss.), the minority leader, charged that the bill was but a pretext to stay the demand of the territories for admission.

He expressed the opinion that the republicans had no idea of passing the bill in this session, or in fact any idea that it will pass at all.

In opposing the bill, Mr. Moon (Tenn.) declared that the bill was an intensely wicked and partisan measure which, if passed, would violate the pledged faith and honor of the United States to the five civilized tribes of Indians in the matter of treaty obligations.

Denying that the republicans had been guilty of bad faith, Mr. Daisei said the bill would take its course as a party measure. He justified the measure on the ground that "we are endeavoring to sustain the relative power of the senate and house of representatives in legislation."

Mr. Powers (rep., Maine) defended the bill, which he said finished the only solution of the statehood question, and the only prospect of passing the present congress.

ARMY BILL PASSES THE SENATE

Mr. Bailey Supports Amendment for Fine Architecture.

WASHINGTON, April 19.—The question of additional accommodation in the way of office and committee rooms occupied the attention of the senate the greater part of the day.

The question arose in connection with the provisions in the civil appropriation bill, one for an extension of the east front of the capitol building in accordance with sketches left by Architect Walters, and the other for an outside senate office and committee building.

Much variety of opinion was expressed and the question was still under discussion when the senate adjourned.

Mr. Morgan presented a memorial from missionaries located in the Congo Free State, praying for an investigation into the unsatisfactory condition of the natives and the American citizens in that country.

In connection with it a resolution referring the question to the committee on foreign relations, with instructions to investigate and report to the senate. The resolution was agreed to.

The conference report on the army appropriation bill was agreed to, which passes the sundry civil bill was laid before the senate and its reading concluded.

Several minor amendments suggested by the committee on appropriations were adopted, among them the following:

Appropriating \$25,000 to enable the United States to participate in the international exposition of 1904, appropriating \$50,000 for a railroad map of the United States to be made and printed by the War Department.

The amendment providing for the erection of an office and committee room building for the use of senators was opposed by Mr. Barry, who said before it could be completed the building would cost not less than \$450,000, or \$500,000 each for the members of the senate.

He pronounced "a piece of extravagance which surpassed anything he had ever seen offered in the senate."

Mr. Bailey supported the amendment. He said that Mr. Barry's comment as to the cost of the proposed building might be applied to the capitol. That building had been erected for the congress as a whole, and he considered the best none too good in the way of accommodations.

He did not want Oriental magnificence, but he did want splendid buildings. Senators in Washington should not live in huts nor stop at wagon yards; nor should they have their offices in inaccessible portions of the capitol. He said the senate annex, now used for senatorial offices, was a fire-trap.

MORE RAILWAY SERVICE CLERKS

Mails Are Delayed on Account of Insufficient Help.

WASHINGTON, April 19.—Through the action of the senate there is a glum of hope that something will be done by congress to relieve the congestion of the railway mail service, which has long existed and which is growing steadily worse.

On account of the lack of public information as to the operation of this service the relief, which is absolutely imperative, has long been delayed. While the government is in some instances paying special premiums to secure a fast mail service by the railroads, and the railroads are speeding their trains for prompt delivery of the mails, extraordinary delays in the service occur through insufficient facilities and an insufficient force of railway mail clerks to distribute the mail in transit.

The trains may leave on time and make their schedule to the minute, but it frequently happens that the car containing the mail, the delivery of which is supposed to be expedited, is left on a siding at Washington or elsewhere because it has been impossible for the small force of clerks in it to sort the mail, separating that which is to go in one direction from that which is to go in another.

Delays of from eight to twenty-four hours occur. A car that ought to be as far as Alabama on its southern route may be on a siding at Washington, not because of any delay in the southern train service, but because there has not been provided a sufficient force of mail clerks to separate from the southern mail that which is to go into Maryland and the east, and the car must be held here until the work has been finished. Apparently the Postoffice department and the railroads are doing what they can to keep the service up to the time, but the business public would be up in arms if it were generally known how bad the service has been and up to the present time is.

Second Assistant Postmaster General Shallenberger said today, however, that with the assurance of relief through a provision in the general deficiency bill for \$50 additional railway mail clerks to carry them along to the end of the fiscal year, in June, and the hope of suitable provisions for an increased force for the succeeding year, the department already had begun the work of improving the service.

Inquiry started that for years, during at least eight months in each year, there has been no complaint on the heavy through routes of the railway postal line the force of men allowed and assigned to

WHAT TEA DOES TO RHEUMATICS.

When you next take tea, think of this. Tea contains 175 grains of Uric Acid in every pound.

Meat contains only five to seven grains. Rheumatism is Uric Acid in the blood. Uric Acid accumulates from food when the digestive apparatus cannot create enough Alkaline elements (like soda) to neutralize it.

This Acid collects urea, or worn-out waste matter, from the system. The tea which is drunk when Alkaline action has not previously dissolved it. By and by the waste matter reaches the joints and muscles, through circulation of the blood.

There it gradually deposits in solid particles like crystalline sugar. These solid particles grind between the joints and muscles at every movement. These in turn may develop inflammation and swelling. That inflammation bestirs Nature's help, and she proceeds to coat the hard Uric particles over with cushions of puffy mucus, like the first healing strata of an outer sore.

This puffy covering grows to the bones, as well as the particles deposited. These it hardens like plaster or sealing wax. Then we have "bony joints," almost inflexible, and usually fixed in a bent position, from the pain and inflammation.

That is Rheumatism at its worst. It is a grand hardship before it gets that far. There is but one sure way of curing Rheumatism. The first step is to neutralize the Uric Acid already in the system. Next, to dissolve, and carry away, the hard deposits that grind between the joints. Then the diet must be such as to create such healthy condition that it will, unaided, produce less Uric Acid, and more Alkaline.

This is what doctors generally have failed to do.

It is what I studied a lifetime to accomplish, and achieved only after many failures and thousands of experiments.

At last I found, in Germany, a solvent which was not only effective, but absolutely safe to use.

Few agents powerful enough to be effective in Rheumatism.

My discovery, now called "Dr. Shoop's Rheumatic Cure," acts directly, but internally, upon Uric Acid in the joints and muscles.

It dissolves, and carries off, the painful deposits that form the cause of the condition of the blood, and neutralizing the Acid in it which would have fed the Rheumatism and extended the disease.

It won't restore bony joints to flexibility, and it can't undo, in a week, the damage caused by years of rheumatic condition.

But it will benefit every case, and it will entirely cure most cases of Rheumatism.

So sure am I of this, that I will supply Dr. Shoop's Rheumatic Cure, to any sick ones who writes me for it, on a month's trial, at my own expense.

If it succeeds, the cost to him is only \$5.00 for the six bottle treatment.

If it fails, I bear the whole cost myself. And he alone shall be the judge—shall order a refund of his money.

Surely you will not continue to suffer when you can thus get well, at my risk.

Write me a post card for my trial.

Address, Dr. Shoop, Box 5778, Racine, Wis. P. S.—Simple cases often yield to one bottle of Dr. Shoop's Rheumatic Cure. (Druggists sell it.) But all druggists do not supply it on a month's trial. You must write to me for that. C. I. S.

work in these cases would be able to finish the work on the way and get to the depot with their mail sorted for delivery, and that in consequence of this thousands of sick-of newspaper and letter mail have gone into terminals undistributed and been thus delayed seriously, notwithstanding the fact that the work of sorting mail, performed by the railway postal clerks.

Care are, therefore, held in the depot to have the mail made up, leaving on some train half a day or more later, when they ought to go directly through. The fast mail train, which is supposed to be of benefit to mails which are sidetracked where the first trains leave.

WEATHER BUREAU CROP REPORT

Winter Wheat Has Made Good Progress in Nebraska.

WASHINGTON, April 19.—The weather bureau's weekly summary of crop conditions is as follows:

Over the southern part of the Rocky mountains the week ending April 19 was unusually cold and very unfavorable for the growth of winter wheat. However, in the Missouri valley and in southern and middle Atlantic states made very good progress. In the northwestern districts practically nothing has been done. The states of the upper lake region were covered by snow to a considerable depth during the latter part of the week and the morning of the 19th. The snow was four to six inches deep in the northern portion of the Gulf states.

Prospects for planting corn have been active over favorable conditions in the Missouri valley and middle Atlantic states. In the Ohio valley and over the great western wheat belt, winter wheat has made good growth, but the ground is very dry.

Over the southern portion of the spring wheat region the seeding of spring wheat has been actively carried on and is nearly completed. In Nebraska and southeastern South Dakota, but in North Dakota and Minnesota the seeding has not been done. Seeding has also been in active progress on the north Pacific coast, about the area in Washington having been sown.

In the central Mississippi and lower Missouri valleys the crop has been active and in well advanced, having been finished in Kansas. The early start in the Ohio valley very slow progress with seeding. In the Ohio valley and over the great western wheat belt, winter wheat has made good growth, but the ground is very dry.

Fruit has experienced a week of trying conditions throughout the central valleys and middle Atlantic and southern states. The weather has been very dry and the ground has been done by frosts and freezing temperatures.

TESTIMONY AGAINST JUDGE SWAYNE

Yale Professor Tells of Questionable for the small force of clerks in it to sort the mail, separating that which is to go in one direction from that which is to go in another.

WASHINGTON, D. C., April 19.—John Wurtz, a professor in the law school of Yale university, gave testimony today against Judge Charles Swayne before the subcommittee of the house committee on the Judiciary, which is now examining Prof. Wurtz tomorrow.

As to Judge Swayne's reputation in Jacksonville Dr. Wurtz said:

"Judge Swayne's reputation in Jacksonville was that of a judge who was inclined to influence and his decisions were governed by other considerations than the law and the evidence."

The witness testified that Judge Swayne had a private car of the Jacksonville, Tampa & Key West railway, and he disposed for something like two years during the receivership of Mason Young, who was appointed by Judge Swayne.

According to Prof. Wurtz, the Florida Central and Peninsular railroads furnished Judge Swayne a private car for himself and party to go to the Pacific coast. This trip caused much scandalous talk in Jacksonville, and the witness said on his return Judge Swayne told him that he was the provisioning of the car.

The appointment of John King, a young man without legal knowledge or training, as master in chancery in a pending suit, involving the Florida Southern railway, was another of the accusations brought forward by Prof. Wurtz against Judge Swayne.

RUSSIA STARTS SOMETHING

Its Notice Regarding Wireless Telegraphy Causes Cabinet Ministers to Think.

GOVERNMENT MAY CONTROL ALL PLANTS

Matter Discussed at Length in Meeting Today, but No Debate Action is Decided Upon as Yet.

WASHINGTON, April 19.—The most important matter considered at the cabinet meeting today was that looking to the control by the government of wireless telegraphy. The subject was broached by Secretary Hay in connection with the communication received recently by this government from Russia.

The discussion finally drifted to the expression of an opinion that it would be desirable, if not, indeed, absolutely necessary for this government to control, at least in a supervisory way, the operation of wireless telegraphy, particularly along the coasts. Stations for the receipt of wireless messages are springing up at various places along both the Atlantic and the Pacific coasts. It was pointed out that in event of a war with a foreign nation it might be necessary in defense of the nation for officers of these stations as a means of assurance to the government that no communication was carried on with the enemy.

Thus far wireless telegraphy has not figured in international affairs and no communications covering its use have been considered. It is believed that sooner or later the thing will be brought up by diplomatic circles to reaching an international agreement upon it.

The discussion today was tentative in a measure and no definite decision was reached. It is likely, however, that in the near future some action will be taken that will result in a proper government supervision of the wireless system of telegraphy.

Protests Against British Action.

James Dietrich, manager of an American mining company operating in Nicaragua, has lodged with Secretary Hay a vigorous protest against the action of the British government in sending the warship Retribution to the Mosquito coast to coerce the local Nicaraguan officials, as he alleges. The State department has taken the protest under consideration.

WANT SENATOR SMOOT REMOVED

Daughters of American Revolution Adopt Resolutions.

WASHINGTON, April 19.—The laying of the corner stone of the Memorial Continental hall in this city, a protest against the continuance in office of United States Senator Hiram S. Swope, and the defeat of two proposed constitutional amendments to regulate two local controversies to intermediary boards were today's features of the Congress of the Daughters of the American Revolution.

The following resolution, offered by Mrs. William S. Little of Rochester, N. Y., state regent, was adopted by a standing vote, only one delegate, Mrs. Ida Husted Harper of California, dissenting:

"Whereas, the Mormon church teaches and many of its leaders defiantly practice polygamy, which is a crime against the government and the United States and against the dignity and honor of women, the destruction of the home, which is the bulwark of the nation's safety and the source of its strength, and whereas, an apostle of the Mormon church is guilty of the teachings of the organization,

We, the Daughters of the American Revolution, in congress assembled, in the city of Washington, D. C., April 19, 1904, representing more than 40,000 patriotic women of the United States, who have revered ancestors fought and died to create this nation, most earnestly protest against the continuance in office of the Mormon church in an official position in the United States, as by reason of its position in this country it is a source of national dishonor and should be disqualified from holding a seat in any legislative body of this country.

Copies of the resolution will be sent to the senate committee on privileges and elections.

The Memorial hall ceremonies occurred late this afternoon. Addresses were made by Mrs. C. W. Patterson, the president general, and by the surviving founders of the organization.

AUDITORIUM CHORUS STARTS

Over Four Hundred Voices in the First Rehearsal of the Jubilee Singers.

The first meeting of the chorus for the Innes concerts proved to be a gratifying success last night. The chorus met in the fair assembly room on the fifth floor of the city hall and when Mr. J. H. Simms and Mr. Ben Stanley, directors of the chorus, called the assemblage of singers to order there were over 400 present.

Mendelssohn's "Hymn of Praise" was the piece presented for rehearsal, and despite the fact that only about 200 books had arrived, the singers made excellent progress for the first rehearsal. Mr. Stanley wielded the baton and Mr. Simms presided at the piano. They were well pleased, not only with the rehearsal, but with the fact that only about 200 books had arrived, but with the excellent quality of a very large proportion of the voices.

"This is a gratifying surprise to me," said Mr. Stanley. "I had hardly expected so large an attendance the first night. This is a large chorus and a good one, and we shall be able to achieve results that will undoubtedly delight the people of Omaha and Bandmaster Innes."

Another supply of books will be on hand before the next rehearsal and the work will soon be well under way. It seems safe to predict that this great chorus, in connection with the Innes band, is destined to make one of the greatest hits of the concert season, which is to mark the opening of the Omaha Auditorium.

EVENTS ON THE RUNNING TRACKS

Sprint of Six Furlongs is the Feature at St. Louis.

ST. LOUIS, April 19.—A sprint of six furlongs, in which the best sprinters at the fair grounds were entered, was the feature of the racing card today. Frank Bell got off in front and just managed to last long enough to beat the field. The winner came from behind with a rush on the end.

First race, four furlongs, 2-year-olds, selling: Animus won, Dotage second, The Doctor third. Time: 1:47.

Second race, six furlongs; Tally H. won, One More second, Lady Vanst third. Time: 1:55.

Third race, one mile; Charley Thompson won, Fry Bennett second, Bugchorn third. Time: 1:44.

Fourth race, six furlongs, handicap: Conroy won, Black Water second, Autumn Leaves third. Time: 1:44.

Fifth race, five and a half furlongs, purse: Dallas won, Louisa second, Debbie May third. Time: 1:56.

Sixth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

APRIL 19—Results: First race, four and a half furlongs; Dundall won, Woodlawn second, Lieutenant Rice third. Time: 1:34.

Second race, seven furlongs, selling: Stella Knight won, Jeannette second, Henry of Franstamar third. Time: 1:34.

Third race, one mile; Orfeo won, Coruscate second, Black Water third. Time: 1:45.

Fourth race, seven furlongs; Bob McLean won, Louisa second, Debbie May third. Time: 1:56.

Fifth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

Sixth race, six furlongs; Tally H. won, One More second, Lady Vanst third. Time: 1:55.

Seventh race, one mile; Charley Thompson won, Fry Bennett second, Bugchorn third. Time: 1:44.

Eighth race, six furlongs, handicap: Conroy won, Black Water second, Autumn Leaves third. Time: 1:44.

Ninth race, five and a half furlongs, purse: Dallas won, Louisa second, Debbie May third. Time: 1:56.

Tenth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

Eleventh race, four and a half furlongs; Dundall won, Woodlawn second, Lieutenant Rice third. Time: 1:34.

Twelfth race, seven furlongs, selling: Stella Knight won, Jeannette second, Henry of Franstamar third. Time: 1:34.

Thirteenth race, one mile; Orfeo won, Coruscate second, Black Water third. Time: 1:45.

Fourteenth race, seven furlongs; Bob McLean won, Louisa second, Debbie May third. Time: 1:56.

Fifteenth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

Sixteenth race, six furlongs; Tally H. won, One More second, Lady Vanst third. Time: 1:55.

Seventeenth race, one mile; Charley Thompson won, Fry Bennett second, Bugchorn third. Time: 1:44.

Eighteenth race, six furlongs, handicap: Conroy won, Black Water second, Autumn Leaves third. Time: 1:44.

Nineteenth race, five and a half furlongs, purse: Dallas won, Louisa second, Debbie May third. Time: 1:56.

Twentieth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

Twenty-first race, four and a half furlongs; Dundall won, Woodlawn second, Lieutenant Rice third. Time: 1:34.

Twenty-second race, seven furlongs, selling: Stella Knight won, Jeannette second, Henry of Franstamar third. Time: 1:34.

Twenty-third race, one mile; Orfeo won, Coruscate second, Black Water third. Time: 1:45.

Twenty-fourth race, seven furlongs; Bob McLean won, Louisa second, Debbie May third. Time: 1:56.

Twenty-fifth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

Twenty-sixth race, six furlongs; Tally H. won, One More second, Lady Vanst third. Time: 1:55.

Twenty-seventh race, one mile; Charley Thompson won, Fry Bennett second, Bugchorn third. Time: 1:44.

Twenty-eighth race, six furlongs, handicap: Conroy won, Black Water second, Autumn Leaves third. Time: 1:44.

Twenty-ninth race, five and a half furlongs, purse: Dallas won, Louisa second, Debbie May third. Time: 1:56.

Thirtieth race, one mile and seventy yards; Lord Haven won, Lynch second, Ryevale third. Time: 1:47.

FORECAST OF THE WEATHER

Showers for Nebraska and Kansas and Fair and Colder
