FORTY CARS VOLUME OF CASH BUSINESS

Weather Too Cold for Wheat Growth and Poor for Germination-Kill-

ing Frosts Do Some Damage.

OMAHA, April 21, 1904.

More spot grain changed hands this morning in the grain exchange than has heretofore been the case. The cash business
amounted to something more than forty
cars. This would seem to show two things—
that the corn is not all out of the farmers
hands and that the Omaha market is in
line with other markets, and a little more
than in line. The speculative business on
the other hand was of very little amount.

The week has been too cold for wheat
growth and poor for germination, but fairly
good for farm work. Killing frosts did
damage in the Ohio valley last night and
at Springfield, Ill. The rains in Kansas
Wednesday and today are the principal
matter of consideration in the wheat pits
and led to consideration in the wheat pits
and on busines of the year should naturally get back to the fules of supply and
demand. Armour is believed to have concluded his May operation, but no one is
sure. Valentine bought, 500,000 bushels of
May, Wednesday. The poor quality of the
contract corn still disturbs the market.
The Nebraska City elevator in Chicago has
been declared irregular by the board of
directors over the grading of corn. It
holds \$20,000 bushels of No. 2 corn, 64,000
bushels of contract whent and 19,000 bushels
of corn. Liverpool was \$40 lower on wheat
and \$40,000 bushels of No. 2 corn, 64,000
bushels of contract wheat and 19,000 bushels
of corn. Liverpool was \$40 lower on wheat
and \$40,000 bushel

that it is not affected by American speed ness.

The May wheat opened almost a cent stronger than Wednesday's close and eased off from 20% to 89% c, and later recovered to the half. New July ouened at 85% c, broke to 34% c, and returned by noon to 85% c. May corn ranged from 20% to 65% c and at noon stood 49% c.

The range in prices of Omaha grain for future delivery and the close of Wednesday and today were as follows:

The sample tables were piled high with corn this morning and the brokers and elevator men were busy in buying the spot stuff. Large as were the offerings, more would have been taken if it had been for sale. The price showed considerable range according to quality of the corn, and the market ruled from strong at Wednesday prices to 1½c up. Receipts were: Wheat, a cars in and le cars out; one week ago, 3 cars in and 10 cars out; one week ago, 2 cars in Corn, 39 cars in and 19 cars out; one week ago, 36 and one car. Prices on Board of Trade.

CHICAGO, April 21.—Paucity of receipts northwest and persistent reports of damage southwest caused a firm close here today in wheat. Compared with last night July wheat is \$60\text{4c}\$ bigher; corn is up \$50\text{4c}\$ and oats are off \$400\text{4c}\$. Provisions show a gain of 7\text{4c}\$60c. Under the influence of decreased receipts in the northwest wheat opened firm, July at \$50\text{85}\text{3c}\$. A leading factor throughout the early trading was the strength of the northwestern markets. Commission houses reported more outside huying orders than for several weeks. Houses with northwestern connections were buyers on damage reports from the southwest.

Minneapolis reported good prospects for Minneapolis reported good prospects for large sales. On a late decline in corn there was some realizing in wheat, which resulted in July selling down to \$4\fmathbb{A}c. Dut subsequent covering by shorts worked the price up to \$5\fmathbb{A}c. The market closed firm. May sold between \$9\fmathbb{A}c and \$9\fmathbb{A}c and closed at \$9\fmathbb{A}c. Clearances of wheat and flour were equal to 157,100 bushels. Primary receipts were 184,000 bushels, against 245,000 bushels a year ago. Minneapolls, Duluth and Chicago reported receipts of 104 cars, against 137 cars last week and 141 a year ago.
