Old Contract Not Signed by Employers for Coming Season and Union Votes Walkout is Only Recourse.

By almost a unanimous vote at a meeting Friday evening, Painters, Decorators and Paper Hangers' union, No. 109, agreed to walk out. About 230 men are affected by the action of the union. The member ship is larger than this, but at present about thirty-five members are out of the

Members of the union say the cause of the strike is the refusal of the employers to elan an agreement to continue the old conditions in force, or to even agree, without signing a contract, that the same conditions will continue through the coming season. Secretary Russell of the union

"All we asked for or wanted was a declaration from the employers that the old conditions would be continued through the coming year. This was refused us, and consequently there was nothing left to do but strike. We are not asking for an increase in pay or any change from what we have been getting. The men are perfectly satisfied with matters as they have been progressing, but we must have some assurance that the same conditions are to continue.

Henry Lehmann of Henry Lehmann & Sons, 1305 Farnam street, said he had nothing to give out concerning the matter, with the exception that he understood a strike had been declared and that there was to be a meeting this atternoon, at which the matter would be taken up.

T. J. Beard of T. J. Beard & Bro., 1410 Douglas street, said the employers had refused to sign the scale and that there is a strike. That was all he cared to say concorning the matter.

Peter Jensen of Rutherford & Jensen, 514 South Sixteenth street, said the men in the employ of his firm had gone out, but he knew nothing concerning the matter. He disclaimed all knowledge of a proposed meeting of the employers and said that if

At the wall paper department of the W. R. Bennett company the manager said so far as he know the men employed by the firm are working. He said the foreman had charge of the men and his instructions were to employ only union labor, and it was the supposition that the contract had been signed by the foreman and the matter thus disposed of. The manager had heard no talk of a strike except from out-

side sources. Secretary Russell of the union says that he has a letter from St. Louis requesting that all the men who can be spared from this city be sent there at once to work on the World's fair buildings. About twentyfive men already have gone and it is understood that in case the difficulty continues nere a large number will leave for the World's fair city. The wages offered is 50 cents an hour, with double pay for overtime. Men are called there at these terms by want ads in local papers.

"We do not wish any trouble and everything in our power has been done to avoid strike. We have not struck because we are vindictive, for we are not. So far as we have been able to discover, the employers do not seem to have any valid objections to renewing the contract. We understand they simply passed a resolution in their meeting that the contract would not be renewed."

All difficulties have been adjusted with the South Omaha employers and the contracts have been signed up. All the men are working there and everything seems to be moving in a satisfactory manner.

BOYS HOLD UP IRON BUYER

Youngsters Pounce Down on Junk Dealer to Get Their Nickel's Worth.

Lehman Stevens and Preston Harbon, ested on complaint of Louis Winthrob harging petit larceny, have been released in police court to appear for trial Saturday morning, April 30.

The crime with which the boys have been charged is unique in the annals of local inality. According to the stories told the boys saved up a lot of scrap iron during the winter months with a view of having enough money to start the marble season without embarrassment. About a week ago Louis Winthrob, the complainant, happened ong in the boys' neighborhood, near lower olas street, with a wagon and proclaimed in loud tones his desire to buy old iron for cash. The boys were immediately there with the goods, which were weighed by Winthrob and a certain sum agreed on. According to the allegation of the boys, however, the man with the wagon failed to keep his end of the bargain to the extent | quickly it relieves the pain. of 5 cents. The issue was accepted for the time being by the boys, but it appears Winthrob reckoned without his host.

The youngsters got their heads together with the heads of four of their gang and the result was the next time the old iron man came that way there was an unsettled grievance to be met.

Winthrob made his rounds on lower Nichclas street bright and early a few mornings

> The contract for grading the lots on which will stand the new Kountze Memorial church and for removing shrubbery and trees has been awarded to the Jackson Grading company. It will begin work at once, and in about two weeks it is expected the ground will be ready for the brick workers. The church trustees have as yet made no contracts for construction work, but intend to do so in the immediate future. The church probably will be built of light colored Carthage stone.

The work of destruction of the old building is rapid. The roof and inner ceiling have been removed and only the largest beams of these remain. The G. Campbell Morgan meetings in the First Methodist Episcopal church close Sunday evening. There will be the morning and evening services for the general public and the afternoon service for the Young Men's Christian association. The church has been filled throughout these evangelical meetings, even on afternoons and evenings when the weather was against church going. Mr. Morgan is a very successful evangelist. There is nothing of the old time "fervor" which was intended to work on the emotions of the congregation and which brought the sinners to the bench without any intellectual conviction. Mr. Morgan has been pleasing to his hearers for two reasons. He has studied the Bible thoroughly and all matters pertaining to his subject, so that he knows of what he preaches and makes the congregation know that he knows. The second reason is that he has the power of selection and the instinct which leads him to choose the right words to convey his exact meaning to all his hearers.

It is reported that Rev. R. M. Dillon will leave Omaha. He has been pastor of Clifton Hill Presbyterian church for a considerable time and it is understood he leaves now because the church is unable to raise the necessary money for yearly expenses. It is not known just when he intends leaving the city or where he will go, but he has been arranging to dispose of his house.

The last of the musical services in All Saints' church will be given Sunday afternoon. The choir will combine with the choir of St. Paul's church, Council Bluffs, and will render Dudley Buck's cantata, "Christ the Victor." This is the last of a series of church cantatas by this composer entitled, "The Christian Year," and treats of events from Good Friday to the ascension. The solo and quartet parts will be taken by Misses Barr and Porterfield, Mesdames Jennison and Banford and Meesra. Wheeler and Haverstock. Mrs. Guy Shepherd, organist of St. Paul's church, Council Bluffs, will be at the organ and Mr. Simms will direct. In the evening the two choirs will repeat the cantata in St. Paul's church, Council Bluffs.

The anniversary of the debt paying of the First Methodist Episcopal church is approaching, May 17 being the day, and at that time the third installment of \$8,000 will become due. The call will be issued on May 15, but the directors hope to have collected by that time all that is still due on the second payment. Sunday morning a class of probationers will be taken into full connection. All those whose time has expired will meet at the chancel and receive complete membership. The Aid society held a special business meeting Friday afternoon before the Morgan meeting Of the general conference the Guidon of the First church says:

when it is all over we shall perhaps be surprised to find how little the general conference has done and how generally stable the old policy and constitution of the church remain. The general conference is a pretty good safety valve. Most of what escapes is steam; metaphorically speaking, gas; and saves many an ardent soul from explosion or asphyxiation. But there are some things that could be changed for the better: Remove the probationary term; restore the time limit, with exceptions; consolidate the book concern; consolidate some of the benevolences; elect younger men to the episcopacy and select them from the pastorate.
