> The Omaha Woman's club is wrestling with the child labor question. There are two sides to that question, just as there are to all other questions. It is easy to pass resolutions, but it is another thing to put them into effect. It is much easier to resolve that children traffic, as the present subway has been under the age of 16 should not work between the hours of 7 p. m. and 7 a. m. than it is to carry out the resolution where necessity knows no law, as, for example, when a widow with a large family is obliged to depend upon her boys and girls over 12 to render such assistance as they can to keep the children below that age well fed, well clothed and at school. It has not been considered a terrible hardship either for in the summer time to do such work in a house, store or factory, as must be done prior to the regular working hours. It is easy to resolve that boys and girls under 16, who cannot read and write English, shall not be allowed to earn a livelihood for themselves or their parents, but it is another thing to compel a man with a family of six children, the eldest of whom is below 16, to maintain that family, when he is only earnforced idleness. It would be quite a problem for the Woman's club to figure clothe a family of eight on \$1 a week each and pay occasional druggist's bills and doctor's bill, besides contributing a mite to the church and to the coal man.

The new subway will be constructed at a lower level than the one now nearly completed. At some points in its course it will pass under the present subway. Where it crosses the Pennsylvania Ralifond company's tunnel it will pass over it. It will be constructed, however, without disturbing the surface doing; and as it will be excavated at a much lower depth in the formation of Manhattan island, it is not liable to disturb the foundations or imperil any of the large buildings erected on the route, which was one of the main difficulties that had to be

overcome in the present subway. The difficulties of the transportation probem in New York City are increased by the fact that the major part of 1,000 persons must be moved one way in the early part of the business day and in the opposite direction at its close. Besides, the operation of the surface roads is constantly in boys or girls over 12 to get up at 5 terrupted by the blockades created in the business quarters by loaded trucks and other vehicles employed in the handling of merchandise. short-weight coal man, and if the rapaclous ice man can be subdued this summer and the landlord made to be content with three-quarters of one's income, happiness in the metropolis may be a possibility. Official and public scales to the number of thirty-eight have just been espassed by the Board of Aldermen. The ordinance provides that every purchaser of coal has the legal right to send it to any of the scales to be weighed, provided the scales shall not be more than onehalf mile distant from the place of loading or of delivery. After the loaded vehicle is weighed and the coal delivered the driver must take the empty vehicle back to the scales to be weighed, and the weighmaster will then send a certificate of the weight to the purchaser of the coal. It is intended to take legal steps against any dealer found giving short weight.

In New York City, during the fiscal year ending last June, the New York postoffice including Branch H, received 1,354,902 sacks of fully made up mail, or 4.328 sacks for each working day in the year, which the postoffice merely received at the door and ent away intact

Statistics for the month of June show that the New York postoffice received 108,-892 sacks of fully made up, a gain over that month of the previous year of 15,836 sacks. During a single month forty-two publications in New York City sent in over 1,000 sacks each. This amounted for the whole to 109,886 sacks, of which 83,435 macks were fully made up and 2,472 sacks mixed, The vice presidential candidacy of John J. the latter being about 3 per cent of the whole, and the fully made up 75 per cent of the whole.

Male stenographers and typewriters are all but extinct in New York. At all the agencies where this class of skilled labor s employed it is agreed that the demand women is constantly growing, while the call for male stenographers steadily grows less. For purely mechanical work it has been found that the girl typist is the better and the cheaper. Few young men who take jobs at this work expect to make a life work of it, while, on the other hand, many women who have abandoned thought or hope of matrimony have settled down to make themselves indispensable to an office. Still, the business of stenography holds out many chances to the ambitious youth. He may become private secretary to some great man, and from this post the rise to success is easy. Many of the big corporation officials have begun as stenographers and worked their way to the top.

It proved to be a case where vicious animosity actuated the prosecutors, rather than a desire to do the proper thing. They cared not for justice; they would ruin a man and his family in order to make themselves appear to be honest and acting with an honest motive. Many newspapers joined in the crusade against Dietrich, not waiting for evidence. ROOSEVELT A MAN OF IDEALS.

They Are Cherished with Fervor and Tenaciously Maintained. New York Times (Ind.).

"Ideals" Roosevelt has. They are high and they are cherished with fervor and tenacity. It would be unfair, and, in his opponents, it would certainly be unsafe to ignore that fact. They lend to his course the sustained force of something like fa naticism, strengthened, not repressed, by the capacity for political combination. One trait runs through most of his public career. It is the depth and constancy of his conviction that the attainment of his ideals, the accomplishment of his hopes for his country, the guidance of his nation toward great future are intimately connected with, if not dependent on, his own leadership. That is a feeling strong and efficient men have often entertained. Few have been so puzzlingly candid in its manifestation. Not many have been so persistent and on the whole so successful in gathering a following of men who practically share the conviction. For it must be acknowle edged that by the side of the large number of active politicians in the various states whom he has attached to his fortunes through persuading or forcing them to se that their own fortunes are linked with his, Mr. Roosevelt has also a considerable number of personal supporters, many of them of pronounced ability from different walks of life, who believe with the utmos sincerity and enthusiasm in the essentia soundness of the man and in the real ele ration of his aims and his motives. One of his most earnest political opponents recently declared of him that the only way to be able to hate the man or greatly to distrust him was to keep away from

be made. Senator Beverldge of Indiana takes great interest in military affairs and while in the Philippines spent much time on the firing line with General Lawton. One day he made a remark of such military aptitude that Lawton said: "Mr. Beveridge, you ought to be a soldier, not a politician. "I should have been in the army," replied the senator, "but I couldn't read aloud well enough." He then explained that he was beaten in his examination for a cadetship at West Point by one-fifth of 1 per cent, his defective oral reading having turned the scales by this fraction against him.

WHEN 'PHONE IS OUT OF ORDER.

San Francisco Bulletin When your 'phone is out of order, and the only voice you know
Is your own, which wildly beliews in the box a fierce "Heilo!"
You can understand the feelings of a murderer, and see
Many mitigating things that might have
happened easily.
Oh, you hop around in frenzy till you're
goggle-eyed and faint—
When your 'phone is out of order—but your
voice and feelings ain't.

When your 'phone is out of order you say many, many things
Which recur in calmer moments like a bunch of adder stings:
As you curse the poor transmitter you forget your solemn perch
On the ladder of Society—a pillar of the Church;
But the Devil listens gleefully, somewhere along the line,
When your 'phone is out of order—but your voice is working fine.

You won't waste a thought on you set from the time you lace your shoes n the morning until you take then off at night-that's real Crosset
