The funeral service over a man who is ot dead came near being held in Keokuk county. Willard Cox of Sigourney received a telegram from Hume, Mo., to the effect that his brother, Columbus Cox, had been killed in a railroad accident. He wired to Missouri to have the body sent to Sigourney, which was done. Preparations were made for the funeral, but when the casket was opened it was found that the dead person was another and entirely different man. Investigation followed and it was found that the only evidence of his identity was a letter in the dead man's pocket addressed to Columbus Cox. How he obtained it could not be determined. It was then found that Columbus Cox is alive and well. The remains are being held for identification further.

Pay Higher Taxes

The reports of the railroad companies being filed with the secretary of the state executive council show that the railroad companies of lows have been compelled to pay much larger sums in taxes the past year than ever before. The reports thus far filed, and these are of the smaller compunies in the main, show that they have paid about 12 per cent, more taxes in Iowa last year than in 1902. This is due to the great increase in assessment the past year. larger lines, which suffered the greatest increase in assessed value, are received, the percentage of increase will be still larger.

Labor Troubles.

It is claimed by union labor officials that not a union carpenter or millman is at The men are said to have reported for work at several places but assert that houses were not there to receive them. The employers have little to say, only two contractors who are members of the associatien claiming to have hands at work. The indications are that the trouble will conthrue for some time.

The rains over the state have been timely in most portions and have been beneficial cording to the weekly crop bulletin from the bureau of climate and crop service. The bulletin says: "Very unsensonably low temperature prevailed the first half of the past week causing nightly frosts and deeply frozen soil, checking germination and retarding field work in the early morn ing hours. "The last three days were warmer and

the week slowed with heavy showers which brought considerable excess of moisture in the central and southern sections "The heavisst amount reported was 2.26 inches for the week at Des Moines. In portions of the state rain was timely and

THE KING OF BLOOD PURIFIERS CC

No remedy ever yet discovered has met with such popular favor as S. S. S. The people everywhere indorse it, and there are few homes where S. S. S. for the blood is not known and used. It is superior in many ways to the ordinary blood medicines. In the first place S. S. S. is a guaranteed purely vegetable compound, made exclusively of medicinal roots selected for their wonderful purifying and tonic properties that act upon the blood, purging it of impurities and restoring it to a healthy natural condition. At the same time, under its tonic effects the general system improves, the sluggish organs are toned up, and renewed strength and vigor and better health'is the result. No bad after-effects follow the use of S. S., as so often happens with blood medicines containing strong minerals, which derange the stomach and digestion and in other ways damage the system. For diseases of the blood, such as Chronic Sores, Rheumatism, Catarrh, Scrofula, Boils and Pimples, Eczema, Tetter, Blood Poisons, and other trou-

You can exist without good blood, but can never be robust and strong; for every organ, tissue and nerve in the body looks to the blood for nourishment, and unless this vital fluid is kept in a pure, healthy state, the rest of the body suffers and the system soon breaks Nature has provided in S. S. S. a remedy for disenses of the blood which long experience and a thorough test have proven superior to all others, and the acknowledged "King of Blood Parifiers."
