## a Menace and Should Be Cured.

The difference between success and failure in business life is due in nine out of every ten cases to lack of phy-sleal manhood. Your growth, your strangth, your ability, your intellec-tual or business capacity, your skill as a workman in the usual business pursuits of life, your popularity with other human beings, of either sex, is all shaken and your future careor blighted if your sexual power is de-pleted. You can't be half a man sex-ually, and a whole man otherwise. A chain is no stronger than its weakest link.
