Himalaya Baby's Neenday Nap.
In cerain parts of the Himalaya mountains the native women have a singular
way of putting their children to sleep in
the middle of the day. The child is put
near a stream of water, and by means of
a palmieaf or a tin scoop the water is
deflected so as to run over the back of
the child's head. The water pouring on
the child's head apparently sends it to
sleep and keeps it so, while the mother
proceeds with her work in the fields. No.

NEW YORK, LONDONDERRY AND GLASGOW.

CHICAGO, April 30.—Resterated reports of extremely barren wheat fields throughout the Ohio valley were chiefly responsible for strength in the wheat market tody in the face of favorable weather. The July option closed at a net gain of %c. Corn is down %6%c, oats are up %c and provisions are off 2%46%c.

Indifferent cables and brilliant weather throughout the northwest and southwest caused an easier tone in wheat at the opening, the July delivery being down %c at \$4%c. The close was firm and near the high point. Final quotations on July were at \$5%c. After the price had touched \$5%d \$5%c. May ranged between \$3%c and \$0c. elosing at \$5%c. Clearances of wheat and flour were equal to 18,40c bu. Primary receipts were 166,10c bu., against \$65,30c bu. a year ago. Minneapolis, Duluth and Chicago reported receipts of 16c cars, compared with \$6 cars last week and 201 cars a year ago.

The corn market acted heavily all day.

with 8 cars last week and 201 cars a year ago.

The corn market acted heavily all day, but there was very little change in prices until late in the session. July opened unchanged to a shade higher at 45% to 45% 45% c, and closed at 45% 45% c. May ranged between 45% c and 45% 65% c, and closed at 45% 45% c. May ranged between 45% c and 45% c closing at 45% c Local receipts were 157 cars, with 15 of contract grade.

There was some good buying in oats early in the day. The close, however, was firm. July opened 4c lower at 25%, sold up to 35% and closed at 25% c. May sold between 45% and closed at 25% c. May sold between 45% and closed at 25% c. May sold between 45% and 45% 64%, and closed at 45% c. Local receipts were 52 cars.

The principal business in provisions was in the way of changing from May to July, although there was some liquidation through commission houses. Indications are for increased hog receipts, which acted as a depressing influence. The close was easier, with July perk down 7% at \$11.57%. July lard was off 567% at \$5.57% and ribs were down 7% 56% at \$5.57% and ribs were down 5% Articles. | Open. | High. | Low. | Close. | Yes'y.

HOGS-Receipts were liberal again this morning at nearly all points and prices took another drop. Packers were rather biarish here and started out bidding a big nickel lower. They failed to get the hogs, however, and as they all seemed to be anxious for supplies, they raised their bids and the early sales were no more than a nickel lower. The market gained in strength and activity and toward the close a good share of the decline had been regained, the later sales being very largely at 4.62% and 54.65, or a good deal like yesterday's extreme close. Heavy hogs of good quality sold particularly well. The bulk of all the hogs went from 54.65 to 54.70. Owing to the activity, practically everything was disposed of before the middle of the forencen.

Receipts have been liberal all this weak, there being a gain over last week amounting to about 10.000 head and as compared with the same week of last year there is an increase of 24.000 head. Supplies at other points have also been heavy and the general tendency of prices has been downward. The net loss for the week amounts to nearly 20c. Representative sales:
