The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this most horrible of all diseases will pollute and vitiate the purest, healthlest blood, and within a short time after the first little sore appears the system is filled with the awful poison and the skin breaks out in a red rash; the glands of the groins

swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored splotches and sickening sores and eruptions. Contagious Blood Poison is as treacherous and clusive as the serpent. You may be carrying it in your veins with no visible evidences of its existence; for while mercury and

potash seem to cure and all external signs disappear, the disease is doing its destruc tive work within, or the patient is constantly harassed by returning symptoms and unmistakable traces of the blood poison. Thousands of physical wrecks and chronic invalids from the effects of Blood Poison know the uncertainty of the mercury and
